INTRODUCTION

On the 113 rolls of this microfilm publication are reproduced the records of Case VI, *United States of America v. Carl Krauch et al.* (I. G. Farben Case), 1 of the 12 trials of war criminals conducted by the U.S. Government from 1946 to 1949 at Nuernberg subsequent to the International Military Tribunal (IMT) held in the same city. These records consist of German- and English-language versions of official transcripts of court proceedings, prosecution and defense briefs and statements, and defendants' final pleas as well as prosecution and defense exhibits and document books in one language or the other. Also included are minute books, the official court file, order and judgment books, clemency petitions, and finding aids to the documents.

The transcripts of this trial, assembled in 2 sets of 43 bound volumes (1 set in German and 1 in English), are the recorded daily trial proceedings. Prosecution statements and briefs are also in both languages but unbound, as are the final pleas of the defendants delivered by counsel or defendants and submitted by the attorneys to the court. Unbound prosecution exhibits, numbered 1-2270 and 2300-2354, are essentially those documents from various Nuernberg record series, particularly the III (Nuernberg Industrialist) Series, and other sources offered in evidence by the prosecution in this case. Defense exhibits, also unbound, are predominantly affidavits by various persons. They are arranged by name of defendant and thereunder numerically, along with two groups of exhibits submitted in the general interest of all defendants. Both prosecution and defense document books consist of full or partial translations of exhibits into English. Loosely bound in folders, they provide an indication of the order in which the exhibits were presented before the tribunal.

Minute books, in two bound volumes, summarize the transcripts. The official court file, in nine bound volumes, includes the progress docket, the indictment, and amended indictment and the service thereof; applications for and appointments of defense counsel and defense witnesses and prosecution comments thereto; defendants' application for documents; motions and reports; uniform rules of procedures; and appendixes. The order and judgment books, in two bound volumes, represent the signed orders, judgments, and opinions of the tribunal as well as sentences and commitment papers. Defendants' clemency petitions, in three bound volumes, were directed to the military governor, the Judge Advocate General, and the U.S. District Court for the District of Columbia. The finding aids summarize transcripts, exhibits, and the official court file.

Case VI was heard by U.S. Military Tribunal VI from August 14, 1947, to July 30, 1948. Along with records of other Nuernberg

and Far East war crimes trials, the records of this case are part of the National Archives Collection of World War II War Crimes Records, Record Group 238.

The I. G. Farben Case was 1 of 12 separate proceedings held before several U.S. Military Tribunals at Nuernberg in the U.S. Zone of Occupation in Germany against officials or citizens of the Third Reich, as follows:

Authority for the proceedings of the IMT against the major Nazi war criminals derived from the Declaration on German Atrocities (Moscow Declaration) released November 1, 1943; Executive Order 9547 of May 2, 1945; the London Agreement of August 8, 1945; the Berlin Protocol of October 6, 1945; and the IMT Charter.

Authority for the 12 subsequent cases stemmed mainly from Control Council Law 10 of December 20, 1945, and was reinforced by Executive Order 9679 of January 16, 1946; U.S. Military Government Ordinances 7 and 11 of October 18, 1946, and February 17, 1947, respectively; and U.S. Forces, European Theater General Order 301 of October 24, 1946. Procedures applied by U.S. Military Tribunals in the subsequent proceedings were patterned after those of the IMT and further developed in the 12 cases, which required over 1,200 days of court sessions and generated more than 330,000 transcript pages.

Formation of the I. G. Farben Combine was a stage in the evolution of the German chemical industry, which for many years led the world in the development, production, and marketing of organic dyestuffs, pharmaceuticals, and synthetic chemicals. To control the excesses of competition, six of the largest chemical firms, including the Badische Anilin & Soda Fabrik, combined to form the Interessengemeinschaft (Combine of Interests, or Trust) of the German Dyestuffs Industry in 1904 and agreed to pool technological and financial resources and markets. The two remaining chemical firms of note entered the combine in 1916. In 1925 the Badische Anilin & Soda Fabrik, largest of the firms and already the majority shareholder in two of the other seven companies, led in reorganizing the industry to meet the changed circumstances of competition in the post-World War markets by changing its name to the I. G. Farbenindustrie Aktiengesellschaft, moving its home office from Ludwigshafen to Frankfurt, and merging with the remaining five firms.

Farben maintained its influence over both the domestic and foreign markets for chemical products. In the first instance the German explosives industry, dependent on Farben for synthetically produced nitrates, soon became subsidiaries of Farben. Of particular interest to the prosecution in this case were the various agreements Farben made with American companies for the exchange of information and patents and the licensing of chemical discoveries for foreign production. Among the trading companies organized to facilitate these agreements was the General Anilin and Film Corp., which specialized in photographic processes. The prosecution charged that Farben used these connections to retard the "Arsenal of Democracy" by passing on information received to the German Government and providing nothing in return, contrary to the spirit and letter of the agreements.

Farben was governed by an Aufsichtsrat (Supervisory Board of Directors) and a Vorstand (Managing Board of Directors). The Aufsichtsrat, responsible for the general direction of the firm, was chaired by defendant Krauch from 1940. The Vorstand actually controlled the day-to-day business and operations of Farben. Defendant Schmitz became chairman of the Vorstand in 1935, and 18 of the other 22 original defendants were members of the Vorstand and its component committees.

Transcripts of the I. G. Farben Case include the indictment of the following 24 persons:

Carl Wurster: Member of the Vorstand of Farben; Chief of the Works Combine, Upper Rhine; Plant Leader at Ludwigshafen and Oppau plants; production chief for inorganic chemicals; and Mehrwirtschaftsfuehrer.

The prosecution charged these 24 individual staff members of the firm with various crimes, including the planning of aggressive war through an alliance with the Nazi Party and synchronization of Farben's activities with the military planning of the German High Command by participation in the preparation of the 4-Year Plan, directing German economic mobilization for war, and aiding in equipping the Nazi military machines.¹ The defendants also were charged with carrying out espionage and intelligence activities in foreign countries and profiting from these activities. They participated in plunder and spoliation of Austria, Czechoslovakia, Poland, Norway, France, and the Soviet Union as part of a systematic economic exploitation of these countries. The prosecution also charged mass murder and the enslavement of many thousands of persons particularly in Farben plants at the Auschwitz and Monowitz concentration camps and the use of poison gas manufactured by the firm in the extermination

¹The trial of defendant Brueggemann was discontinued early during the proceedings because he was unable to stand trial on account of ill health.

of millions of men, women, and children. Medical experiments were conducted by Farben on enslaved persons without their consent to test the effects of deadly gases, vaccines, and related products. The defendants were charged, furthermore, with a common plan and conspiracy to commit crimes against the peace, war crimes, and crimes against humanity. Three defendants were accused of membership in a criminal organization, the SS. All of these charges were set forth in an indictment consisting of five counts.

The defense objected to the charges by claiming that regulations were so stringent and far reaching in Nazi Germany that private individuals had to cooperate or face punishment, including death. The defense claimed further that many of the individual documents produced by the prosecution were originally intended as "window dressing" or "howling with the wolves" in order to avoid such punishment.

The tribunal agreed with the defense in its judgment that none of the defendants were guilty of Count I, planning, preparation, initiation, and waging wars of aggression; or Count V, common plans and conspiracy to commit crimes against the peace and humanity and war crimes.

The tribunal also dismissed particulars of Count II concerning plunder and exploitation against Austria and Czechoslovakia. Eight defendants (Schmitz, von Schnitzler, ter Meer, Buergin, Haeffliger, Ilgner, Oster, and Kugler) were found guilty on the remainder of Count II, while 15 were acquitted. On Count III (slavery and mass murder), Ambros, Bueteffisch, Duerrfeld, Krauch, and ter Meer were judged guilty. Schneider, Bueteffisch, and von der Heyde also were charged with Count IV, membership in a criminal organization, but were acquitted.

The tribunal acquitted Gajewski, Gattineau, von der Heyde, Hoerlein, von Knieriem, Kuehne, Lautenschlaeger, Mann, Schneider, and Wurster. The remaining 13 defendants were given prison terms as follows:

<u>Name</u>	<u>Length of Prison Term (years)</u>
Ambros	8
Buergin	2
Bueteffisch	6
Duerrfeld	8
Haeffliger	2
Ilgner	3
Jaehne	1 1/2
Krauch	6
Kugler	1 1/2
Oster	2
Schmitz	4
von Schnitzler	5
ter Meer	7

All defendants were credited with time already spent in custody.

In addition to the indictments, judgments, and sentences, the transcripts also contain the arraignment and plea of each defendant (all pleaded not guilty) and opening statements of both defense and prosecution.

The English-language transcript volumes are arranged numerically, 1-43, and the pagination is continuous, 1-15834 (page 4710 is followed by pages 4710(1)-4710(285)). The German-language transcript volumes are numbered 1a-43a and paginated 1-16224 (14a and 15a are in one volume). The letters at the top of each page indicate morning, afternoon, or evening sessions. The letter "C" designates commission hearings (to save court time and to avoid assembling hundreds of witnesses at Nuernberg, in most of the cases one or more commissions took testimony and received documentary evidence for consideration by the tribunals). Two commission hearings are included in the transcripts: that for February 7, 1948, is on pages 6957-6979 of volume 20 in the English-language transcript, while that for May 7, 1948, is on pages 14775a-14776 of volume 40a in the German-language transcript. In addition, the prosecution made one motion of its own and, with the defense, six joint motions to correct the English-language transcripts. Lists of the types of errors, their location, and the prescribed corrections are in several volumes of the transcripts as follows:

- First Motion of the Prosecution, volume 1
- First Joint Motion, volume 3
- Second Joint Motion, volume 14
- Third Joint Motion, volume 24
- Fourth Joint Motion, volume 28
- Fifth Joint Motion, volume 34
- Sixth Joint Motion, volume 40

The prosecution offered 2,325 prosecution exhibits numbered 1-2270 and 2300-2354. Missing numbers were not assigned due to the difficulties of introducing exhibits before the commission and the tribunal simultaneously. Exhibits 1835-1838 were loaned to an agency of the Department of Justice for use in a separate matter, and apparently No. 1835 was never returned. Exhibits drew on a variety of sources, such as reports and directives as well as affidavits and interrogations of various individuals. Maps and photographs depicting events and places mentioned in the exhibits are among the prosecution resources, as are publications, correspondence, and many other types of records.

The first item in the arrangement of prosecution exhibits is usually a certificate giving the document number, a short description of the exhibits, and a statement on the location of the original document or copy of the exhibit. The certificate is followed by the actual prosecution exhibit (most are photostats,

but a few are mimeographed articles with an occasional carbon of the original). The few original documents are often affidavits of witnesses or defendants, but also ledgers and correspondence, such as:

<u>Exhibit No.</u>	<u>Doc. No.</u>	<u>Exhibit No.</u>	<u>Doc. No.</u>
322	NI 5140	1558	NI 11411
918	NI 6647	1691	NI 12511
1294	NI 14434	1833	NI 12789
1422	NI 11086	1886	NI 14228
1480	NI 11092	2313	■ 13566
1811	NI 11144		

In rare cases an exhibit is followed by a translation; in others there is no certificate. Several of the exhibits are of poor legibility and a few pages are illegible.

Other than affidavits, the defense exhibits consist of newspaper clippings, reports, personnel records, Reichgesetzblatt excerpts, photographs, and other items. The 4,257 exhibits for the 23 defendants are arranged by name of defendant and thereunder by exhibit number. Individual exhibits are preceded by a certificate wherever available. Two sets of exhibits for all the defendants are included.

Translations in each of the prosecution document books are preceded by an index listing document numbers, biased descriptions, and page numbers of each translation. These indexes often indicate the order in which the prosecution exhibits were presented in court. Defense document books are similarly arranged. Each book is preceded by an index giving document number, description, and page number for every exhibit. Corresponding exhibit numbers generally are not provided. There are several unindexed supplements to numbered document books. Defense statements, briefs, pleas, and prosecution briefs are arranged alphabetically by defendant's surname. Pagination is consecutive, yet there are many pages where an "a" or "b" is added to the numeral.

At the beginning of roll 1 key documents are filmed from which Tribunal VI derived its jurisdiction: the Moscow Declaration, U.S. Executive Orders 9547 and 9679, the London Agreement, the Berlin Protocol, the IMF Charter, Control Council Law 10, U.S. Military Government Ordinances 7 and 11, and U.S. Forces, European Theater General Order 301. Following these documents of authorization is a list of the names and functions of members of the tribunal and counsels. These are followed by the transcript covers giving such information as name and number of case, volume numbers, language, page numbers, and inclusive dates. They are followed by the minute book, consisting of summaries of the daily proceedings, thus providing an additional finding aid for the transcripts. Exhibits are listed in an index that notes the

type, number, and name of exhibit; corresponding document book, number, and page; a short description of the exhibit; and the date when it was offered in court. The official court file is summarized by the progress docket, which is preceded by a list of witnesses.

Not filmed were records duplicated elsewhere in this microfilm publication, such as prosecution and defense document books in the German language that are largely duplications of the English-language document books.

The records of the I. G. Farben Case are closely related to other microfilmed records in Record Group 238, specifically prosecution exhibits submitted to the IMT, T988; NI (Nuernberg Industrialist) Series, T301; NM (Nuernberg Miscellaneous) Series, M-936; NOKW (Nuernberg Armed Forces High Command) Series, T1119; NG (Nuernberg Government) Series, T1139; NP (Nuernberg Propaganda) Series, M942; WA (undetermined) Series, M946; and records of the Brandt case, M887; the Milch Case, M888; the Altstoetter case, M889; the Pohl Case, M890; the Flick Case, M891; the List case, M893; the Graefelt case, M894; and the Ohlendorf case, M895. In addition, the record of the IMT at Nuernberg has been published in the 42-volume *Trial of the Major War Criminals Before the International Military Tribunal* (Nuernberg, 1947). Excerpts from the subsequent proceedings have been published in 15 volumes as *Trials of War Criminals Before the Nuernberg Military Tribunal Under Control Council Law No. 10* (Washington). The Audiovisual Archives Division of the National Archives and Records Service has custody of motion pictures and photographs of all 13 trials and sound recordings of the IMT proceedings.

Martin K. Williams arranged the records and, in collaboration with John Mendelsohn, wrote this introduction.

DECLARATION ON GERMAN ATROCITIES

[Moscow Declaration]

Released November 1, 1943

THE UNITED KINGDOM, the United States and the Soviet Union have received from many quarters evidence of atrocities, massacres and cold-blooded mass executions which are being perpetrated by the Hitlerite forces in the many countries they have overrun and from which they are now being steadily expelled. The brutalities of Hitlerite domination are no new thing and all the peoples or territories in their grip have suffered from the worst form of government by terror. What is new is that many of these territories are now being redeemed by the advancing armies of the liberating Powers and that in their desperation, the receding Hitlerite Huns are redoubling their ruthless cruelties. This is now evidenced with particular clearness by monstrous crimes of the Hitlerites on the territory of the Soviet Union which is being liberated from the Hitlerites, and on French and Italian territory.

Accordingly, the aforesaid three allied Powers, speaking in the interests of the thirty-two [thirty-three] United Nations, hereby solemnly declare and give full warning of their declaration as follows:

At the time of the granting of any armistice to any government which may be set up in Germany, those German officers and men and members of the Nazi party who have been responsible for, or have taken a consenting part in the above atrocities, massacres, and executions, will be sent back to the countries in which their abominable deeds were done in order that they may be judged and punished according to the laws of these liberated countries and of the free governments which will be created therein. This will be complied in all possible detail from all those countries having regard especially to the invaded parts of the Soviet Union, to Poland and Czechoslovakia, to Yugoslavia and Greece, including Crete and other islands, to Norway, Denmark, the Netherlands, Belgium, Luxembourg, France and Italy.

Thus, the Germans who take part in wholesale shootings of Italian officers or in the execution of French, Dutch, Belgian, or Norwegian hostages or of Cretan peasants, or who have shared in the slaughter inflicted on the people of Poland or in territories of the Soviet Union which are now being swept clear of the enemy, will know that they will be brought back to the scene of their crimes and judged on the spot by the peoples whom they have outraged. Let those who have hitherto not lubricated their hands with innocent blood beware lest they join the ranks of the guilty, for most assuredly the three allied Powers will pursue them to the uttermost ends of the earth and will deliver them to their accusers in order that justice may be done.

The above declaration is without prejudice to the case of the major criminals, whose offences have no particular geographical localization and who will be punished by the joint decision of the Governments of the Allies.

CHARTER OF THE INTERNATIONAL MILITARY TRIBUNAL

I. CONSTITUTION OF THE INTERNATIONAL MILITARY TRIBUNAL

Article 1.

In pursuance of the Agreement signed on the 8th day of August 1945 by the Government of the United States of America, the Provisional Government of the French Republic, the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the Union of Soviet Socialist Republics, there shall be established an International Military Tribunal (hereinafter called "the Tribunal") for the just and prompt trial and punishment of the major war criminals of the European Axis.

Article 2.

The Tribunal shall consist of four members, each with an alternate. One member and one alternate shall be appointed by each of the Signatories. The alternates shall, so far as they are able, be present at all sessions of the Tribunal. In case of illness of any member of the Tribunal or his incapacity for some other reason to fulfill his functions, his alternate shall take his place.

Article 3.

Neither the Tribunal, its members nor their alternates can be challenged by the prosecution, or by the Defendants or their Counsel. Each Signatory may replace its member of the Tribunal or his alternate for reasons of health or for other good reasons, except that no replacement may take place during a Trial, other than by an alternate.

Article 4.

- (a) The presence of all four members of the Tribunal or the alternate for any absent member shall be necessary to constitute the quorum.

(b) The members of the Tribunal shall, before any trial begins, agree among themselves upon the selection from their number of a President, and the President shall hold office during that trial, or as may otherwise be agreed by a vote of not less than three members. The principle of rotation of presidency for successive trials is agreed. If, however, a session of the Tribunal takes place on the territory of one of the four Signatories, the representative of that Signatory on the Tribunal shall preside.

(c) Save as aforesaid the Tribunal shall take decisions by a majority vote and in case the votes are evenly divided, the vote of the President shall be decisive; provided always that convictions and sentences shall only be imposed by affirmative votes of at least three members of the Tribunal.

Article II.

In case of need and depending on the number of the matters to be tried, other Tribunals may be set up; and the establishment, functions, and procedure of each Tribunal shall be identical, and shall be governed by this Charter.

II. JURISDICTION AND GENERAL PRINCIPLES

Article 3.

The Tribunal established by the Agreement referred to in Article 1 hereof for the trial and punishment of the major war criminals of the European Axis countries shall have the power to try and punish persons who, acting in the interests of the European Axis countries, whether as individuals or as members of organizations, committed any of the following crimes-

The following acts, or any of them, are crimes coming within the jurisdiction of the Tribunal for which there shall be individual responsibility:

- (a) CRIMES AGAINST PEACE: namely, planning, preparation, initiation or waging of a war of aggression, or a war in violation of international treaties, agreements or assurances, or participation in a common plan or conspiracy for the accomplishment of any of the foregoing;
- (b) WAR CRIMES: namely, violations of the laws or customs of war. Such violations shall include, but not be limited to, murder, ill-treatment or deportation to slave labor or for any other purpose of civilian population of or in occupied territory, murder or ill-treatment of prisoners of war or persons on the seas, killing of hostages, plunder of public or private property, wanton destruction of cities, towns or villages, or devastation not justified by military necessity;
- (c) CRIMES AGAINST HUMANITY: namely, murder, extermination, enslavement, deportation, and other inhumane acts committed against any civilian population, before or during the war; or persecutions on political, racial or religious grounds in execution of or in connection with any crime within the jurisdiction of the Tribunal, whether or not in violation of the domestic law of the country where perpetrated.

Leaders, organizers, instigators and accomplices participating in the formulation or execution of a common plan or conspiracy to commit any of the foregoing crimes are responsible for all acts performed by any persons in execution of such plan.

Article 7.

The official position of defendants, whether as Heads of State or responsible officials in Government Departments, shall not be considered as freeing them from responsibility or mitigating punishment.

Article 8.

The fact that the Defendant acted pursuant to order of his Government or of a superior shall not free him from responsibility, but may be considered in mitigation of punishment if the Tribunal determines that justice so requires.

Article 9.

At the trial of any individual member of any group or organization the Tribunal may declare (in connection with any act of which the individual may be convicted) that the group or organization of which the individual was a member was a criminal organization.

After receipt of the Indictment the Tribunal shall give such notice as it thinks fit that the prosecution intends to ask the Tribunal to make such declaration and any member of the organization will be entitled to apply to the Tribunal for leave to be heard by the Tribunal upon the question of the criminal character of the organization. The Tribunal shall have power to allow or reject the application. If the application is allowed, the Tribunal may direct in what manner the applicants shall be represented and heard.

Article 10.

In cases where a group or organization is declared criminal by the Tribunal, the competent national authority of any Signatory shall have the right to bring individuals to trial for membership therein before national, military or occupation courts. In any such case the criminal nature of the group or organization is considered proved and shall not be questioned.

Article 11.

Any person convicted by the Tribunal may be charged before a national, military or occupation court, referred to in Article 10 of this Charter, with a crime other than of membership in a criminal group or organization and such court may, after convicting him, impose upon him punishment independent of and additional to the punishment imposed by the Tribunal for participation in the criminal activities of such group or organization.

Article 12.

The Tribunal shall have the right to take proceedings against a person charged with crimes set out in Article 6 of this Charter in his absence, if he has not been found or if the Tribunal, for any reason, finds it necessary, in the interests of justice, to conduct the hearing in his absence.

Article 13.

The Tribunal shall draw up rules for its procedure. These rules shall not be inconsistent with the provisions of this Charter.

III. COMMITTEE FOR THE INVESTIGATION
AND PROSECUTION OF MAJOR WAR CRIMINALS

Article 14.

Each Signatory shall appoint a Chief Prosecutor for the investigation of the charges against and the prosecution of major war criminals.

The Chief Prosecutors shall act as a committee for the following purposes:

- (a) to agree upon a plan of the individual work of each of the Chief Prosecutors and his staff,
- (b) to settle the final designation of major war criminals to be tried by the Tribunal,
- (c) to approve the Indictment and the documents to be submitted therewith,

- (d) to lodge the Indictment and the accompanying documents with the Tribunal,
- (e) to draw up and recommend to the Tribunal for its approval draft rules of procedure, contemplated by Article 13 of this Charter. The Tribunal shall have power to accept, with or without amendments, or to reject, the rules so recommended.

The Committee shall act in all the above matters by a majority vote and shall appoint a Chairman as may be convenient and in accordance with the principle of rotation: provided that if there is an equal division of vote concerning the designation of a Defendant to be tried by the Tribunal, or the crimes with which he shall be charged, that proposal will be adopted which was made by the party which proposed that the particular Defendant be tried, or the particular charges be preferred against him.

Article 15.

The Chief Prosecutors shall individually, and acting in collaboration with one another, also undertake the following duties:

- (a) investigation, collection and production before or at the Trial of all necessary evidence,
- (b) the preparation of the Indictment for approval by the Committee in accordance with paragraph (c) of Article 14 hereof,
- (c) the preliminary examination of all necessary witnesses and of the Defendants,
- (d) to act as prosecutor at the Trial,
- (e) to appoint representatives to carry out such duties as may be assigned to them,

- (f) to undertake such other matters as may appear necessary to them for the purposes of the preparation for and conduct of the Trial.

It is understood that no witness or Defendant detained by any Signatory shall be taken out of the possession of that Signatory without its assent.

IV. FAIR TRIAL FOR DEFENDANTS

Article 18.

In order to ensure fair trial for the Defendants, the following procedure shall be followed:

Article 20.

Article 21.

The expenses of the Tribunal and of the Trials, shall be charged by the Signatories against the funds allotted for maintenance of the Control Council for Germany.

PROTOCOL

Whereas an Agreement and Charter regarding the Prosecution of War Criminals was signed in London on the 8th August 1945, in the English, French, and Russian languages,

And whereas a discrepancy has been found to exist between the originals of Article 6, paragraph (c), of the Charter in the Russian language, on the one hand, and the originals in the English and French languages, on the other, to wit, the semi-colon in Article 6, paragraph (c), of the Charter between the words "war" and "or," as carried in the English and French texts, is a comma in the Russian text,

And whereas it is desired to rectify this discrepancy:

NOW, THEREFORE, the undersigned, signatories of the said Agreement on behalf of their respective Governments, duly authorized thereto, have agreed that Article 6, paragraph (c), of the Charter in the Russian text is correct, and that the meaning and intention of the Agreement and Charter require that the said semi-colon in the English text should be changed to a comma, and that the French text should be amended to read as follows:

- a) LES CRIMES CONTRE L'HUMANITE: c'est à dire l'assassinat, l'extermination, la réduction en esclavage, la déportation, et tout autre acte inhumain commis contre toutes populations civiles, avant ou pendant la guerre, ou bien les persécutions pour des motifs politiques, raciaux, ou religieux, lorsque ces actes ou persécutions, qu'ils aient constitué ou non une violation du droit interne du pays où ils ont été perpétrés, ont été commis à la suite de tout crime rentrant dans la compétence du Tribunal, ou en liaison avec ce crime.

IN WITNESS WHEREOF the Undersigned have signed the present Protocol.

DONE in quadruplicate in Berlin this 6th day of October, 1945, each in English, French, and Russian, and each text to have equal authenticity.

CONTROL COUNCIL

Law No. 10

**PUNISHMENT OF PERSONS GUILTY OF WAR CRIMES,
CRIMES AGAINST PEACE AND AGAINST HUMANITY**

In order to give effect to the terms of the Moscow Declaration of 30 October 1943 and the London Agreement of 8 August 1945, and the Charter issued pursuant thereto and in order to establish a uniform legal basis in Germany for the prosecution of war criminals and other similar offenders, other than those dealt with by the International Military Tribunal, the Control Council enacts as follows:

Article I

The Moscow Declaration of 30 October 1943 "Concerning Responsibility of Hitlerites for Committed Atrocities" and the London Agreement of 8 August 1945 "Concerning Prosecution and Punishment of Major War Criminals of the European Axis" are made integral parts of this Law. Adherence to the provisions of the London Agreement by any of the United Nations, as provided for in Article V of that Agreement, shall not entitle such Nation to participate or interfere in the operation of this Law within the Control Council area of authority in Germany.

Article II

1. Each of the following acts is recognized as a crime:

(a) Crimes against Peace. Initiation of invasions of other countries and wars of aggression in violation of international laws and treaties, including but not limited to planning, preparation, initiation or waging a war of aggression, or a war of violation of international treaties, agreements or assurances, or participation in a common plan or conspiracy for the accomplishment of any of the foregoing.

(b) War Crimes. Atrocities or offenses against persons or property constituting violations of the laws or customs

of war, including but not limited to, murder, ill treatment or deportation to slave labour or for any other purpose, of civilian population from occupied territory, murder or ill treatment of prisoners of war or persons on the seas, killing or hostages, plunder of public or private property, wanton destruction of cities, towns or villages, or devastation not justified by military necessity.

(c) Crimes against Humanity. Atrocities and offenses, including but not limited to murder, extermination, enslavement, deportation, imprisonment, torture, rape, or other inhumane acts committed against any civilian population, or persecutions on political, racial or religious grounds whether or not in violation of the domestic laws of the country where perpetrated.

(d) Membership in categories of a criminal group or organization declared criminal by the International Military Tribunal.

2. Any person without regard to nationality or the capacity in which he acted, is deemed to have committed a crime as defined in paragraph 1 of this Article, if he was (a) a principal or (b) was an accessory to the commission of any such crime or ordered or abetted the same or (c) took a consenting part therein or (d) was connected with plans or enterprises involving its commission or (e) was a member of any organization or group connected with the commission of any such crime or (f) with reference to paragraph 1 (a), if he held a high political, civil or military (including General Staff) position in Germany or in one of its allies, co-belligerents or satellites or held high position in the financial, industrial or economic life of any such country.

3. Any person found guilty of any of the Crimes above mentioned may upon conviction be punished as shall be determined by the tribunal to be just. Such punishment may consist of one or more of the following:

(a) Death.

(b) Imprisonment for life or a term of years, with or without hard labour.

- (c) Fine, and imprisonment with or without hard labour, in lieu thereof.
- (d) Forfeiture of property.
- (e) Restitution of property wrongfully acquired.
- (f) Deprivation of some or all civil rights.

Any property declared to be forfeited or the restitution of which is ordered by the Tribunal shall be delivered to the Control Council for Germany, which shall decide on its disposal.

4. (a) The official position of any person, whether as Head of State or as a responsible official in a Government Department, does not free him from responsibility for a crime or entitle him to mitigation of punishment.

(b) The fact that any person acted pursuant to the order of his Government or of a superior does not free him from responsibility for a crime, but may be considered in mitigation.

5. In any trial or prosecution for a crime herein referred to, the accused shall not be entitled to the benefits of any statute of limitation in respect of the period from 30 January 1933 to 1 July 1945, nor shall any immunity, pardon or amnesty granted under the Nazi regime be admitted as a bar to trial or punishment.

Article III

1. Each occupying authority, within its Zone of occupation,

(a) shall have the right to cause persons within such zone suspected of having committed a crime, including those charged with crime by one of the United Nations, to be arrested and shall take under control the property, real and personal, owned or controlled by the said persons, pending decisions as to its eventual disposition.

(b) shall report to the Legal Directorate the names of all suspected criminals, the reasons for and the places of their detention, if they are detained, and the names and location of witnesses.

(c) shall take appropriate measures to see that witnesses and evidence will be available when required.

(d) shall have the right to cause all persons so arrested and charged, and not delivered to another authority as herein provided, or released, to be brought to trial before an appropriate tribunal. Such tribunal may, in the case of crimes committed by persons of German citizenship or nationality against other persons of German citizenship or nationality, or stateless persons, be a German Court, if authorized by the occupying authorities.

2. The tribunal by which persons charged with offenses hereunder shall be tried and the rules and procedure thereof shall be determined or designated by each Zone Commander for his respective Zone. Nothing herein is intended to, or shall impair or limit the jurisdiction or power of any court or tribunal now or hereafter established in any Zone by the Commander thereof, or of the International Military Tribunal established by the London Agreement of 8 August 1945.

3. Persons wanted for trial by an International Military Tribunal will not be tried without the consent of the Committee of Chief Prosecutors. Each Zone Commander will deliver such persons who are within his Zone to that committee upon request and will make witnesses and evidence available to it.

4. Persons known to be wanted for trial in another zone or outside Germany will not be tried prior to decision under Article IV unless the fact of their apprehension has been reported in accordance with Section 1 (b) of this Article, three months have elapsed thereafter, and no request for delivery of the type contemplated by Article IV has been received by the Zone Commander concerned.

5. The execution of death sentences may be deferred by not to exceed one month after the sentence has become final when the Zone Commander concerned has reason to believe

that the testimony of those under sentence would be of value in the investigation and trial of crimes within or without his Zone.

6. Each Zone Commander will cause such effect to be given to the judgments of courts of competent jurisdiction, with respect to the property taken under his control pursuant hereto, as he may deem proper in the interest of justice.

Article IV

1. When any person in a Zone in Germany is alleged to have committed a crime, as defined in Article II, in a country other than Germany or in another Zone, the government of that nation or the Commander of the latter Zone, as the case may be, may request the Commander of the Zone in which the person is located for his arrest and delivery for trial to the country or Zone in which the crime was committed. Such request for delivery shall be granted by the Commander receiving it unless he believes such person is wanted for trial or as a witness by an International Military Tribunal, or in Germany, or in a nation other than the one making the request, or the Commander is not satisfied that delivery should be made, in any of which cases he shall have the right to forward the said request to the Legal Directorate of the Allied Control Authority. A similar procedure shall apply to witnesses, material exhibits and other forms of evidence.

2. The Legal Directorate shall consider all requests referred to it, and shall determine the same in accordance with the following principles, its determination to be communicated to the Zone Commander.

(a) A person wanted for trial or as a witness by an International Military Tribunal shall not be delivered for trial or required to give evidence outside Germany, as the case may be, except upon approval by the Committee of Chief Prosecutors acting under the London Agreement of August 1945.

(b) A person wanted for trial by several authorities (other than an International Military Tribunal) shall be disposed of in accordance with the following priorities:

- (1) If wanted for trial in the Zone in which he is, he should not be delivered unless arrangements are made for his return after trial elsewhere;
- (2) If wanted for trial in a Zone other than that in which he is, he should be delivered to that Zone in preference to delivery outside Germany unless arrangements are made for his return to that Zone after trial elsewhere;
- (3) If wanted for trial outside Germany by two or more of the United Nations, of one of which he is a citizen, that one should have priority;
- (4) If wanted for trial outside Germany by several countries, not all of which are United Nations, United Nations should have priority;
- (5) If wanted for trial outside Germany by two or more of the United Nations, then, subject to Article IV 2 (b) (3) above, that which has the most serious charges against him, which are moreover supported by evidence, should have priority.

Article V

The delivery, under Article IV of this Law, of persons for trial shall be made on demands of the Governments or Zone Commanders in such a manner that the delivery of criminals to one jurisdiction will not become the means of defeating or unnecessarily delaying the carrying out of justice in another place. If within six months the delivered person has not been convicted by the Court of the Zone or country to which he has been delivered, then such person shall be returned upon demand of the Commander of the Zone where the person was located prior to delivery.

c) A defendant shall have the right to be represented by counsel of his own selection, provided such counsel shall be a person qualified under existing regulations to conduct cases before the courts of defendant's country, or any other person who may be specially authorized by the tribunal. The tribunal shall appoint qualified counsel to represent a defendant who is not represented by counsel of his own selection.

d) Every defendant shall be entitled to be present at his trial except that a defendant may be proceeded against during temporary absences if in the opinion of the tribunal defendant's interests will not thereby be impaired, and except further as provided in Article VI(e). a) Dem Angeklagten sei eine Ausfertigung der Anklage sowie alle mit der Anklage eingereichten Urkunden, worin sie in einer Sprache, der er mächtig ist, innerhalb einer angemessenen Frist vor der Hauptverhandlung zu übermitteln. Die Anklageschrift soll die Klagepunkte einfach, deutlich und mit genügenden Einzelheiten bezeichnen, um den Angeklagten über die ihm zur Last gelegte strafbare Handlung zu unterrichten.

b) Die Hauptverhandlung ist in einer Sprache zu führen, oder in eine Sprache zu übersetzen, der der Angeklagte mächtig ist.

c) Der Angeklagte hat das Recht, sich von einem Vertreter seiner eigenen Wahl vertreten zu lassen, vorausgesetzt, daß der Verteidiger nach den geltenden Bestimmungen befähigt ist, Verteidigungen vor den Gerichten des Landes des Angeklagten zu führen. Das Gericht hat einem Angeklagten, der nicht von einem Verteidiger seiner eigenen Wahl vertreten ist, einen entsprechend befähigten Verteidiger zur Vertretung zu bestellen.

d) Jeder Angeklagte ist berechtigt, bei der Hauptverhandlung gegenwärtig zu sein, mit der Ausnahme, daß gegen einen Angeklagten, der zeitweise abwesend ist, verhandelt werden kann, wenn nach Ansicht des Gerichts die Interessen des Angeklagten dadurch nicht beeinträchtigt werden und mit der weiteren in Artikel VI(e) vorgesehenen Ausnahme. In dem Antrag ist anzugeben, wo der Zeuge oder die Urkunde vermutlich zu finden sind, ferner sind die Tatsachen zu bezeichnen, die durch den Zeugen oder die Urkunde bewiesen werden sollen, und es ist die Erheblichkeit dieser Tatsachen für die Verteidigung darzutun. Gibt das Gericht dem Antrag statt, so ist dem Angeklagten die Unterstützung zur Herbeischaffung des Beweismittels zu gewähren, die das Gericht anordnet.

ARTIKEL V

Das Gericht hat das Recht:

a) Zeugen für die Hauptverhandlung zu laden, ihre Anwesenheit und Aussage zu verlangen und Fragen an sie zu richten;

b) einen Angeklagten, der in eigener Sache oder in Sachen anderer Angeklagter als Zeuge auftritt, zu vernehmen;

c) die Beibringung von Urkunden und anderen Beweismaterialien zu verlangen;

d) die Zeugen zu verurteilen;

e) Delegierte zwecks Ausführung von Aufgaben zu ernennen, die ihnen der Gerichtshof zuweist, einschließlich der Beweiserhebung kraft Auftrags.

f) Verfahrensregeln in Übereinstimmung mit dieser Verordnung anzunehmen. Solche Verfahrensregeln sind von Mitgliedern des betreffenden Gerichts oder von dem in Artikel XIII vorgesehenen Ausschuss der den Vorsitz führenden Richter anzunehmen und, soweit erforderlich, von Zeit zu Zeit abzuändern.

ARTICLE VI

The tribunals shall

- a) Confine the trial strictly to an expeditious hearing of issues raised by the charges.
- b) Take strict measures to prevent any action which will cause unreasonable delay, and rule out irrelevant issues and statements in any kind whatsoever.
- c) Deal summarily with any contumacy, imposing appropriate punishment, including the exclusion of any defendant or his counsel from some or all further proceedings, but without prejudice to the determination of the charges.

ARTICLE VII

The tribunals shall not be bound by technical rules of evidence. They shall adopt and apply to the greatest possible extent expeditious and non-technical procedure, and shall admit any evidence which they deem to have probative value. Without limiting the foregoing general rules, the following shall be deemed admissible if they appear to the tribunal to contain information of probative value relating to the charges, affidavits, depositions, interrogations, and other statements, diaries, letters, the records, findings, statements and judgments of the military tribunals and the reviewing and confirming authorities of any of the United Nations, and copies of any document or other secondary evidence of the contents of any document, if the original is not readily available or cannot be produced without delay. The tribunal shall afford the opposing party such opportunity to question the authenticity or probative value of such evidence as in the opinion of the tribunal the ends of justice require.

ARTICLE VIII

The tribunals may require that they be informed of the nature of any evidence before it is offered so that they may rule upon the relevance thereof.

ARTICLE IX

The tribunals shall not require proof of facts of common knowledge but shall take judicial notice thereof. They shall also take judicial notice of official governmental documents and reports of any of the United Nations, including the acts and documents of the committees set up in the various Allied countries for the investigation of war crimes, and the records and findings of military or other tribunals of any of the United Nations.

ARTICLE X

The determinations of the International Military Tribunal in the judgments in Case No. 1 that invasions, aggressive acts, aggressive wars, crimes, atrocities or inhuman acts were planned or occurred, shall be binding on the tribunals established hereunder and shall not be questioned except insofar as the participation therein or knowledge thereof by any particular person may be concerned. Statements of the International Military Tribunal in the judgment in Case No. 1 constitute proof of the facts stated, in the absence of substantial new evidence to the contrary.

ARTICLE XI

The proceedings at the trial shall take the following course:

1. The tribunal shall inquire of each defendant whether he has received and had an opportunity to read the indictment against him and whether he pleads "guilty" or "not guilty".

ARTIKEL VI

Die Gerichte sollen:

- a) Den Prozeß streng auf eine beschleunigte Verhandlung der durch die Anklage geltend gemachten Punkte beschränken;
- b) strenge Maßnahmen ergreifen, um jede Handlung zu vermeiden, die eine unnötige Verzögerung verursachen könnte, und unerhebliche Fragen und Erklärungen jedweder Art ablehnen;
- c) ungebührliches Benehmen durch Auferlegung von angemessenen Strafen bestrafen, einschließlich des Ausschlusses des Angeklagten oder seines Verteidigers von einzelnen oder allen weiteren Prozeßhandlungen; die so bewirkte Fortführung der Beschuldigung darf hierdurch nicht beeinträchtigt werden.

ARTIKEL VII

Die Gerichte sind an Beweisregeln nicht gebunden, sie sollen im weiten Ausmaß ein schnelles und nicht formelles Verfahren anwenden, und jedes Beweismaterial, das ihnen Beweiswert zu haben scheint, zulassen. Unbeschadet der vorstehenden allgemeinen Bestimmungen sind die folgenden Beweismittel als zulässig anzusehen, wenn sie nach Ansicht des Gerichts Informationen zu enthalten scheinen, die bezüglich der Anklage von Beweiswert sind: eidesstattliche Erklärungen, Aussagen vor einem kommissarischen Richter, Verhöre und andere Erklärungen, Tagebücher, Briefe, Protokolle, Untersuchungsergebnisse, Erklärungen und Urteile der Militärgerichte und der nachprüfenden und bestätigenden Behörden einer der Vereinten Nationen und Zeugnisschriften von Urkunden oder andere indirekte Beweise. Der Inhalt einer Urkunde, wenn das Original nicht ohne weiteres zur Verfügung steht. Das Gericht hat der Gegenpartei die Gelegenheit zur Bestreitung der Echtheit oder des Beweiswertes eines solchen Beweismittels in dem Ausmaß zu geben, als das nach Ansicht des Gerichts für die Rechtsfindung erforderlich ist.

ARTIKEL VIII

Die Gerichte können vor der Beweisantrittung Auskunft über die Natur des Beweismittels verlangen, um über seine Erheblichkeit entscheiden zu können.

ARTIKEL IX

Dr. Seidl, Dr. Aschenauer, Dr. Hoffmann, Dr. Henze.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of
Justice, at 1000.

The Deputy Marshal reported that all defendants were
present in the Court Room, with the exception of the defendant
Max Brueggemann, excused due to illness in hospital, Karl Wurster,
excused due to illness in hospital in French Zone, Karl Lautenschlaeger,

excused due to the death of his son.

The Court opened with the calling of the roll. Chief of Counsel requested that on the basis of a medical report on the defendant Brueggemann, the trial as pertain to him be postponed for an indefinite period, but that his indictment remain a part of the record. The Tribunal stated they would pass on the matter at the conclusion of roll call. The defendant Lautenschlaeger was excused by the Tribunal because of the death of his son and is to be indicted at the next court session.

Chief of Counsel then stated the indictment on the defendant Wurster had been served by the Marshal in the hospital in Ludwigshafen, French Zone. Also that Counsel for Wurster had requested severance of proceedings against the defendant. Chief of Counsel objected on the grounds that further medical examinations had proved the defendant sufficiently recovered so that he could be transported to Nuernberg.

The Tribunal ruled that the arraignment and trial of Brueggemann and Wurster be postponed until present or, as an alternative, until further order of the Tribunal. The charges against the two defendants will continue and the indictment will not be dismissed, however their names could be dropped from the rolls.

At this point Defense Counsel for Krauch requested to make a declaration before the arraignment. He declared the indictment did not conform to existing regulations since the counts against defendants were too general and not clear out. He further stated that each defendant should be indicted on individual counts with sufficient details. As the form of indictment now stands the question of guilty or not guilty could not be put. He then pointed to several instances in an attempt to prove his point. He further objected to the adverse working conditions and requested Secretary General and Prosecution to allow sufficient help to prepare proper defense. He stated a period of 6 months was needed to properly prepare the defense.

The Chief of Counsel answered by stating the indictment was far more complete in particulars than others filed in Nuernberg.

Counsel for von Schnitzler further enlarged upon the argument given by Counsel for Krauch, quoting from several paragraphs in the indictment in order to prove the point of generalities.

Chief of Counsel then stated, that from his viewpoint the argument of defense counsels was irrelevant and requested the pleas of the defendants be taken and formal complaints should be made by the defense to the Tribunal. The Tribunal so ruled.

The Secretary General then called the defendants one by one for arraignment. All defendants present pleaded not guilty. The Tribunal stated, ■ there were no objections they would waive the formal reading of the indictment. There were no objections and Court was recessed until 0930, 27 August 1947.

APPEARANCES

FOR THE PROSECUTION:

Chief of Counsel, Brig. Gen. Taylor
Mr. Dubois
Mr. Spracher

FOR THE DEFENDANTS:

Regularly appointed defense counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0932.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendants Max Erueggemann and Karl Wurster, excused due to illness.

The opening proceedings began with the formal arraignment of the defendant Karl Lautenschlaeger, who pleaded "Not Guilty" to the charges against him. The Tribunal then handed down their opinion on the two objections previously made by Defense Counsel concerning insufficiencies of the indictment, and the request for postponement of proceedings for six months to permit the defendants to prepare their respective defenses to the indictment. The Tribunal denied the petitions in all respects. However, they stated, as the trial progresses, it appears on proper application to the Tribunal, that a continuance is necessary, the application will again be considered.

Defense Counsel for Krauch stated that under existing laws, the Defense could only request continuance again, at the time of denial and he so requested.

Chief of Counsel, Brig. Gen. Taylor then began his opening speech assisted by Mr. Dubois and Mr. Sprecher.

The Tribunal recessed at 1705, to reconvene at 0930, Thursday, 28 August 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. Dubois

FOR THE DEFENDANTS:

Regularly appointed defense counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0930.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendants Brueggemann and Wurster, excused due to illness.

Defense Counsel for Von der Heyde referring to previous requests for the Tribunal to approve the calling of three witnesses stated that one important defense witness had, in the interim been interrogated by the Prosecution and that his application for interrogation of all three witnesses had been disapproved by the Prosecution and Tribunal.

The Prosecution then explained, that the motions were denied as being premature, but could again be ruled on by the Tribunal.

Counsel for Krauch then stated that certain charts and information in the Doc. Bks "Basic Information" were some what incorrect and requested, that they not be produced until they could be checked by Defense with the Prosecution. The Prosecution stated, they would, at any time sit with Defense Counsel on any discrepancies in the book mentioned.

The Tribunal then stated, that because considerable time was taken in reading whole documents they suggested

a summary be read of each document.

The Prosecution then explained their method of procedure and proceeded to introduce documents from Doc. Bk. I.

Counsel for V. Schnitzler objected to Exh. 5, PS 2760 A, because it was written by Hitler, when a private citizen and when he came to power, the text of the books was changed. The Tribunal overruled the objection:

Counsel for V. Schnitzler again objected to Ex. 7, PS 2433 since it was again the opinion of a private citizen.

The Tribunal stated, that so early in the trial they could not determine its connection with any defendant and Defense Counsel could at any time request the documents removed from the record.

Counsel for defendant Schmitz stated, his client was to have a physical examination and therefore requested, he be excused for the rest of the session. The Tribunal consented.

10	NI 7765	I 48	Aff. Paul Schmidt, 3 July 47 (Identification only)

Counsel for Krauch stated, that Defense Counsel was receiving one copy each of document books, which left none for the defendant. He suggested the essential parts of each document be read for the benefit of the defendants or that sufficient copies be supplied. The Tribunal suggested a conference between Defense and Prosecution to straighten out the differences.

11	NI 5196	I 54 (Withdrawn)	Aff. V. Schnitzler,

Counsel for V. Schnitzler objected to the admission of Doc. NI 5196 into evidence, because it referred to several affidavits of different dates and because the signer was in the dock and it would appear to incriminate him. Also that the affidavit was taken under duress. The original copies of the affidavit were then requested by Defense Counsel, who further asked for time to discuss them with his client. The Tribunal ruled, the document to be withdrawn until Defense had sufficient time to discuss it with the defendant Von Schnitzler. It was withdrawn.

Counsel for Krauch argued, that the above rule also applied to Exh. 13, NI 6524. Prosecution stated the same rule could not apply since there was no question of duress in this case. The Tribunal again explained their previous ruling. The Prosecution then attempted to introduce Doc. Bk. II, but Counsel for Krauch objected since the Defense had not been given possession of the book for 24 hours.

Prosecution stated, that the book was delivered at 1100 hours, 27 Aug 47, which covered the time period and also that the individual documents contained therein were in most cases made available to the Defense for some time, however there were a few, that were unavailable and therefore suggested an adjournment. The Tribunal stated, that the actual 24 hour rule was not upheld as far as some documents were concerned and they would adjourn until 0930, 29 August 1947. They further announced, that they would not sit on 1st September, it being a legal Holiday.

The Tribunal recessed at 1403.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0931.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendants Schmitz, Brueggemann, Wurster, excused due to illness.

The proceedings opened by the Prosecution stating, they would present many affidavits, signed by former Farben employees, who could be produced as witnesses, if the Tribunal so ruled.

Counsel for Krauch then requested a ruling on the legality of admitting affidavits, signed by the defendants, when such instruments incriminated them.

The Tribunal reviewed their view on this situation, explained in detail in the session of 28 August 1947:

18	NI 5197	II	67	Aff. V. Schnitzler, 27 Mar 47

Counsel for Von der Heide and Von Schnitzler objected to Ex. 18, NI 5197 since it was in the same category as the one ordered withdrawn in yesterday's session. The Tribunal ruled, it would pass the document at this time. The document to be held in obedience, but kept on the record:

26	NI 4833	III 4	Aff. Gattineau, 13 Mar 47 (Identif. only)

Counsel for Gattineau objected to Ex. 26, NI 4833 since it was made under coercion. The Tribunal stated a formal complaint would have to be made and further that the document would be held in evidence, but passed until the next session. The Prosecution then stated, he would submit the document for identification only. The Tribunal ruled, that all complaints of duress would be submitted in writing and not from the floor of the court.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0932.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendants Brueggemann, Wurster and Schmitz, excused due to illness.

The Prosecution opened the proceedings by stating, there were matters left over from the last session. Defense Counsel for Von Schnitzler submitted a formal objection to Document NI 5196. Prosecution explained their method of obtaining the interrogation document in question. The Tribunal answered by stating, that it had not been shown, that the affiant had been under duress. The objection to introduction of the affidavit was overruled.

The Prosecution then raised the question of bringing witnesses to Nurnberg, who had previously signed affidavits. Counsel for Schneider answered, each case would have to be handled individually and a blanket rule should not be made. He further stated, that Defense Counsel and Prosecution could in most cases agree as to whether an affiant should

be called.

Tribunal expressed their approval of the method suggested. The Prosecution then proceeded with the introduction of documentary evidence, subject to objection:

Counsel for Wurster objected to Exh. 270, since paragraph XIII was crossed out in the original document and that it could not be determined at what office it had been crossed out. Tribunal stated, that document in all books should be corrected. The Tribunal further stated, the document would stand as shown on the record with reservations in favor of the Defense until further proof could be produced. The Defense then made a formal objection. After argument from Prosecution and Defense, the Tribunal ruled that on the basis of the showing made, it would not sustain the motion, but Defense could subsequently renew the motion and the Tribunal would then pass on it.

Case No. 6

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed defense counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0931.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendants Brueggemann and Wurster, excused due to illness.

The Tribunal opened the proceedings by ordering the charges against the defendant Max Brueggemann, be severed for the purposes of trial, from the charges against the other defendants now on trial. It was further ordered, that the charges contained in the indictment against the defendant Brueggemann are to be retained upon the docket of the Military Tribunals, as a separate cause, for trial later, when physically and mentally fit.

The Prosecution then brought forth the Prosecution witness Dr. Hans Wagner, German Chemist, for direct examination and was so examined. Counsel for V. Knieriem objected to the reading of full excerpts of documents in connection with the questioning of the witness. He further stated, because of form of questioning, the Defense could not be expected to cross-examine at the end of the direct examination.

The Tribunal stated, the documents spoke for themselves and Prosecution would limit his inquiry to such matters

■ needs correction or amplification and to segregate all other inquiries from the present line of questioning. The Prosecution then concluded the direct examination. Counsel for V. Knieriem suggested, that since the testimony by witness only supplemented affidavits, signed by witness and previously introduced into evidence, cross-examination should take place at the end of submission of evidence by Prosecution. Tribunal then stated, that no substantial departure from the text of affidavits had been made therefore Defense would proceed with the cross-examination. Counsel for Krauch, cross-examined the witness. The Prosecution objected to leading questions and assumptions by Defense Counsel. Tribunal stated, the question should be reworded to come under proper cross-examination. Defense Counsel for Krauch continued.

Counsel for the defendants Ambros-Wurster then further cross-examined the witness. Prosecution objected to Counsel for Wurster bringing up hypothetical questions. Tribunal stated, that Defense Counsel had transgressed the rule in arguing with witness. Counsel for Schneider, Haeffliger, v.d. Heyde, Kuehne, Gajewski and v. Knieriem then cross-examined the witness. There was no redirect examination. The witness was excused. The Prosecution then brought a chart into court, stating it showed positions of the defendants with IG Farben, NSDAP and SS.

The Prosecution then introduced documentary evidence, subject to objection.

The Prosecution then read a letter from the defendant Ter Meer concerning Exhibit No. 332, Document No. 10042, an organisational chart, as pertains to the Legal & Patents Department, being shown as a separate office.

The Tribunal asked if the Prosecution accepted the letter as final fact.

The Prosecution stated they preferred to accept the chart diagram as shown since it was certified to by two defendants now in the dock.

The Tribunal stated they would admit the chart subject to such explanation as later offered by the Defense &/o Prosecution.

APPEARANCES

FOR THE PROSECUTION :

Mr. Charrette - Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed defense counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 830.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Ilgner, excused due to illness.

The proceedings opened with the formal arraignment of the defendant Wurster previously absent from all proceedings due to illness. The defendant pleaded NOT GUILTY to the charges against him. The Tribunal stated that due to the recent illness of Dr. Wurster, and on request of his counsel, he could be excused from the proceedings from time to time.

Counsel for Wurster then formally requested the defendant be excused. The Tribunal granted the request, stating he would be present in the dock when his health permitted.

The prosecution then introduced documentary evidence, subject to objection.

Counsel for Ambrose objected to Exh. 444 since it was an excerpt from an original document without signature or place of origin. After much discussion by both sides, the Tribunal ruled that the document would be admitted as they had, during the intermission, studied the photostated document and the statement enclosed which showed that it was a captured document from German Archives and certified thereto.

Case No. 6

PRESENT:

Judge Curtis Shaks, Presiding
Judge Paul M. Hebert
Judge James Morris
Judge Clarence F. Merrill

APPEARANCES

FOR THE PROSECUTION:

Mr. Aschan - Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed defense counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 930.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Wurster, excused due to illness.

The Tribunal opened the proceedings by ruling on the objections formerly made by Defense Counsel to Exhibit 583. Judge Morris read the comment and ruling 13: Counsel for Von Der Heyde had objected to the document concerning his client. Counsel had prior to the execution of the affidavit, requested the affiant Carl Von Heider as a Defense witness. He stated that that marked the witness as a Defense witness to the exclusion of the Prosecution either as an affiant or witness. Judge Morris continued by stating it was the view of the Tribunal that since Von Heider was a free witness, either the Prosecution or Defense could summon the witness for testimony on the stand or as an affiant. The objection was overruled.

The Prosecution then proceeded with the introduction of Documentary evidence under Count 1 - D, subject to objection.

APPEARANCES

FOR THE PROSECUTION:

Mr. Ansham - Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed defense counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 9:55.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Wurster, excused due to illness.

The proceedings was opened by Judge Shaks announcing that Judge Merrill would be absent from this and possibly two more sessions due to his wife being seriously injured in an accident.

He further requested that in the absence of the fourth member of the Tribunal, only documentary evidence be submitted and that neither the Prosecution or Defense raise objections at a later time.

Both the Prosecution and Defense agreed.

He then stated that, if at any time, the Prosecution could not continue with the introduction of documentary evidence, the Tribunal would recess in order to afford them the necessary time.

The Prosecution then read a statement concerning the calling of witnesses for direct or cross examination where those witnesses have given affidavits which have already been introduced in evidence.

Counsel for Krauch requested a translation of the above statement and the Prosecution stated a translation would be furnished. The Tribunal ruled that the contents of the statement would be brought up after Defense Counsel had studied the statement.

The Prosecution then proceeded with documentary evidence, subject to objection.

APPEARANCES

FOR THE PROSECUTION:

Mr. Anshen - Mr. Sprecher - Miss Mayer

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice,
at 930.

The Deputy Marshal reported that all defendants were present in
the Court Room, with the exception of the defendant Wurster, excused
due to illness.

The Prosecution opened the proceedings by stating that they ex-
pected an answer, by the Defense, to the question of producing Pro-
secution witnesses when that witness was an affiant of an affidavit
already in evidence.

The Defense stated that after a conference with all Defense
Counsel, they had come to an agreement. He then read their answer into
the record.

After argument by both the Prosecution and Defense the Tribunal
advised the Defense Counsel that affidavits were used in lieu of the
personal attendance of the affiant. They reminded the Defense of
their right of cross examination of all witnesses. They then request-
ed a written suggestion on each sides position as to the production
of affiants as witnesses. Upon receipt of the written suggestion
they would give a formal answer. The time fixed for the written motion
was Tuesday, 30 Sept 47.

The Prosecution then proceeded with the introduction of Document-
ary evidence, subject to objection.

Tribunal so ruled. The Tribunal ruled that the documents had been
offered and were a part of the record, therefore the exhibits would

FOR THE DEFENDANTS:

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 9:30.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Wurster, excused due to illness.

Counsel for the defendant Hasfliger opened the proceedings by stating that he, representing all Defense Counsel, was making a reply to the previous request of the Tribunal, regarding the calling of authors of affidavits.

The Tribunal however, reiterated they cared to hear no more argument concerning the matter and further that the written statements submitted by both sides did not cover the subject as requested by the Tribunal. They then stated a meeting would be held in chambers, during the morning recess to straighten out this matter.

The Prosecution then produced their witness Mr. Nathaniel Elias, American chemical engineer, for direct examination and was so examined. After the noon recess, the Tribunal stated during the session of 26 Sept 1947 there had been considerable argument concerning the cross examination of authors of affidavits and that they had requested written suggestions, however the submitted writings were arguments and not suggestions.

The Tribunal then ruled that the Prosecution could produce affiants for cross examination, about the contents of affidavits already introduced, at any time before they rested their case in chief or before all affidavits are introduced, provided the affiant is again produced for cross examination, and prior notice is given to the Defense before the witness is produced.

Counsel for Von Knieriem then announced that since the ruling was

contradictory to all rulings of other Military Tribunals he would appeal the ruling.

The Prosecution continued with the direct examination of the witness. Counsel for Kravich objected to a question put to the witness where the answer would be a conclusion by the witness. The Tribunal sustained the objections.

Counsel for Ambros requested the Tribunal to allow the defendants Rustefisch, Ambros and Ter Meer cross examine the witness because of the technical nature of the testimony. The Tribunal granted the request and the defendant Rustefisch and his counsel, defendant Ambros and counsel, cross-examined the witness. During the cross examination the following documents were submitted for identification only.

2	Ambros	--	Ethylene Tree (Identification only - not provided)

FOR THE DEFENDANTS:

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 1000.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Wurster, excused due to illness.

The Tribunal opened the proceedings by requesting information from Dr. Henze as to the physical condition of the defendant Wurster. Counsel stated the physical condition of his client was unchanged and from information received by the physician in charge, he would not be able to attend court in the near future. The Tribunal stated that the defendant should attend sessions when physically able. Counsel for Oster continued his cross examination of the witness Dr. Hagert.

The Tribunal, upon objection of Prosecution, sustained three questions put by Defense Counsel to witness, as being too far afield of the subject at hand. Counsel for Baefliger and Wurster, Gattineau then cross examined the witness. There being no re-direct examination, the witness was excused.

The Prosecution offered in evidence one document at this time.

20 Sept 47

The Prosecution called their witness, Paul Otto Schmidt, German national, for direct examination and was so examined. The Prosecution then offered in evidence NI 7765, Exh. 10 previously introduced for identification only. Counsel for Rajewski then cross-examined the witness. The Prosecution objected to quoting from a book by an ally or to bringing up or referring to the views of allied personnel concerning the common knowledge of the German nation as to plans for aggressive war.

Defense Counsel then gave his views concerning the objection and the reason for his line of questioning.

The Tribunal then asked if the questioning and affidavit was to prove common knowledge of the defendants as to aggressive war. The Prosecution and Defense answered in the affirmative.

The Tribunal then ruled the Defense was entitled to a broad scope of cross examination with respect to the affidavit. However to select isolated statements of a particular author was injecting collateral issue into the case and were sustained. The Prosecution objected to questions concerning the foreign policy of the Weimar Republic. The objection was sustained.

The Prosecution objected to questions concerning international representation to Olympia Games and their effect on German public opinion. The Tribunal sustained the objection to the question in its present form. The Prosecution objected to question about the state of public opinion of the Austrian public. The Tribunal sustained the objection.

The Prosecution objected to questions concerning elections in Austria. The Tribunal sustained the objection.

Prosecution objected to the assumptions of Defense Counsel as to the success of the Munich Pact on public opinion. The Tribunal sustained the objection.

The Prosecution objected to questions concerning the opinion of the foreign press concerning the Munich Pact. The objection was sustained.

The Prosecution started to object to questions concerning the opinion of foreign delegates to Germany. The Tribunal sustained the objection. Counsel for Haefliger further cross-examined the witness. The Prosecution objected to questions concerning the acquittal of certain defendants before the IMT trial. The objection was sustained.

Counsel for Duerrfeld then cross-examined the witness. Prosecution objected to the line of questioning by defense counsel. Defense Counsel stated he was setting the stage for further questions of which the witness had full knowledge as regards the Polish invasion. After further argument the Tribunal sustained the objection.

Counsel for Von Der Heyde then cross-examined the witness.

Judge Morris reminded Defense that their line of questioning had been covered before and to find a new line of questioning or finish the cross-examination.

Counsel for Schneider and Kuehne then cross-examined the witness. Prosecution objected to all questions put by Counsel for Kuehne. The Tribunal sustained all objections. Counsel for Van Krierism then cross-examined the witness. The Tribunal at this point reiterated the views of Judge Morris concerning the re-covering of statements made by witness. The cross-examination was then concluded. There being no re-direct examination the witness was excused and the Prosecution witness Karl von Haider was then called for direct examination and was so examined.

The Tribunal explained their attitude towards the examination of witnesses and requested the cooperation of both sides in expediting the matter.

Whereupon the Tribunal adjourned at 1700, until 930 A.M., Friday, 3 October 1947.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 9:44.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Wurster, excused due to illness.

The Proceedings opened with the Prosecution stating that the Prosecution and Defense had met and would ask the Tribunal if it would be necessary for the defense to cross examine an affiant called as a Prosecution witness. The Defense enlarged upon this statement by asking if the Tribunal would discredit the Defense in not making a cross-examination.

The Tribunal stated the Defense waived nothing in not cross examining any witness.

The Defense then asked of procedure practice in cross-examination. Each member of the Tribunal explained cross examination procedure and then the Counsel for the defendant Kuehne began the cross examination of the witness Karl Von Heider. The Prosecution objected to the line of questioning as not being proper procedure for cross examination. The Tribunal sustained the objection. Counsel for Wurster, Haefliger, Von Schnitzler, Ilgner and Kugler cross examined the witness. The Prosecution objected to questioning concerning the conscience of personnel destroying I.G. files. The objection was sustained. There being no re-direct examination, the witness was excused.

The Tribunal announced that the court room would be in use on 10 Oct 47 therefore the court would be in recess that day however they would sit on Monday 11 Oct 47.

Miss Mayer of the Prosecution then introduced documentary evidence subject to objection.

The Tribunal convened in Court Room 600, Palace of Justice, at 930.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Wurster, excused due to illness.

The proceedings opened with Judge Hebert reading, into the record, a statement concerning future procedure of the case.

The prosecution was asked, (a) approximate number of witnesses to be called and number of trial days per witness, (b) approximate number of documents yet to be introduced and trial days necessary, (c) approximate target date for the completion of their case in chief, (d) any other pertinent information.

He further stated that it might not be possible to recess after the Prosecution's case in chief in order to give the Defense extra time to start their case in chief.

Judge Hebert then asked approximately the same questions from Defense Counsel, adding that to expedite the trial the defendants might welcome the opportunity to file affidavits in lieu of testimony on certain subjects.

The Prosecution then announced they would be able to give their answer to questions above at the beginning of tomorrow's session.

The Prosecution then stated the film "The Nazi Plan" was to be shown this date and he had been assured the film would be turned over to the Secretary General's office in evidence at the completion of the trials in which it may be used.

PROCEEDINGS:

The Prosecution opened the days proceedings by answering the question put by the Tribunal in yesterday's session concerning length of proceedings of their case in chief. After detailed explanation they stated it would take from 37 to 43 days to complete their case in chief.

The Tribunal then announced that the Defense should, at the completion of the prosecution case in chief, give similar information to the court.

Counsel for Krauch, speaking for all Defense Counsel, stated they would cooperate in every way to expedite the trials and requested the Tribunal to receive them in chambers to discuss the technical aspects of the case. The Tribunal stated they would receive both Prosecution and Defense in chambers at any time agreeable to all concerned.

The Prosecution then called their witness Dr. Lothar Mischke, German national for direct examination and was so examined.

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 9:30.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Wurster, excused due to illness.

Counsel for Heerlein opened the proceedings by announcing that his client must undergo an operation in the near future and requested the Tribunal to excuse him until he was physically able to attend again.

The Tribunal stated they had received no medical report but accepted word of Counsel and would therefore excuse the defendant subject to prison regulations now in force. The Defense Counsel should contact prison authorities concerning his release for time necessary for the operation.

Counsel for Ter Meer then announced that there were fifteen affidavits signed by Dr. Struss, a witness to be called, referring to statistical and technical subjects not available to Defense Counsel at the present time. An agreement between Prosecution and Defense made it possible to divide all affidavits of the witness Struss into three groups and the second group, consisting of the afore mentioned fifteen documents, would be held aside until a later date as far as cross examination was concerned.

The Prosecution then called their witness Dr. Ernst Struss, former I.G. official, for direct examination concerning his affidavits, and was so examined.

Counsel for Tar Meer and Schneider then cross examined the witness.

The Prosecution introduced in evidence the following documents:

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Description</u>
847	NY 11610	Affidavit: Dr. E. Struss 3 Oct 47
848	NY 11611	Affidavit: Dr. Struss 3 Oct 47

Counsel for Gattineau, Von Schnitzler, Heerlein, Lautenschlaeger, Wurster, Buergin, Ambros and Gajewski cross examined the witness.

The Prosecution then questioned the witness in re-direct examination. Counsel for Schmitz and Buergin then cross examined the witness.

Tribunal then announced that they desired the Prosecution to read into the record the Exhibit number of the documents on which the witness was just examined. Mr. Sprecher then read the numbers into the record.

The witness was excused with the understanding that he would be recalled for further testimony in regards to these affidavits not brought up in this session.

The Tribunal then announced, that under the circumstances, they would pass the matter until the informal conference to be held at the end of the session this date.

The Prosecution then requested, that Counsel for Wurster announce, after the noon recess whether he desired to cross examine Dr. Palm since he must shortly return to the British Zone.

At this time the Prosecution desired to know from Defense Counsel what affidavits of documents submitted today were desired as witnesses for cross-examination.

Dr. Boettcher stated he could give an answer to the question by Friday 17 Oct 1947.

The Defense then announced that Dr. Wilhelm Kappier would not be needed as a witness for cross-examination and his name should be added to the list submitted in yesterday's session.

The Prosecution then announced that the calling of Paul Ester as a witness would be deferred until a later time; Dr. Jacobi was in the United States and would probably not be available as a witness; Kurt Krueger and Dr. Egert would be deferred as witnesses until Count II; and Werner Mansfield would be deferred until Count III.

Dr. Boettcher then stated, in regards to Dr. Jacobi, that a similar situation had arisen in another court and the ruling of that court was that the affidavit signed by the witness and previously introduced, be withdrawn.

The Tribunal stated they would take the matter up informally with counsel.

The Prosecution then called their witness Dr. Heinrich Dieckmann, former deputy of the defendant Schneider for technical matters in Bureau "A", for direct examination and was so examined about his affidavits Exhibits 669, 735, and 920.

Counsel for Schneider then cross-examined the witness.

The witness was former Ministerial Director of Army Ordnance office, and was examined concerning his affidavit exhibits 617, 673 and 698. The witness corrected certain passages in the translations of Exhibit 617. The Tribunal reminded witness to answer all questions briefly and concisely.

Dr. Garther, counsel for Dr. Ambros cross examined the witness. He requested that the defendant Ambros be allowed to conclude the cross examination concerning the technical aspect of the affidavits of the witness. The Tribunal consented and the defendant Ambros cross-examined the witness.

The witness objected to the manner of questioning of the defendant Ambros and his insistence on answering every question with "Yes" or "No".

The Tribunal reminded witness that he was not bound by such answers but to keep his answers brief. Dr. Ambros continued the cross examination.

The Tribunal reminded Dr. Ambros to keep in mind that the affidavits signed by witness covered only a narrow field concerning chemicals and to keep within these bounds.

The Prosecution objected to questions concerning witness' belief in the truth of statements made by the defendant Ambros in interrogation of the witness. The objection was sustained. There being no further examination, the witness was excused.

The Prosecution called as their next witness Juergen van Klanc, assistant to Dr. Ambros in Special Committee "C" I.G. Farbenindustrie A.G., for direct examination concerning his affidavit, exhibit 619.

In the direct examination the witness added one sentence to his affidavit and corrected several sentences.

Dr. Garther, counsel for Ambros, cross examined the witness. There being no re-direct examination, the witness was excused.

Mr. Du Bois of the Prosecution explained the documents to be introduced under Count 1 & then introduced the documents subject to objection.

Case No. 8

PRESENT:

Judge Curtis Shaks, Presiding
Judge Paul M. Hebert
Judge James Morris
Judge Clarence F. Merrell

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher - Mr. DeBois - Mr. Amoham - Mr. Newman

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice,
at 0951.

The Deputy Marshal reported that all defendants were present in
the Court Room, with the exception of the defendants Wurster and Hoorlein,
excused due to illness.

The Proceedings opened with Dr. Welte, speaking for the Defense
Counsel, stating in the case of Dr. Jacoby, the questioning of an affiant
now in the United States who was desired as a witness, would be carried
out as agreed upon later by the Defense and Prosecution.

The Prosecution quoted several excerpts from the transcript
of the IMT case concerning their ruling on the production of affiants
as witnesses.

The Tribunal questioned the Prosecution on their interpretation
of the rulings of the International Tribunal.

After further discussion by the Tribunal, Prosecution and
Defense, Dr. Silcher stated that he believed it possible to dispense
with the witness Jacoby and that the Prosecution and Defense could agree
on the question basically. Then he proposed that no basic decision be
made at this time concerning the calling of witnesses.

Judge Shaks suggested an informal discussion of Prosecution
and Defense concerning the calling of the witness Jacoby.

The Prosecution then announced that the Defense had waived their
right of cross-examination of the affiant Paula Esther. The Tribunal
ordered the affiant not to be called.

The Tribunal stated they no longer thought it necessary to be in recess on Mondays and asked further about a session on this coming Saturday.

Dr. Silber stated that Defense Counsel and the defendants believed they needed the long week-ends as it was the only time they could get together as a body to discuss the collective counts of the indictment.

The Tribunal stated they would pass the matter until a later time.

Mr. DuBois then introduced documentary evidence subject to objections.

Counsel for von Schnitzler objected to Exhibit 1041 as having no relative value to the case.

The Prosecution stated that the document showed each political and military stage taken in preparation for invasion of Czechoslovakia.

The Tribunal requested to know if the Prosecution had documents to prove knowledge of any defendant to the content of the exhibit.

The Prosecution stated that they did have documentary evidence concerning political knowledge and could show increased activities of I.G. under supervision of the defendants during the time covered by the document.

The Tribunal stated they could not determine the relevancy of the document at this time and overruled the objection, but stated unless there is direct or circumstantial evidence showing knowledge of at least one defendant, the document would have no weight on the decision of the Tribunal.

The Tribunal announced that there would be no session on Saturday 25 October 47, but that they would sit on Monday, 27 October 47.

Dr. Sachheim stated that there was considerable cross-examination to prepare for since several affiants were to be called next week and request the Tribunal to grant Monday, 27 October 1947 a free day.

The Tribunal reiterated they would sit on Monday, but at the beginning of next week would make a new appraisal of the situation.

Whereupon the Tribunal adjourned at 1638 until 0930, Wednesday, 22 October 1947.

FOR THE PROSECUTION:

Mr. A. Mohan -- Mr. Sprecher -- Mr. Newman

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0933.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Hoerlein, excused due to illness.

Counsel for Wurster opened the proceedings by stating that the health of Wurster, who was present for the first time since his indictment, may be further impaired by his attendance. Counsel announced that the prison doctor had conducted further examinations on the defendant, but as yet the full results were not known. He further asked for a medical examination for his client by a medical board and asked that he be excused for further treatment.

The Tribunal stated that if his physical condition warranted, he should be present in the Court, but if the proceedings were too rigorous he could be excused. Judge Shute announced that he would receive counsel in chambers to discuss the case further.

Mr. Sprecher of the Prosecution then announced that Mauryoy Spilfogel would appear as a witness after the conclusion of the evidence on spoliation in Poland.

At this point Judge Morris requested further clarification of the Prosecution's contentions as to Crimes Against Humanity, planning and spoliation as set forth in Count II of the indictment.

Mr. Amchan and Mr. Sprecher briefly explained the contentions and further stated that they would submit a memorandum covering the count in more detail if the Tribunal so desired.

Mr. Nathan then introduced documentary evidence subject to objections.

Judge Morris at this time stated that he had hoped that the evidence so far submitted would be more channelled and as far as he could see the record was being cluttered up with irrelevant documents. Mr. Ansham of the prosecution stated that they would at an appropriate time connect up all documents submitted. Mr. Sprecher then stated as chief of the trial team, he felt responsible for many documents introduced and he considered those documents already in evidence or those to be put into evidence as being best documents available to cover the case. He stated that the prosecution felt that it was quite difficult to choose which documents should be included and which documents should be excluded.

Judge Shaker, stating his own opinion, cited Exhibit 1106 as an example of the document bearing on a collateral issue. He further stated a great amount of documents had been introduced that should have been reserved for prosecution's rebuttal.

Judge Hebert disagreed with the views of his colleagues and stated that he felt that the case had not progressed far enough along to determine the relevancy of any document.

Judge Merrill announced that he agreed with the comments of Judge Hebert.

Judge Morris then stated that the Tribunal was charged with the responsibility of a speedy trial and that they needed the cooperation of counsel from both sides.

Judge Shaker then stated that as far as his personal opinion was concerned that he had no sympathy with either the prosecution or defense and he would judge the case only according to law.

Whereupon the Tribunal adjourned at 1625 until 0930, 23 October 1947

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher -- Mr. DuBois -- Mr. Newman

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, 0036

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Hoerlein, excused due to illness.

The Prosecution opened the proceedings by calling their witness Eberhard Gorr, former chemist of I.G. Farben and member of Vermittlungsstelle W., for direct examination concerning his affidavit, Exhibits 141 and 648, and he was so examined.

Dr. Berndt, counsel for Turkner, then cross-examined the witness.

Dr. Silcher, counsel for Von Eriksen, cross-examined the witness.

Counsel for Krauch, Ambrose, Gattineau and Von der Eyde, then cross-examined the witness.

The Prosecution objected to question of counsel for Von der Eyde concerning the duties of Dr. Diekmann.

The Tribunal announced that in their opinion Exhibit 648, on which the witness was being cross-examined, had no probative value, therefore the continued cross-examination was useless.

The defense concluded their examination and the witness was excused.

The Prosecution called as their next witness Eberhard Gross, former chief of I.G. Farben factory physicians, for direct examination concerning his affidavit, Exhibit 856, and he was so examined.

The witness corrected the wording of all paragraphs of his affidavit.

At this point the Tribunal announced that the prison physician had informed them that Wurster was to have medical treatment each Friday and Tuesday and would be excused for the length of time necessary for the treatment.

Dr. Helte, counsel for Hoerlein, then cross-examined the witness.

Counsel for Ambros then cross-examined the witness.

There being no redirect examination, the witness was excused.

The Tribunal requested the Prosecution to submit a memorandum at the conclusion of the evidence under each count, outlining their contentions relating to the evidence.

The Tribunal further announced that there would be an informal discussion with the prosecution and defense at the close of today's session.

The Prosecution then introduced documentary evidence, subject to objections.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>

1190	NI 4862	" 13	Ltr re Chemis-Ort G.M.B.H.

Counsel for Ambros objected to all evidence so far submitted concerning spoliation in Russia, as they concerned incomplete plans and were therefore irrelevant.

The Prosecution stated the evidence so far did not prove plunder and spoliation of Russian industry, however lack of success did not overshadow Farber's intent to plunder.

Counsel for Ambros then stated that legally one could not draw conclusions of attempted acts but only when they were actually committed.

The Tribunal asked the Prosecution to temporarily abandon the documents concerning Russia and go to another subject, and they would rule on the admissibility of the documents after a conference in chambers.

The Prosecution then introduced documentary evidence on spoliation in Norway and Alsace-Lorraine.

FOR THE PROSECUTION:

Mr. DuBois -- Mr. Amman -- Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 0935.

The Deputy Marshal reported that all defendants were present in the Court Room.

Dr. Kelte, counsel for Beerlein, opened the proceedings by announcing that his client had just returned from the hospital and would need dressings changed periodically. He requested the Tribunal to excuse the defendant long enough to have this done.

The Tribunal consented.

Dr. Kelte then informed the court that there was little or no heat in the prison cells and that the defendants would appreciate anything the Tribunal could do to get more heat for them.

The Tribunal stated they were reluctant to interfere with the prison authorities, but would advise them of this case.

At this time counsel for Amros presented his written objections to the Tribunal concerning spoliation in Russia.

Mr. DuBois then announced that the Prosecution estimated that they would have from 725 to 750 more documents and approximately 85 to 95 witnesses to finish the prosecution's case in chief.

The Prosecution then offered documentary evidence subject to objection.

Case No. 6

PRESENT:

Judge Curtis Shako, Presiding
Judge Paul M. Hebert
Judge James Morris
Judge Clarence P. Marshall

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher -- Mr. DuBois -- Mr. Anchan

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 0842.

The Deputy Marshal reported that all defendants were present in the Court Room.

The proceedings opened with the Tribunal announcing that they would make their decision on the competency of evidence on the Russian phase of the case after they had received a statement as to whether the prosecution would rely on Count V of the indictment.

Mr. DuBois stated that they would definitely rely on Count V and would state their position after the morning recess.

Dr. Lingenberg, counsel for Ilmer, then continued his cross-examination of the witness Helmut Knoch.

The Prosecution, at this point, announced in respect to Exhibit 840, on which the witness was being examined, that most affidavits contained cumulative material and the questions so far put by defense counsel dealt with such matters. The Prosecution withdrew all of the affidavit beginning with the paragraph headed "Liaison with other offices."

The Tribunal stated that the Prosecution could point out certain phases they considered irrelevant and that such phases would not be considered when the Tribunal reviewed the case.

Defense Counsel requested in the future that the Prosecution notify them of any part withdrawn beforehand so that they could more readily cooperate in expediting their cross-examination of the affiant. Counsel continued his cross-examination.

The Prosecution objected to counsel making statements of fact and speeches during the cross-examination.

The Tribunal warned counsel to properly conduct the cross-examination and refrain from making statements of facts.

The Prosecution objected to questions concerning Austrian collaboration.

The Tribunal sustained the objection.

Dr. Ascheneuer, counsel for Gattineau, then cross-examined the witness.

Dr. Hoffmann, counsel for Van der Hayde, cross-examined the witness.

The Prosecution objected to argument between counsel and witness concerning the correction of one sentence in his affidavit, Exhibit 841.

The Tribunal sustained the objection, and warned counsel to slow up his questioning since it was almost impossible for the translators to keep up at the speed they had been going.

Dr. Hoffmann then announced that he had approached a prosecution witness, Dr. Krueger, and tried to obtain an affidavit to use in the cross-examination of the witness now on the stand. Dr. Krueger refused. Dr. Hoffmann stated that if he later cooperated, it would be necessary to recall the witness Noack.

Mr. Sprecher stated that he had not been informed of Dr. Hoffmann's request and further stated that the witness was free and could have been contacted at any time.

The Tribunal observed that the cross-examination, as far, had been based on that part of the affidavit that was hearsay on the part of the affiant and the cross-examination was taking too much time.

Dr. Hoffmann stated that he did not know what importance the Tribunal attached to hearsay and requested to know their attitude.

The Prosecution announced that there was other collective testimony that could tie up all hearsay testimony introduced in the affidavit of the witness.

The Tribunal stated that the affidavit had been admitted in evidence and they would not at this time rule on the competency of its contents.

The Prosecution then examined the witness in re-direct examination. There being no further questioning, the witness was excused.

At this point Mr. DuBois read into the record the Prosecution's statement concerning Count V of the indictment, re defendants leadership and organizing of a common plan of crimes against peace.

The Prosecution called as their next witness Gustav Kuepper, former manager of the Dyestuff Legal Department of Dyestuff Sales Combine of I. G. Farben, for direct examination concerning his affidavits, Exhibits 1021, 1037, 1039 and 1187.

The Prosecution explained that the affidavits only referred to matters of legal camouflage and did not open the door to full cross-examination on the subject.

Dr. Boettcher stated that it seemed as if the Prosecution wanted to limit the field of cross-examination and he was of the opinion that the matter was one for the Tribunal to decide.

After further argument by both sides, the Tribunal ruled that the Prosecution could not limit the scope of cross-examination, and they therefore would not limit the cross-examination at this time.

Dr. Henze, counsel for Kugler, cross-examined the witness concerning legal camouflage.

The Prosecution objected to questions concerning the outcome of aggressive war plans.

The Tribunal sustained the objection.

Dr. von Keller, counsel for Von Schnitzler, cross-examined the witness concerning his affidavit, Exhibit 1187.

Dr. Silcher, counsel for von Krierlem, cross-examined the witness.

The Prosecution then questioned the witness in re-direct examination.

Dr. Henze then cross-examined the witness on questions brought out in re-direct examination.

Dr. Sierles, counsel for Schmitz and Dr. von Keller, counsel for Von Schnitzler, cross-examined the witness.

There being no further questions, the witness was excused.

The Prosecution announced that paragraphs 3 and 4 of Exhibit 887 would be withdrawn, this being an affidavit of the next witness.

Dr. Irads Rupp, former deputy to the Chief of VOWI, NW 7, was called for direct examination concerning his affidavit Exhibit 887 and was so examined.

Dr. Bachen, counsel for Ilgner, cross-examined the witness.

There being no further examination, the witness was excused.

Dr. Kurt Trueger, former deputy to the defendant Ilgner in I.G. NW 7, Berlin, was called for direct examination concerning his affidavits Exhibits 259, 378, 1087, and 1105 and was so examined.

The Prosecution announced that they were withdrawing the part of the affidavit beginning with the sentence "The I.G. liaison men abroad", etc. under Paragraph 7 of the original and appearing on Page 4 of the English translation.

Dr. Silcher, counsel for von Krierlem, then cross-examined the witness.

The Prosecution objected to questions concerning communistic ideas of I.G. officials as being outside the scope of proper cross-examination.

The objection was sustained.

Dr. Nath, counsel for Ilgner, then cross-examined the witness concerning his affidavit Exhibit 378.

The Prosecution objected to speech made by counsel to witness before asking the question proper.

The Tribunal sustained the objection and instructed counsel to reword the question.

The Tribunal announced at the end of the day that they were concerned about the amount of time taken in cross-examination of witnesses. They stated they would appreciate anything that could be done to speed up the examination without hindering the defense in any way.

Whereupon the Tribunal adjourned at 1629 until 0930, Wednesday, 29 October 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 0932.

The Deputy Marshal reported that all defendants were present in the Court Room.

The Defense Counsel opened the proceedings by announcing that on 28 October 1947, the Prosecution read into the record their statement concerning spoliation in Russia.

Dr. Beattcher then read into the record the Defense's view on this point stating it was inadvisable, pointing out sections of the IMT decision and Control Council Law #1 concerning this point and further requested Count V and paragraph 84 of Count I be dismissed.

The Prosecution then restated their views of the previous session.

The Tribunal announced that they would not rule on the objections until they had made a thorough study of the matter.

Dr. Rath, counsel for Ilger, then continued his cross-examination of the witness Kurt Krueger.

The Prosecution objected to counsel assuming the contentions of the prosecution in questioning the witness. The Tribunal sustained the objection.

During the cross-examination counsel introduced the following document for Identification Only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Book & Page</u>	<u>Description</u>
1	Ilger 1		Affidavit, Baron von Leebner (Identification only).

Assistant Defense Counsel for Mann then cross-examined the witness on his affidavit Exhibit 258.

Dr. Aschenauer, counsel for Gattineau, cross-examined the witness concerning his affidavits, Exhibits 378, 259, and 1108.

Dr. Hoffmann, counsel for Von der Heyde, cross-examined the witness concerning Exhibits 379 and 259.

The Prosecution objected to counsel questioning the witness on testimony given by Dr. Hsack, a witness on the stand yesterday. The objection was sustained.

Dr. Von Keller, counsel for Von Schnitzler, cross-examined the witness concerning his affidavit, Exhibit 378.

Dr. Berndt, counsel for Iser Meer and Mann, cross-examined the witness.

Mr. Sprecher questioned the witness in re-direct examination.

Dr. Math, counsel for Rugler, then cross-examined the witness on testimony brought out in re-direct examination.

Dr. Hoffmann, counsel for Von der Heyde, then cross-examined the witness.

Dr. Giarlisha, counsel for Schmitz, then cross-examined Dr. Frueger.

There being no further questioning, the witness was excused.

The Tribunal again stated that the cross-examination just completed was an example of long extensive questioning that could have possibly been shortened.

The Prosecution called as their next witness Herert Wurack, former Oberregierungsrat in Raw Material Department, Military Economy Office for direct examination concerning his affidavits Exhibits 620 and 666.

The witness corrected paragraph 3 of Exhibit 620.

Dr. Wagner, counsel for Wurster, cross-examined the witness about Exhibit 666.

Dr. Drischel, counsel for Ambros, cross-examined the witness concerning "stand by" plants.

Dr. Math announced that he thought Defense Counsel could not be held responsible for the length of cross-examination since the nature and context of the affidavit referred to all 23 defendants and covered a wide field. He hoped in the future to have less extensive cross-examination, but that depended upon the affidavits submitted.

The Tribunal stated that they had repeatedly said they would give Defense every chance necessary for a fair trial and further announced they would suggest, within the next few days, a method whereby the time taken in cross-examination could be shortened.

Defense counsel concluded his examination.

There being no re-direct examination, the witness was excused.

The Prosecution called as their next witness, Guenther Hansen, former head accountant of "Bayer" Sales Department, for direct examination concerning his affidavits Exhibits 821 and 822, and he was so examined.

The witness struck out the first paragraph on page 3 of Exhibit 822.

Dr. Barndt, counsel for Mann, cross-examined the witness.

Dr. Henke, counsel for Eugler, then cross-examined the witness.

The Prosecution objected to questions concerning the stoppage of foreign exchange. The objection was sustained.

There being no further examination, the witness was excused.

The Prosecution withdrew all ~~the~~ paragraph 4 of Exhibit 850.

The Prosecution called their witness Hans Sannert, employee, Finance and Company Records, I.G. Farben A.G., for direct examination concerning his affidavit, Exhibit 850, and he was so examined.

Dr. Sasheim, counsel for Igner, then cross-examined the witness.

Whereupon the Tribunal adjourned at 1230, until 0930, Thursday, 30 October 1947.

FOR THE DEFENDANTS:

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 0932.

The Deputy Marshal reported that all defendants were present in the Court Room.

Dr. Bachem, counsel for Ilgner, continued his cross-examination of the witness Bennett.

Mr. Sprecher questioned the witness in re-direct examination.

Dr. Bachem, counsel for Ilgner, cross-examined the witness on testimony brought up during re-direct examination.

There being no further questions, the witness was excused.

The Prosecution called as their next witness Heinz Meyer-Wegelin, former member of Legal Department Chemicals, I.G. Farben I.G., for direct examination concerning his affidavits Exhibits 1104, 1115, 1238, and 1211, and he was so examined.

The witness corrected and added phrases to his affidavits, Exhibits 1104, 1238, and 1211.

Dr. Aschenauer, counsel for Guttineau, cross-examined the witness.

Dr. Krause, counsel for Jachm, cross-examined the witness on I.G. activities in Alsace-Lorraine.

Dr. Hoffmann, counsel for Van der Heyde, then cross-examined the witness.

Dr. Mettler, counsel for Haefliger, cross-examined the witness concerning Exhibit 1211.

Dr. Schubert, counsel for Baergin, cross-examined the witness.

The Prosecution objected to questions concerning the import of German machinery to Norwegian plants.

The Tribunal stated it was not proper cross-examination. Counsel concluded his examination.

Dr. Hansen, counsel for Oster, cross-examined the witness.

Dr. Bacham, counsel for Ilgner, cross-examined the witness.

The Tribunal stated that there came a time in every extensive cross-examination where further questioning was a waste of time. They thought that the questions had been thoroughly covered. However, that did not mean that they would hear no more.

Dr. Seimers, counsel for von Schnitzler, cross-examined the witness.

After sustaining objections to several questions, the Tribunal stated that in their opinion counsel had exhausted the field of questions and further waste of time was unnecessary.

They asked if there was any redirect examination. The Prosecution stated they had only a few questions. However the Tribunal excused the witness and directed the next witness be called.

Emil A. Ehmman, former member of Army Ordnance Office of OEN was called for direct examination regarding his affidavit, Exhibit 869, and he was so examined.

The Tribunal asked if the affidavit could be withdrawn and the answer was negative, since it covered the chemical warfare field.

Dr. Grischel, counsel for Ambros, cross-examined the witness submitting the following document.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Book</u>	<u>Description</u>
5	Ambros M		Chart of German Chemical Production Ident. only Not Provided

Counsel requested that his client, Ambros, be permitted to question the witness on technical questions concerning the I.G. Plant Muelb.

The Prosecution objected on the grounds that past performances of Ambros in cross-examining a witness did not warrant it. The Tribunal granted the request however, and Ambros continued the cross-examination and introduced the following document.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Book</u>	<u>Description</u>
6	Ambros S		Data on chemical warfare production in Germany Ident. only Not Provided

Counsel for Ambros concluded the cross-examination

Dr. Boettcher, counsel for Krauch, cross-examined the witness.

Mr. Spracher questioned the witness in re-direct examination.

The witness was excused.

Whereupon the Tribunal adjourned at 1620, until 0930, Friday, 31 October 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. Spracher -- Mr. Newman -- Mr. Van Street

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0832.

The Deputy Marshal reported that all defendants were present in the Court Room.

The Prosecution opened the proceedings by stating that the written motion from Rugler to the Tribunal on the cross-examination yesterday had just been received by the Prosecution and they requested a few days in which to study the documents and to prepare their answer. The Tribunal announced that their documents were incomplete so far as one document was in German and there was no translation. They requested a translation thereof and stated that they would receive the answer from the Prosecution, and until that time the matter would be held in abeyance.

The Prosecution called as their next witness Rudolph Kuerner, prisoner, former member of the Economic Staff of the High Command of the Armed Forces, for direct examination concerning his affidavit, Exhibit 868, and he was so examined.

The Prosecution withdrew paragraph 3 of the above affidavit. The witness corrected paragraphs 1 and 2 of the affidavit.

Dr. Lingenberg, counsel for Ilgner, cross-examined the witness.

Judge Hebert questioned the witness on his corrected statements.

There being no further questions, the witness was excused.

The Prosecution then called as its next witness Anton Reithinger, former chief of VONI, Berlin NW 7, for direct examination concerning his affidavit, Exhibit 843, and he was so examined. The Prosecution withdrew paragraphs 1 and 2 of the affidavit.

Dr. Bachem, counsel for Huger, cross-examined the witness.

Dr. von Keller, counsel for Von Schnitzler, cross-examined the witness.

The Prosecution questioned the witness in re-direct examination.

There being no further questions, the witness was excused.

The Prosecution then called Albert Eckert, member of the Dyestuffs Committee, for direct examination, concerning his affidavit Exhibit 387, and he was so examined. The Prosecution withdrew the first paragraph on page 2 of the English translation.

Dr. Henke, counsel for Kugler, cross-examined the witness.

There being no further questions, the witness was excused.

The Prosecution withdrew Exhibits 1086 and 1086 offered in evidence on October 1947 and Exhibit 1132 offered into evidence on October 1947. They further requested that all references to these documents appearing in the transcripts be withdrawn.

Dr. Bachem, speaking for all defense counsel, stated that they had spent much valuable time in preparing their cross-examination of these exhibits and requested that in the future they be given more notice of any withdrawals.

The Prosecution then requested a time limit on the calling of witnesses, Dagne, Bauch, and Uecla.

The Defense Counsel stated that they needed time to study the records at Frankfurt before they could cross-examine the above witnesses. They further suggested that one member of the prosecution and one member of the defense should go to Frankfurt to study the above records.

The Tribunal announced that they would pass the three affidavits until after a further conference by the defense and prosecution. They further announced that the defendant Tar Key and his counsel were going to Frankfurt on this coming week-end to look into such documents in an attempt to clear up the matter.

The Prosecution then announced the document books that would be needed in the afternoon session.

The Defense Counsel notified the Court that Document Book 67 referred to by the Prosecution had been withdrawn for correction and so far had not been returned. They deemed it unfair for the prosecution to submit the documents appearing in this book in today's session.

The Tribunal stated that under the liberal practice heretofore adhered to by the Court concerning the submission of documents, the Prosecution would be allowed to submit the book, and the Tribunal would take into account any objections Defense Counsel might have.

Mr. Van Street then introduced documentary evidence under Count 3 of the indictment, subject to objection.

Case No. 8

PRESENT:

Judge Curtis Shaks, Presiding
Judge Paul M. Hebert
Judge James Morris
Judge Clarence F. Merrill

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher — Mr. Van Street

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 500, Palace of Justice, at 0800.

The Deputy Marshal reported that all defendants were present in the Court Room.

The Tribunal opened the proceedings by announcing that they would like to present a matter for the consideration of both the Defense and Prosecution concerning the responsibility of the Tribunal to conduct the trial without any unnecessary delay. They issued the following order:

1. That Mr. John H. E. Fried be appointed a commissioner of the Tribunal to preside at and supervise the taking of testimony of such witnesses as may be from time to time called for testimony.
2. That before Mr. Fried could assume his official duties, he would subscribe to and file with the Secretary General, an oath or affirmation to the effect that he will honestly, faithfully and impartially perform his duties as a commissioner.
3. That the commissioner will have the power to administer oaths, take evidence, preserve good order, fix and determine times of the hearings, and to do all other things necessary to the proper administration of his office. All testimony will be subject to review by the Tribunal.
4. That he will give a verbatim report to the Tribunal including testimony and evidence taken before him, and will properly record, report, and certify to the file in the office of the Secretary General such matters as were before him.

The Tribunal then asked for a brief statement by both sides on the admissibility of Exhibits 1281, 1282, and 1284, now submitted for identification only -- inasmuch as the affidavits were requested.

Dr. Seidl, counsel for Durrfield, then gave his views as to the inadmissibility of any of the documents.

The Tribunal then heard the prosecution who pointed to several cases before other courts sitting at Furberg, and quoted excerpts of the IIF Charter and Military Government Ordinance Number 7.

Dr. Seidl then argued that Military Government Ordinance Number 7 was a very general order and therefore could not apply in this case.

Judge Shaks then stated that the Tribunal would confer in chambers before ruling on the matter.

Counsel for Andres objected to the appointment of a commissioner to hear witnesses as announced, unless the defendants could also be present. The Tribunal stated that there was nothing in the order that stated they could not be present.

Mr. Van Street then introduced documentary evidence subject to objection.

The Tribunal announced that November 11 was a legal holiday and suggested that there be no session on Monday, November 10, providing there was a session on Saturday, November 15. The prosecution agreed, but the defense stated they wished to confer before giving their answer.

The Prosecution continued with the submission of documents, subject to objections.

Counsel for Wurster stated that Exhibit 1347 was an affidavit of a Frenchman which pictured living conditions at Ludwigshafen for foreign laborers, and his viewpoint was incorrect as far as counsel knew. He stated it would probably be necessary to seek defense witnesses from France to refute the statements made in this document.

This brought up the question of permission for Germans to enter France and money exchange. If it were not possible for them to obtain permission to enter France, the defense counsel requested the affidavit be withdrawn.

Dr. Seigl, counsel for Duerfeld, stated that the prosecution in this case, had reached a decisive point and he was interested in the admissibility of such documents, since it dealt with working conditions of foreign workers and not statistical data. He thought that these witnesses should be heard in direct examination instead of by the submission of affidavits. He requested the Tribunal not to admit any more affidavits describing working conditions, but rather that they be brought here for direct examination.

The Tribunal asked, if the documents were admitted over objections, would it be possible for the affiants to be brought here for cross-examination. The Prosecution stated they would do everything possible to bring each person in question to Nurnberg.

Dr. Seitzler then announced that the Defense Counsel agreed on a recess as requested by the Tribunal.

The Tribunal ruled that Exhibit 1347 was admissible and they overruled the objections of the defense.

Dr. Seigl, counsel for Duerfeld, then stated that the appointment of Dr. John H. H. Fried as a commissioner was objected to, since Dr. Fried had given an affidavit for the Prosecution's case and he felt that under the circumstances his acting as a commissioner was impossible.

The Tribunal stated that they named Mr. Fried commissioner because of his former experience. They further announced that the appointment of commissioner was not the appointment of a judge. However, they would give consideration to the suggestions of defense counsel as to the appointment. If the defense could not agree on Mr. Fried, then a more neutral commissioner would be appointed.

The Prosecution then continued with the submission of documents, subject to objection.

APPEARANCES

FOR THE PROSECUTION:

Mr. Anshen - Mr. Van Street - Mr. DeBois - Mr. Minskoff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 500, Palace of Justice, at 0931.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Ignor, excused due to illness.

The Prosecution opened the proceedings by introducing documentary evidence, subject to objection.

1406	NY 6881	LXXI 80	Memo re: Arrival of women workers from Dachsen & Ravensbrueck
1407	NY 11080	" 74	Memo on breakdown of workers at Rottweil

Counsel for Gajewski objected to the introduction of documents concerning Wille and Company, and DAG, stating that these concerns were independent of I.G. and the only connection thereto was that I.G. were shareholders and therefore the documents were irrelevant.

The Prosecution's contention was that I.G. controlled the stock and therefore had something to say in the management of the concerns.

Defense counsel for the defendant Schmidt stated that Dr. Struss, a former witness, and former head of TDA, had testified in open court that I.G. had no technical influence over these plants.

After further argument by both prosecution and defense, the Tribunal announced that they would go into a short recess to decide the issue.

Immediately after the recess, the prosecution stated that they would not submit the documents concerning these plants at this time. However, other proof already offered concerning these companies was in their opinion sufficient evidence. They reserved the right to enter the documents in question at a later date.

Mr. Van Street announced that he had been informed that defense counsel waived cross-examination of the witnesses Simon, DeBruyn and Tesser.

The Prosecution called as their next witness Marcel Gernet, French national, former prisoner of war in Germany, for direct examination concerning his affidavit, Exhibit 1347, and he was so examined.

Dr. Heintzeler, counsel for Wurster, cross-examined the witness. During the cross-examination he submitted the following exhibit for identification only.

<u>Exhibit No.</u>	<u>Doc. No.</u>	<u>Description</u>
1	Wurster 1	Chart of Indragshafen area (For identification only -- Not provided)

The Tribunal reminded the prosecution and defense that they had entered an order providing for a commissioner and that the defense at the time had objected. They announced that Dr. Fried had submitted a letter covering his connections with the prosecution. They then handed the letter to the Secretary General for submission to any counsel who wished to read it.

Dr. Heintzeler continued the cross-examination.

There being no redirect examination, the witness was excused.

Mr. Minschaff then stated the prosecution's views as to what they hoped to prove under Count 5-C of the indictment, and started to introduce documentary evidence.

The defense counsel raised an objection as to the manner in which Mr. Minschaff presented the prosecution's views being argumentative.

The objection was sustained.

The prosecution then offered their documents without further comment.

The objection was sustained.

Dr. Belts, counsel for Reineke, objected to those parts of Exhibit 1495 in which the affiant quoted from five letters referring to experiments on human beings.

The Tribunal ruled that that part of the document referring to the translation of the five letters would be stricken from the document.

The Tribunal then inquired of the Defense Counsel if there were any statements appearing in the letter of Dr. John Fried, filed with the Secretary General yesterday, that changed their minds concerning his appointment as commissioner.

The Defense stated that they were having the letter translated, but could give their answer at the beginning of tomorrow's session.

The Tribunal stated that they would pass the matter until that time.

The Prosecution then requested a recess until tomorrow because of their difficulties in getting witnesses transported to Nurnberg.

The Tribunal consented.

Whereupon the Tribunal adjourned at 1655, until 0830, Friday, 7 November, 1947.

Case No. 8

PRESENT:

FOR THE PROSECUTION:

Mr. Sprecher — Mr. Minshaff — Mr. Newman.

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 0932.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Engler, excused to attend the funeral of his son, and Ilmar, excused due to illness.

The Tribunal opened the proceedings by asking Defense Counsel for comments as to the statement of facts submitted by Dr. Fried concerning his appointment as a commissioner for the Tribunal.

Dr. Beetscher, speaking for all defense counsel, stated that Dr. Fried had given two affidavits, Exhibits 1293 and 1294 in favor of the prosecution. Therefore, that made it impossible for him to act as a judge. He then cited Ordinance Number 7, Article D, which provides for the rights of the defendants to be present at their trial. He further stated that witnesses to be cross-examined for the most part appeared under Count 3, which was a serious allegation and concerned all the defendants, who should be present during the cross-examination of said witnesses. That meant that they should attend the cross-examination of witnesses before the commissioner, but at the same time they should be present in court, since Count 3 was still before the Tribunal. He also stated that there would possibly appear testimony before the commissioner to which objections would have to be raised for decision of the Tribunal and also there might appear documents before the Tribunal which might have to be objected to. He said that during the 194 trials, witnesses examined before deputy judges were so examined only in cases against accused organizations, and not individuals.

Judge Shaks pointed out the Tribunal's responsibility for expediting the trial. He desired to correct one statement of the defense, inasmuch as the Tribunal regarded the commissioner as a ministerial officer with very limited responsibilities, which left the judicial responsibilities to the Tribunal. He reminded counsel of the defendants' basic individual rights and the Tribunal's responsibility to see that these rights were upheld.

162

The Tribunal, ~~III~~ stated, is committed to find a means to expedite the trial and it would be much better to appoint a commissioner than for the Tribunal to act as four separate commissioners.

Judge Morris announced that under existing law a commissioner had the power to take testimony, but this power did not include the finding of facts, which was the Tribunal's responsibility. Therefore, he could see no valid reason for objections to the appointment of a commissioner. He was unimpressed by the objections of the defense.

Judge Hubert concurred with the opinions expressed by his two colleagues. He further thought that the Tribunal had made the order to protect the opportunities for full cross-examination of all affiants. The Tribunal alone would determine who would be heard by the commissioner and who by the Tribunal. If, in the course of events, there were any sustained objections, they would be subject to review by the Tribunal.

Judge Marshall concurred with the opinions given above.

The President then announced that it would stand by and confirm the order made and would overrule the objections of the defense.

The Tribunal announced that the objections to Exhibits 1178, 1179, 1180, 1181, 1182, 1183, 1184, 1185, contained in Document Book 65, and Exhibits 16, 1186, 1187, and 1189, contained in Document Book 76, concerning the Russian aspect in the prosecution's evidence was overruled. They further decided on the principle that affidavits of deceased affiants would not be admitted into evidence. The objection to these documents was sustained.

The prosecution announced that they would complete their offering of documents in respect to spoliation of Russia in the next session. They then called their witness Jan Dvoracek, Czechoslovakian national, former vice-president of the Association for Chemical and Metallurgy Production in Prague, for direct examination concerning his affidavit, XI 0632, Exhibit 1185, and he was so examined. The witness corrected three sentences in his affidavit.

Dr. Kense, counsel for Hagler, cross-examined the witness.

Dr. Lammert, counsel for Koehn, cross-examined the witness. During the cross-examination, the following document was submitted.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Description</u>
1	Koehn 1	Affidavit: Dr. Max Meyer (For ident. only)

The Tribunal requested to be informed as to the pertinence of the affidavit with regard to the cross-examination.

Dr. Lammert explained his views.

The Tribunal ruled that the above affidavit should be kept for the defense case in chief. However, it would retain its exhibit number for identification only.

Dr. Von Keller, counsel for Von Schmitzler, cross-examined the witness.

The Prosecution objected to questions concerning the impediment of a witness's movements in Czechoslovakia after 1946.

The objection was sustained.

Dr. Hoffmann, counsel for von der Heyde, cross-examined the witness.

The Prosecution questioned the witness in re-direct examination, offering the following document for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. No., A. Page No.</u>	<u>Description</u>
1467	NI 10724		Ltr: re Conclusion of contract between I.G. & Fragor Varzin

The Tribunal admitted the document into evidence.

Dr. Von Keller then cross-examined the witness concerning questions brought up in re-direct examination.

There being no further questions, the witness was excused.

Arnost Tauter, Czechoslovakian national, former inmate of Mauthausen concentration camp, was then called for direct examination concerning his affidavit, NI 4829, and he was so examined. The witness corrected sentences concerning allowances of margarine and carrying of cement bags.

Dr. Seidl, counsel for Durrfeld, cross-examined the witness.

During the cross-examination the Tribunal announced that they would at that time comment on their reasons for ruling on the non-admissibility of affidavits signed by deceased affiliates. They pointed to Paragraph 2 of Article 4 of M.G. law which states that the defense has the right to cross-examine all witnesses who have testified against them. Therefore the above right could not be carried out in the case of deceased affiliates.

The defense counsel Dr. Seidl then continued with the cross-examination.

Counsel attempted to submit an affidavit of another inmate of Camp Mauthausen. However the Tribunal refused its admission, reminding counsel that such affidavits should be used during their case in chief.

Dr. Seidl then requested a delay until he could confer with his client.

In the interim, counsel for Andree questioned the witness on cross-examination.

Dr. Hoffmann, counsel for Andree, then cross-examined the witness.

Whereupon the Tribunal adjourned at 1230, until 0930, Wednesday, 12 November 1947.

Case No. 6

PRESENT:

Judge Curtis E. Spake, Presiding
Judge Paul M. Keeler
Judge James Morris
Judge Clarence F. Merrell

APPEARANCES:

FOR THE PROSECUTION:

Mr. Sprecher — Mr. Nienhoff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0930.

The Deputy Marshal reported that all defendants were present in the Court Room.

Dr. Noetlicher, speaking for all defense counsel, opened the proceedings by announcing that even though the appointment of Dr. Fried as a commissioner to the court would be administrative and would entail no judicial powers, the defense had discovered, through a Public Relations release, that Dr. Fried had published a book entitled "The Exploitation of Foreign Labor in Germany". The news release further stated that Dr. Fried would assist in the prosecution of War Crimes trials dealing with slave labor and exploitation. Dr. Noetlicher therefore requested reconsideration of the Tribunal's order of Dr. Fried's appointment.

The Prosecution replied that the book had been written before the IMT decision was handed down and was more of a qualification than a matter of prejudice. Dr. Fried had never been assigned to GGO or any part having to do with the I.G. Farben case.

The Tribunal announced that they would discuss the matter at a later time.

Dr. Hoffmann, counsel for Ambros, then continued the cross-examination of the witness Ernest Becker.

The Prosecution objected to reference to an affidavit signed by a deceased person and not in evidence.

The Tribunal ruled that no reference could be made to the affidavit. The Tribunal stated that counsel had, in several instances, referred to affidavits of other affiants, and they thought they could only be properly brought up to bring to mind certain facts and to refresh the memory of the witness on the stand. Any other use of the affidavits would be part of the defense' case in chief.

Defense counsel then referred to testimony of another witness and before objection could be made, the Tribunal sustained the objection. During cross-examination, counsel offered the following exhibit for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Description</u>
6	Ambros E	Two pictures of the paint shop at I.G. Farben Monowitz. (For identification only -- not provided)

Dr. Trischel, counsel for Ambros, cross-examined the witness.

Dr. Seidl, counsel for Darrfeld, cross-examined the witness.

Judge Morris observed that counsel was giving almost as much testimony as the witness and he requested counsel to frame his questions and witness to give short, concise answers.

There being no re-direct examination, the witness was excused.

Ervin Schulhof, Czechoslovakian national, former inmate of Monowitz concentration camp, was called for direct examination concerning his affidavit Exhibit 1452, and he was so examined.

Dr. Seidl, counsel for Darrfeld, cross-examined the witness.

Dr. Trischel, counsel for Ambros, cross-examined the witness.

Dr. Hoffmann, counsel for Ambros, cross-examined the witness.

There being no re-direct examination, the witness was excused.

Gustav Hertzog, Austrian national, former inmate of Monowitz concentration camp, was examined in direct examination concerning his affidavit, Exhibit 1468, which the prosecution put into evidence at that time, subject to objection.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. No. & Page No.</u>	<u>Description</u>

Dr. Seidl, counsel for Darrfeld, cross-examined the witness.

Dr. Dix, counsel for Schneider, cross-examined the witness.

Dr. Seidl then asked one more question.

Mr. Minakoff, for the prosecution, questioned the witness in re-direct examination.

Dr. Seidl examined the witness on questions brought up during re-direct examination.

Dr. Dix, defense counsel, then cross-examined the witness.

Dr. Hoffmann, counsel for Ambros, cross-examined the witness.

There being no further questions, the witness was excused.

Ludwig Hess, German national, former inmate of I.G. Monowitz concentration camp, was called for direct examination concerning his affidavit, Exhibit 1469, which the prosecution put into evidence at that time, subject to objection.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. No. & Page No.</u>	<u>Description</u>
1469	HI 1419A	LXIV 115	Affidavit: Ludwig Hess

Dr. Seidl, counsel for Duerrfeld, cross-examined the witness.

The prosecution objected to questions concerning the turnover of camp inmates as testified to by another witness as being argumentative.

The Tribunal sustained the objection.

Dr. Drischel cross-examined the witness.

Dr. Satter, counsel for Ambros, cross-examined the witness, and during the examination introduced the following document.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Description</u>
1	Ambros 9	Plan of Auschwitz (For identification only -- not provided)

The Prosecution then objected to questions concerning the witness's knowledge as to whether the thoroughfare upon which Hungarian prisoners were driven was public or I.O. property.

The objection was sustained by the Tribunal.

Dr. Drischel at this time objected to the presence of witnesses in the court who were to be called at a later time.

The Tribunal announced that where objections were raised, the witnesses would be kept out of the court until after they had testified.

The witness was then excused.

Jan Stern, Czechoslovakian national, former inmate of Mauthausen concentration camp, was called for direct examination concerning his affidavit, Exhibit 1470, which the prosecution put into evidence at that time, subject to objection.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. No. & Page No.</u>	<u>Description</u>

Dr. Seidl, counsel for Duerrfeld, cross-examined the witness.

The Tribunal again admonished counsel for making long argumentative statements rather than asking direct questions, whereupon counsel retired.

Dr. Dix, counsel for Schneider, cross-examined the witness.

Whereupon the Tribunal adjourned at 1227, until 0930, Thursday, 13 November 1947.

The Tribunal convened in Court Room 800, Palace of Justice, at 1230.

The Deputy Marshal reported that all defendants were present in the Court Room.

The Prosecution opened the proceedings by announcing that they wanted to correct certain parts of the record as pertained to Exhibit 5, excerpt from "Mein Kampf". That part of the document pertaining to the particular edition was corrected to read "the 32nd edition".

When Exhibit 236 was offered into evidence, defense counsel objected to its admission because at that time the certificate did not show the origin of the document. The Prosecution handed over to the Secretary General an additional certificate which he requested be made a part of the document, and it was so admitted by the Tribunal.

Corrections in the translations of Exhibits 239, 247, 248, and 250 were then made.

The Prosecution then offered documentary evidence subject to objection.

1516	NI 12482	LXXV	Affidavit: Isaac Spetter

Dr. Seidl, counsel for Durrfield, objected to the admission of Exhibit 1816 since the affidavit was made only a few days before and requested, rather than have the affidavit admitted, that the affiant be brought to the witness stand for direct examination. He also pointed out that the affidavit contained conclusions of the affiant.

The Prosecution then announced their views, stating that the submission of the document consumed considerable time and that hearsay or conclusions was not excluded from the records of the IMT trials.

The Tribunal pointed out that the submission of an affidavit was actually in favor of the defense, since they would have the content of such affidavits in their possession before the witnesses were brought to the stand. The Tribunal further stated that the competency of opinions or hearsay that might appear in any affidavit would be ruled upon by the Tribunal alone.

The objection was overruled.

The prosecution then called Imas Spetter, Dutch National, former member of the Mauthausen concentration camp, for direct examination concerning his affidavit, Exhibit 1816.

Dr. Seidl and Dr. Drischel cross-examined the witness.

The Prosecution objected to questions put by Dr. Drischel concerning the political affiliations of the witness.

The Tribunal announced that they did not regard the question as having any interest to them, but they overruled the objection.

Dr. Dix then cross-examined the witness.

The Tribunal at this point announced that they would enlarge upon their reason for stating that questions concerning political affiliations of witnesses did not interest them. They stated that the first time this question arose in open court it concerned punishment received for being of a certain political belief and this was overruled at that time. However, they considered further questions concerning the subject as being improper.

Dr. Seidl, and Dr. Traubert cross-examined the witness.

The prosecution objected to the question put by Dr. Traubert concerning an I.G. foreman's responsibility toward inmates.

The objection was sustained.

Phillips Pfeffer, French national, former inmate of Mauthausen concentration camp, was called for direct examination concerning his affidavit, Exhibit 1817, which was introduced at this time and he was so examined.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Ex. & Page No.</u>	<u>Description</u>
1817	NI 12354	IXIV	Affidavit: Phillips Pfeffer

The witness corrected paragraph 2 of his affidavit.

Dr. Drischel cross-examined the witness.

The Prosecution objected to questions put by counsel concerning rumors as to the burning of bodies at Auschwitz.

The objection was sustained.

Dr. Seidl and Dr. Dix and Dr. Gierliche cross-examined the witness.

There being no re-direct examination, the witness was excused.

Eric James Doyle, British national, former prisoner of war at Mauthausen concentration camp, was then called for direct examination concerning his affidavit, Exhibit 1518, which was introduced into evidence at this time.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Sk. A Page No.</u>	<u>Description</u>

Dr. Seidl and Dr. Gierliche cross-examined the witness.

The Prosecution waived the right of re-direct examination and the witness was then excused.

Whereupon the Tribunal adjourned at 1225, until 0930, Tuesday, 18 November 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. Minskoff -- Mr. Dubois -- Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 0932.

The Deputy Marshal reported that all defendants were present in the Court Room.

The Tribunal opened the proceedings by stating that in view of objections to the appointment of Dr. John Fried as commissioner, no assignments would be made for witnesses to appear before him until further notice, but as of today an order naming John D. Mulvey as an additional commissioner would be filed with the Secretary General.

The Prosecution then called Reginald Hartland, British national, former prisoner of war in Mauthausen concentration camp, for direct examination concerning his affidavit, Exhibit 1519, which was introduced into evidence at this time, subject to objections.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1519	VI 12560	LIXV	Affidavit: Reginald Hartland

Dr. Gierlich, counsel for Schmidt, cross-examined the witness, and during the cross-examination introduced the following documents for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Description</u>
1	Schmidt 3	Photos of a pipeline bridge at Auschwitz (For identification only - not provided)
2	Schmidt 3	Seven photos of female Russian inmates at Auschwitz (For identification only, not provided)

Mr. Minchhoff questioned the witness in re-direct examination.

The witness was then excused.

The Prosecution then offered documentary evidence, subject to objection.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. No. & Page No.</u>	<u>Description</u>
1520	WI 9811	LXXVIII 74	Aff: Carl Lautenschlager

1522	WI 11708	" 125	Aff: George Langdon
1523	WI 10927	" 145	Aff: Edmund Tilley (Identification only)

Counsel for the defendant Schmidt objected to the introduction of Exhibit 1523 since it was not an affidavit as stated by the prosecution.

The Prosecution announced that they would withdraw the document if the Tribunal so desired.

After reviewing the exhibit, the Tribunal announced that the document would retain its exhibit number, but it would be marked for identification only.

Rudolf Vitok, Czechoslovakian national, former inmate of Mauthausen concentration camp, was called for direct examination concerning his affidavit, Exhibit 1461, and he was so examined.

Dr. Seidl, counsel for Duerffeld, cross-examined the witness.

The Prosecution objected to the testimony of counsel concerning the length of time inmates were allowed to stay in the hospital at Mauthausen, rather than asking the witness a direct question.

The Tribunal stated that they would ignore the above statement and instructed counsel to rephrase his question.

Dr. Dix, counsel for Schneider, Dr. Hoffmann, counsel for von der Heyde, and Dr. Drieschel, counsel for Ambros, cross-examined the witness.

Dr. Seidl again came forward to examine the witness.

The Prosecution objected to statements of facts made by defense counsel concerning the selection of inmates for gassing and the objection was sustained.

The Prosecution further observed that so far they had conducted no re-direct examination, yet one defense counsel had examined the witness twice, this being contrary to all rules governing examination.

The Tribunal observed that this was standard procedure, but it was their belief that the lengthy examination of the witness had just about exhausted all possible points of the affidavit signed by the witness.

Dr. Hoffmann then asked one more question in cross-examination.

The Prosecution waived the right of re-direct examination and the witness was then excused.

Bernhold Epstein, Czechoslovakian national, former inmate of Mauthausen concentration camp, was called for direct examination concerning his affidavit, Exhibit 1488, and he was so examined.

Dr. Hoffmann cross-examined the witness.

The Prosecution questioned the witness in re-direct examination.

There being no further cross-examination, the witness was excused.

The Prosecution again introduced documentary evidence subject to objection.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. No. & Page No.</u>	<u>Description</u>

1588	NI 12012	LXXXI 1	Ltr re investigation for hard coal in Cottbus.

Dr. Fleischman, speaking for all defense counsel, objected to Document NI 12012, Exhibit 1588, appearing in Prosecution's Book 80, and all further documents appearing in that book and Book 81, as being irrelevant, since they dealt with the allocation of slave labor in mines in Upper Silesia -- Furstengrube and Janinagrube. It was the contention of defense counsel that the above mines were only financed by I.G. and were managed by the plants themselves. The responsibility for the allocation of slave labor was wholly up to the management of the plants.

It was the view of the Prosecution that the control, management, and supervision were in the hands of I.G. Farben and the defendants in the dock. They contended that there was direct participation shown.

The Tribunal requested a list of documents which the Prosecution desired to bring to the attention of the court in an attempt to prove their point.

The Prosecution referred to documents NI 11117, NI 8078, NI 12014, NI 10885, NI 10886, and NI 11144, stating that the above documents clearly showed active participation of I.G. in the mines.

At this time the Tribunal went into conference in chambers to decide upon the admissibility of the documents. Upon their return from conference they announced that all documents appearing in Books 80 and 81 would be marked for identification only. They requested the defense and prosecution to put in writing their theories as to the competency or incompetency of all documents appearing in the two books. In due time, after study, they would make one ruling, either to exclude or admit the documents.

After an informal conference with defense counsel, Mr. Sprecher, speaking for the prosecution, announced that the prosecution could produce their written explanation on Thursday of this week, and defense counsel had informed him that they would turn their written explanation in at the end of the week.

The Tribunal charged that the burden was on the Prosecution. Therefore, after 1630 hours on Thursday, the briefs would be turned

over to the Tribunal.

Mr. Minakoff then concluded the offering of documentary evidence, for identification only.

At this time the prosecution announced that they were rapidly coming to the end of their case in chief, but as of this date they could not go on with their presentation because of the difficulties of securing witnesses and having documents processed. They requested a recess until Thursday.

Judge Flake stated that he was concerned about not losing any more time than was absolutely necessary, but the tribunal would, under the circumstances, recess until Thursday.

Whereupon the Tribunal adjourned at 1555, until 0830, Thursday, 20 November 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. DuBois, Mr. Mischaff, Mr. Sprecher, Mr. Anshen, Mr. Van Street

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 500, Palace of Justice, at 0931.

The Deputy Marshal reported that all defendants were present in the Court Room.

Mr. DuBois opened the proceedings by announcing the status of the prosecution's case in chief. He estimated that approximately 140 more documents would be presented and approximately 48 more affidavits would be brought before the Tribunal for examination. He further hoped that the case in chief would be finished by Wednesday, 21 November. He proposed that in the case of cross-examination, the defense use interrogatories in all cases possible under the supervision of the duly appointed commissioner. If all facts were not brought out by the interrogatories, then defense could appeal to the Tribunal. He cited, as an example, eleven affidavits, the importances of which were not too great, and for these, he suggested, interrogatories should be made.

The Tribunal stated that they were concerned about the cross-examination or waiver of cross-examination or the use of interrogatories, and they requested the cooperation of all concerned. They had in mind the use of the commissioner to finish up all matters that could be brought before them. They further announced that they had, under advisement, the objections urged against documents appearing in Prosecution's Document Books 80 and 81, and in that connection asked the prosecution to introduce the affidavit of Guenther Falkenhahn for identification only.

The prosecution then offered the following document for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1558	NI 13010	LXXX	Affidavit: Gunther Falkenhahn (Ident. only) In evidence

The Tribunal then announced that among all the documents appearing in Books 80 and 81 some might have very slight probative value. But they could not at this time say that the evidence contained therein was immaterial. The objection was therefore overruled and without further comment the documents marked for identification only would be placed in evidence.

At this time, with the permission of the Tribunal, the prosecution withdrew certain documents and replaced the withdrawn documents with new documents. This came about as a result of an objection raised by the defense that the documents initially in evidence were not copies of original documents and could not be considered as copies of captured documents.

The prosecution withdrew Document NI 3761, Exhibit 1514, and introduced in place thereof, Document NI 3761A, Exhibit 1557.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1557	NI 3761A	LXVIII	I.O. Chart of Labor, 1921-44

The next document withdrawn was NI 11411, Exhibit 1515, and in lieu thereof, Document NI 11411A was given Prosecution Exhibit No. 1558.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1558	NI 11411A	LXVIII	Types & kinds of workers at Ansbach

The third document withdrawn was NI 3762, Exhibit 1516, and introduced into evidence in lieu thereof, NI 3762A, Prosecution Exhibit No. 1559.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1559	NI 3762A	LXVIII	I. O. Labor situation

The final document to be withdrawn was Document NI 11412, Exhibit 1517, and introduced into evidence was Document NI 11412A as Exhibit 1560.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1560	NI 11412A	LXVIII	Number & types of workers at all I.G. plants

Mr. Sprecher then announced that a certificate had been submitted to the Secretary General establishing the fact that Prosecution's Exhibit 884, NI 7797, was found in the Field Economy Office, Feldwirtschaftsamt, which was the successor to the Military Economy Office. He further announced that there were a number of documents concerning which some question was raised by defense counsel in connection with the certificates. He then handed to the Secretary General a number of certificates concerning these documents which were to be inserted with the proper original exhibits.

The documents concerned were Prosecution's Exhibits 886, 881, 884, and 885. The photostat of Exhibit 884 was almost illegible. Therefore he submitted a new photostat to replace the one appearing in the original exhibit.

The Prosecution then called Edward Tilley, British national, former colonel in the British Army, for direct examination concerning his affidavit, Exhibit 1522, which was marked for identification only. He was then sworn as to the contents of the affidavit which was then admitted into evidence.

After direct examination by the prosecution, counsel for the defendant Schnitzler cross-examined the witness.

The prosecution objected to questions concerning the testimony given in affidavit form by the former secretary to the defendant Schnitzler as to her feeling of shame toward the collections of photographs of Auschwitz Concentration Camp.

The objection was sustained.

There being no redirect examination, the witness was excused.

The prosecution then offered documentary evidence subject to objection.

Counsel for Rustafisch objected to documents NY 2025, just introduced into evidence, and NY 8453 and NY 10282, not yet introduced, which concerned the exploitation of oil resources in Russia. He stated that all oil was a monopoly of the Russian state. He pointed out that the Hague Convention, Article 26, proved this point.

The Prosecution stated that the Hague Convention was written in 1908 and at that time there was no socialist state. Therefore, the Hague Convention could not apply. The IMF had ruled that exploitation did take place in Russia.

The Tribunal requested to know the facts upon which the prosecution claimed the documents material to the issues of the case.

The Prosecution pointed out that it indicated planning and dividing of profits and the retaining of resources of a foreign country.

Judge Morris stated that he was having difficulty with the prosecution's contention as to oil under Count 1 and Count 3, or in the overall case.

Mr. DuBois stated that where aggression was involved, the taking of anything from a conquered country was against the Hague Convention. He further stated that I. G. planned for the division of the spoils after the war was over.

Judge Hebert desired to know if the document proved active participation of the defendant Buetefisch.

The prosecution answered in the negative.

Counsel for Buetefisch pointed out that the foundation of Kuntzenhals Cel was formed before the war was declared against Russia, and the Hague Convention does treat usage of state property for the occupying powers.

The Tribunal ruled that the objection to the documents was overruled and they would be placed in evidence at the proper time. They further announced at that time that they had ordered four assistant defense counsel for the examination of documents at Frankfurt and that they had deposited the order with the Secretary General.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Sk. & Page No.</u>	<u>Description</u>

The above documents were introduced by the Prosecution, subject to objection.

Ernest Struss, German national, former chief of FBI Bureau, was called and sworn for direct examination concerning fifteen documents. The direct examination was broken down into sections and he was examined on Exhibits 1518, 1557, and 1559.

Dr. Bileker, counsel for von Knieriem, Dr. Brauns, counsel for Jackson and Lautenschlager, and Dr. Drischel, counsel for Ambree, cross-examined the witness.

The prosecution interrupted the cross-examination to announce that their witness Mueller had arrived in Hamburg and they requested that he be put on the stand at the earliest possible time, since the witness had other commitments and could not remain in Hamburg for a very long time.

Counsel for Buetefisch waived the right of cross-examination as did all other counsel present in the courtroom. However they requested a postponement of a decision until the afternoon session to discuss the subject.

Dr. Drischel continued the cross-examination.

Dr. Theobald, counsel for Burgin, cross-examined the witness.

Mr. Van Street questioned the witness in re-direct examination.

At this time Dr. Baettcher, speaking for all defense counsel, stated that they did waive their right of cross-examination of the witness Ehrlich.

The Tribunal announced that they were hopeful that the order for assistant defense staff would facilitate the examination of the witness on the stand.

Mr. Ansham then announced that a stipulation had been agreed upon by the prosecution and defense counsel as follows: These affidavits in evidence had been executed by the present witness, Dr. Struss, and were changed and modified in the following respect. Exhibit 66, NI 8326, page 7 of the English text, the sentence reading "Utmost speeding up of the future developments and avoidance of useless investigations," -- the words "useless investigations" should be stricken out and the words "uneconomical investments" to be substituted. Exhibit 667, NI 7241, page 7 of the English text, the paragraph reading "the year 1938 brings a marked sudden change in the attitude of the military authorities with regard to the Buna question," -- the word "military" should be stricken. Exhibit 618, NI 10008, there is to be no stipulation. Exhibit 613, no stipulation. Exhibits 614, 689, and 710, the prosecution agreed that the starting point of the graph on each of these documents was a period of years prior to 1933. They would indicate as to these prior years a higher point than the year 1938, which is the first year shown on the graphs of these four documents. Exhibits 615, 668, and 706, no stipulation. Exhibit 667, NI 10007, in item 3 of this document relating to the investments for explosives, appears a total figure covering the years 1932-1944, indicating investments in the amount of 100.7 million Reichmarks. This figure purports to represent the investment figures as shown by the books of Dynamit A.G. The prosecution accepted the additional statement of defense with respect to this figure that according to the incomplete records of the REA, an amount of only 81.1 million Reichmarks is shown for investments in explosives, and of the latter amount approximately 16 million is properly allocated to investments relating to Plastic, since Plastic were not segregated from the investments for explosives but were mingled with such investments. This would leave a balance, according to the incomplete records of the REA, for investments in explosives by Dynamit A.G., of approximately 45 million Reichmarks. Item 2 of the chart which indicates the investments for Diglycol shows the amount at 25.2 million marks. The Prosecution accepted the modification desired to be made by Dr. Struss, so as to note that this figure represents investments by the Montan Company, the operating company of the German Army Ordnance Office. With respect to investment figures under Stabilizers in the amount of 24.8 million Reichmarks, the prosecution accepted the modification desired to be made by Dr. Struss, so as to note that this figure represents investments by the Montan Company.

Exhibit 668, NI 10020 should be modified to conform to changes made in the preceding document. The following should be substituted for the part which presently appears in the affidavit so as to read as follows: "Diglycol is produced at Ludwigshafen, Welfen, and Gendorf. No investments have been made in Ludwigshafen. At Gendorf and Welfen investments were not financed by I.G. but by Montan." On page 8 of Exhibit 668, under the sub-division relating to Synthetic Gasoline, the following paragraph should be substituted for the present paragraph and will read as follows: "Synthetic Gasoline. The chart shows the investments for Leuna and Oppau. The Heydebreck investment does not appear in the chart since this plant was financed by the Reich. The Hoechst figures are not shown in the chart either, since the plant was not engaged in manufacturing synthetic gasoline but only in refining natural petroleum."

Exhibit 707, SI 7256, the prosecution withdrew.

By virtue of the foregoing stipulations, the defense should limit their examination of the affiant Struss to the following affidavits: Exhibits 612, 613, 615, 622, and 706.

Dr. Struss was then examined concerning his affidavits Exhibit 615 and 625.

Dr. Bernat, counsel for tor Meer, cross-examined the witness. On the completion of his cross-examination he requested the Tribunal to permit the defendant tor Meer to conduct the rest of the cross-examination since the documents concerned were of a technical nature.

The Tribunal consented and the defendant cross-examined the witness on Exhibits 667, 688, 695, 696, 612, and 613.

Whereupon the Tribunal adjourned at 1229, until 0800, Friday, 21 November 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher -- Mr. Jacobson -- Mr. Van Street

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0634.

The Deputy Marshal reported that all defendants were present in the Court Room.

Dr. Beutcher, speaking for all defense counsel, opened the proceedings by stating that the question concerning the cross-examination of a number of affiants was brought up in yesterday's session. The defense counsel considered the cross-examination necessary if the affiant is the only witness about a certain point or if the affiant, in his affidavit, states opinions or hearsay. He announced that cross-examination of the following affiants was waived: Dr. Frank-Fehle, Johann Marks, Elizabeth Michaelke, and Eugen Kegen. They deemed it necessary that the following witnesses be called for examination: William Allan, Hans Balandier, Franciszek Baprost, Jean van Mel, Franz Rottenberg, and Hermann Fritz Ruther. If, however, it became impossible to bring any or all of the witnesses to Würzburg because they might be outside the jurisdiction of the court, he suggested that a number of defense counsel, along with a commissioner, travel to the points necessary to conduct the examination. As to the cross-examination of Albert Spuer, the defense would give their answer at a later time. He then stated that the prosecution had offered a number of affidavits sworn to by defendants in the dock that were incriminating to other defendants. He asked whether such defendants must be cross-examined before the prosecution's case in chief is finished or could a postponement be made, or could the cross-examination of the defendants concerning the affidavits be made when they were examined in the witness box during their case in chief.

As to the latter point, the Tribunal stated that they would express their views after a conference, but concerning the cross-examination of witnesses proper, there was no disposition as to the limit of rights of cross-examination.

190

There was another matter, however, which they wanted to clear up at this time. They announced that it was close to the closing of the prosecution's case in chief and they desired to work out with the prosecution and defense a procedure for the presentation of the defense' case in chief. They requested a conference in the near future to work out this matter.

At this time the defendant tar Meer continued his cross-examination of the witness Ernst Struss concerning affidavits 615 and 665.

Dr. Weyer, counsel for Gajewski, and Dr. Theobald, counsel for Burgin, cross-examined the witness.

Mr. Jacobson questioned the witness in re-direct examination and introduced the following document for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1571	WI 11106		Record of meeting of Wirtschaftsausschuss (Ident. only)

Dr. Baettcher objected to the prosecution handing the witness a copy of a former interrogation which was not before the Tribunal nor the defense.

The Tribunal stated the prosecution should ask questions and the interrogation would be used to refresh the memory of the witness and not at any time would any part of the interrogation be read.

The prosecution, trying to sum up the phase of the testimony of the witness concerning poison gas production, was stopped upon an objection by defense counsel who objected that it was a statement and not a summing up of the testimony.

The objection was sustained.

The prosecution introduced the following document for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1572	WI 11106		Excerpt of US Strategic Bombing Service (Ident. only)

The prosecution requested to know if defense would invoke the twenty-four hour rule if the document was offered into evidence at this time.

In the opinion of the Tribunal, the twenty-four hour rule did not apply to documents introduced during examination or cross-examination. However, after conference with his colleagues the presenter did not offer the document.

The prosecution then introduced the following document for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1573	WI 12616		Audit report 1935-36 of Dynamit A.G. (Ident. only)

At this point the Tribunal announced that there would be no session on 22 November or 23 November.

Dr. Bernitz, counsel for the New, cross-examined the witness on questions brought up in re-direct examination.

The prosecution objected to questions concerning Brauch's political reasons for enlarging the Buna plant.

The objection was sustained since the witness stated previously that the defendant Brauch was not present at the meetings when the enlargement was discussed.

There being no further questions, the witness was excused.

The prosecution then offered documentary evidence, subject to objection.

Dr. Flachsenner objected to Exhibit 1593 stating Karl Lindemann, whose testimony made up the exhibit, was available to the prosecution and therefore he should appear as a witness. He further stated that the exhibit was merely an excerpt from the transcript of another court sitting in Nuremberg and was not admissible.

The prosecution contended that their only reason for offering the document was to save the time of the Tribunal. He pointed to Article 7 of Ordinance 7 in an attempt to prove his point.

The Tribunal asked if the Article meant that the prosecution could just take a part of the transcript from another proceeding and put it into evidence rather than put the available witness before the Tribunal.

The prosecution stated they could and would produce the witness if the Tribunal so desired. They then requested that the exhibit be marked for identification only until the Tribunal could confer.

The Tribunal consented and it was so marked.

The Prosecution then continued to introduce documentary evidence, subject to objection.

At the beginning of the afternoon session the Tribunal ruled that Exhibit 1593 would be admitted into evidence providing the prosecution produced the witness for cross-examination, if the defense desired to cross-examine the witness. However, if no cross-examination was desired it would be stricken.

The prosecution then called Oswald Pohl, condemned prisoner, former SS general, for direct examination concerning his Exhibits 1592 and 1593 and he was so examined. The witness corrected or supplemented paragraphs 30, and 40 of Exhibit 1292 and the prosecution then offered Exhibit 1590, for identification only.

The witness further corrected or supplemented paragraphs 1a, 1b, 1d, 1e, and 1f of his affidavit.

The Tribunal suggested that all parts of the affidavit not pertaining to this case be stricken.

The Prosecution yielded to the suggestion of the Tribunal as did the defense and requested a short recess to confer.

After the recess the prosecution announced that the paragraphs to be retained were paragraphs A, B, C, and D, up to the heading "Hermann Goering Werke", paragraph IV, VII, and paragraphs 1, 2, 3, and 4 under the heading "Circle of Friends".

He further requested that paragraphs 1 and 4 of Exhibit 1603 be stricken.

The witness corrected paragraphs 3 and 5 of his affidavit.

Whereupon the Tribunal adjourned at 1631, until 0930, Monday, 24 November 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. Van Street -- Mr. Sprecher -- Mr. DuBois

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0901.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Schmitt, absent due to illness.

Mr. DuBois opened the proceedings by announcing the prosecution's plans for the next three trial days. He stated they expected to rest their case in chief early next week, subject, however, to the cross-examination of affiants which the defense might desire before the prosecution's case is closed.

Dr. Seidl, counsel for defendant Duerffeld, then cross-examined the witness Oswald Fohl.

Dr. Flaeschner, counsel for Bustafisch, Dr. Meyer, counsel for Gajewski, Dr. Schubert, counsel for Burgin, and Dr. Lingenberg, counsel for Ilgenr, and Dr. Helke, counsel for Bearlein, cross-examined the witness.

Mr. Sprecher questioned the witness in re-direct examination.

Dr. Seidl objected to the prosecution's questioning the witness as to his ability to observe whether ~~SS~~ in concentration camps were being treated well since he was a high SS official, as being outside the scope of the affidavit signed by the witness.

The Tribunal stated that the inquiry was not pursuing anything brought up in the examination. However, if the prosecution was aware that they were opening up a field of extensive cross-examination, the question could stand.

The prosecution withdrew the question.

There being no further examination, the witness was excused.

Dr. Hoffmann, speaking for the regularly appointed defense counsel for the defendant Andres, requested that the defendant be excused for one hour to discuss the cross-examination of the next witness to be called.

The prosecution consented and the Tribunal excused the defendant for the period requested.

At this time the prosecution offered documentary evidence, subject to objection.

1608	NI 245	" 42	Diary of Dr. Ding, 20 Dec 1941

Dr. Kalte, counsel for Hewlein, objected to Exhibit 1608 since the document, beginning with the words "Diary of typhus and virus research" was in his opinion, a forgery. Also, the author of the diary is no longer living, and the document was not sworn to. He contended that the first page of the document was not admissible.

The Tribunal stated that if there was no doubt of the authenticity of the document then it would stand in a different light than an affidavit. Therefore the fact that the author was living or not living would not hold in this case.

The prosecution read into the record the decision of the medical case, Tribunal I, where the same document was admitted into evidence and where the same objections were made.

Dr. Hulse stated that the objections brought up in the medical case concerned experiments from June 1942 and the objections before this Tribunal were against the first page of the document. There was a possibility that the first page had been exchanged and the excerpt from the decision of Tribunal I did not mention the first page of the document.

The prosecution then quoted from a brief offered by the prosecution during the medical case explaining that it was the closing brief in connection with the diary.

After further argument by both sides, the Tribunal stated that the admissibility of such a document stands in a different light than an affidavit. They were here concerned with the type of document that was sometimes called a contemporary document and in such cases were admissible. However, it was taken out of the contemporary class since the title of the first page could not have been written on the date shown. Therefore, the objection was sustained as to the admissibility of the first page of the document with reservations of the right of the prosecution to supplement its proof. The first page of the document was then marked for identification only. However, the rest of the document was admitted into evidence.

The prosecution then continued introducing documentary evidence, subject to objection.

Mr. Van Street then called prosecution's witness Jaki Freguere, French national, former employee of Buna Werke factory of I.G. Farben, Schkopau-Merseberg, for direct examination concerning his affidavits, Exhibits 1351 and 1352.

Dr. Hoffmann, counsel for Ambros, cross-examined the witness.

The prosecution objected to statements of counsel as to the leave privileges of foreign workers in Germany as being a statement rather than a question.

The objection was sustained.

Dr. Gather, assistant defense counsel for Ambros, cross-examined the witness, introducing the following documents for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Description</u>

Mr. Van Street questioned the witness in re-direct examination.

Dr. Hoffmann and Dr. Gather, counsel for Ambros, questioned the witness on matters brought up in re-direct examination.

The prosecution objected to Dr. Gather reading a telegram from Ludwigshafen to the witness's uncle.

The objection was sustained.

The prosecution objected to questions concerning forced labor at Transcolor as being outside the scope of proper cross-examination.

The objection was sustained.

There being no further questions, the witness was excused.

The prosecution then corrected the record as follows: Exhibit 1120, for identification only, was placed in evidence. — Exhibit 1156, excerpt of the judgment of a French civil court, was withdrawn, and in lieu thereof the following document was submitted.

On the basis of the last two documents submitted, Exhibit 1158, NI 5758, was withdrawn.

The following documents were then submitted into evidence by the prosecution, subject to objection.

Case No. 6

PRESENT:

Judge Curtis Shaks, Presiding
Judge Paul M. Hebert
Judge James Harris
Judge Clarence F. Marrell

APPEARANCES

FOR THE PROSECUTION:

Mr. Kinschiff -- Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0851.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of Jacobs and Schmitz, excused due to illness.

The prosecution opened the proceedings by announcing that the defense had waived their right of cross-examination of the affiants Feiki, Kiedzinaki and Tonten.

In that connection, the Tribunal desired to know approximately how many more witnesses were to be called.

The prosecution indicated that there were outstanding between forty-two and forty-five witnesses.

The Tribunal announced their desire that the duly appointed commissioner take over a substantial number of witnesses upon the closing of the prosecution's case in chief.

Regarding witnesses, the prosecution stated that the Apprehensions Branch of OCCNO would not attempt to bring the witnesses Kovan and Distach from Landsberg Prison without a direct order of the Tribunal.

Judge Shaks stated that under the circumstances it would probably be better for the commissioner to travel to Landsberg for the cross-examination.

Dr. Helts stated that the affidavit of the affiant Distach, yet to be offered, contained many conclusions. In the case of a former affidavit, containing the same type of testimony, the defense and prosecution had agreed that certain paragraphs be deleted. He suggested the same type of procedure in this case. In the case of the affidavit of the affiant Kovan, ~~Wintz~~, the defense waived their right of cross-examination. He pointed out that the same affidavit had been used in the medical case and had little to do with

the case before this tribunal. He pointed to several paragraphs which, he contended, should not be included in the affidavit.

The Tribunal stated they had previously indicated that they would judge the relevancy or irrelevancy of any part of a document. They admonished counsel for taking the time of the court and stated that the defense and prosecution should confer informally for an agreement as to the striking of parts of the document, rather than to take up the time of the court. If, however, no agreement could be reached, then the Tribunal would rule on the matter.

The Prosecution then offered documentary evidence subject to objection.

Dr. Balta objected to Exhibit 1675 since he contended that it was only a list of persons present at the opening of an institute for the insane. The list did not include any defendants or show any connection with any of the defendants. Therefore the document was irrelevant.

The Tribunal stated that they considered both Exhibits 1674 and 1675 as irrelevant. However they would hear the prosecution on that matter.

The prosecution contended that both documents showed ID participation in experiments on persons other than concentration camp inmates, these persons being unable to resist participation in the experiments. The latter document showed that the persons present had all performed illegal medical experiments previously and the list included several persons who were convicted on such charges in the medical case in Nuremberg.

The Tribunal sustained the objection to Exhibit 1675, but stated the document would retain its exhibit number.

The prosecution continued introducing documentary evidence, subject to objection.

1691	NI 12484	LXXVII 1	Personal file of Dr. Vetter, ID employee (Ident. only)

Dr. Walte objected to Exhibit 1691, stating that it contained excerpts from files of a certain Dr. Vetter, a former SS doctor, the excerpts showing monies given to him by ID. It was the defense's contention that items listed were not payment for work and he pointed to one entry which he said was a gift to the doctor upon the birth of his child.

The prosecution stated that in their view, Dr. Vetter had performed medical experiments in Auschwitz with ID products and had, up until his release, remained on the ID payroll. He further contended that as an ID employee he had access to all products produced by ID for experimental purposes.

The Tribunal ruled that as the document now stands the objection would be sustained and it would be marked for identification only until the prosecution could make a more complete showing.

The prosecution then continued to introduce documentary evidence, subject to objection.

At this point Mr. Sprosser stated that there had been objections made to certain documents appearing in Prosecution's Book 12, since the German copies were in error and they had at the time of their offering been marked for identification only. He then requested that Exhibits 334, 339, and 340, the exhibits in question, be placed in evidence, since the corrected German copies had been provided for the defense.

They were admitted into evidence by the Tribunal.

The prosecution then introduced the following documents into evidence subject to objection.

Dr. Felts objected to the admission of Exhibit 1739 as being an excerpt of a full document and it showed the conviction and death sentence of Dr. Vetter by Dachau military trials as having no probative value in this matter.

The Tribunal requested to know the prosecution's contention as to the materiality of the document.

It was the contention of the prosecution that the document showed the guilt of an IG employee in medical experiments.

The Tribunal sustained the objection.

The prosecution then called Dr. Gunther Falkenberg, German National, former main business manager of Farbenwerke GMBH, for direct examination concerning his affidavit, Exhibit 1535.

Dr. Flaschman, counsel for Gustafisch, cross-examined the witness.

There being no re-direct examination, the witness was excused.

The prosecution continued with the offering of documentary evidence, subject to objection.

The Tribunal announced that they would recess at this time to go into an informal conference with prosecution and defense concerning the procedure and fundamental rules to be employed in connection with the winding up of the prosecution's case in chief and the beginning of the defense case in chief.

Whereupon the Tribunal adjourned at 1532, until 0930, Wednesday, 25 November 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher -- Mr. Minskoff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 500, Palace of Justice, at 0852.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of Jaschke and Saknitz, excused due to illness.

Judge Shaks announced that at the conclusion of the prosecution's case on Monday, December 1, or Tuesday, December 2, the Tribunal would recess until Thursday, December 18, and would set aside Thursday, December 18 and Friday, December 19, to hear opening statements of the defense; and that at the conclusion of the session of Friday, December 19, the Tribunal would recess until Monday, 12 January 1948.

The Tribunal reminded the defense staff that they should get into channels their opening statements and documents in ample time to have translations prepared.

The Prosecution then submitted corrections in translations of documents XI 5788 and XI 5847.

The Prosecution then started introducing documents from Document Book 89, to which the defense objected.

The Tribunal ruled to sustain the objection of the introduction of the documents into evidence and stated the prosecution could number all documents in Book 89 for identification. The prosecution agreed to this suggestion. The Prosecution then introduced the following documents for identification.

Dr. Giedl, counsel for Duerfeld, objected to Exhibit 1791 since it included an interrogation of one Kurt Gelstein who disappeared without trace two years ago, and therefore should be treated as deceased.

The Prosecution stated they had intended to call the Tribunal's attention to that part of the document referred to and were going to suggest it be ignored.

The Tribunal received the document in evidence except for the portion stricken.

The presentation continued with the offering of documentary evidence, subject to objection.

APPEARANCES

FOR THE PROSECUTION:

Mr. Spruher — Mr. Minkoff — Mr. Dufela

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0931.

The Deputy Marshal reported that all defendants were present in the Court Room.

Dr. Henze opened the proceedings by stating that the prosecution had previously presented an affidavit of a French witness. At the time of its presentation he had requested to send a representative from the defense to obtain counter witnesses. He announced that he had received a reply from the Defense Center which quoted a letter from the Military Government stating that it would be impossible for a German to enter France, and cited one of the reasons as being the impossibility of exchanging German marks for French francs. He then requested the Tribunal to help him in this matter.

The Tribunal stated they had no knowledge on the subject, but would try to help the defense in the presentation of their case. They requested an informal conference in chambers to discuss the matter.

The Prosecution stated that the same problem had arisen in Case 1 and the same objections had been made at that time. Therefore, the defense had submitted interrogatories in line of seeking and bringing French witnesses to Nurnberg.

The Tribunal asked if the defense had considered the employment of a French national to make interrogations in France.

Dr. Henze stated that again the matter of payment in French money arose, whereupon the Tribunal reiterated that they would take the matter up informally in chambers.

The Prosecution then announced that they had filed with the Secretary General a motion for the reconsideration of a ruling of the Tribunal concerning the admissibility of two affidavits of deceased affiliates.

The Tribunal requested to know if the defense was ready to argue their side concerning the question. Their answer being negative, the Tribunal stated they would be heard at an early time.

The Prosecution then offered documentary evidence subject to objection.

Dr. Silsby, speaking for all defense counsel, stated that to date they had received no copies of the documents being placed in evidence. Therefore the twenty-four hour rule had not been observed.

The Prosecution contended that they had supplied the Defense Center with all documents being submitted at least three or four days ago.

Judge Shake stated that he was anxious to conclude the prosecution's case in chief and in that light he requested to know if the defense would object to the admission of the documents if they were allowed to make their objections at a later time.

The defense consented and withdrew their objections at this time.

The Prosecution then announced that Prosecution's Exhibit 1871, previously introduced for identification only, now could, with the consent of the Tribunal, be introduced into evidence.

The Tribunal ruled that Prosecution's Exhibit 1871 would be admitted into evidence.

The Prosecution continued offering documentary evidence subject to objection.

Mr. Hunschoff requested that Exhibit 1467, NI 12071, which had been introduced for identification only, be admitted into evidence.

This was so ordered by the Tribunal.

Concerning Exhibit 1490, there had been a question raised as to the relevancy of certain paragraphs of the document at the time it was introduced. Mr. Hunschoff made corrections and deletions to the following parts of the document:

Paragraph 4 deleted up to the sentence beginning, "For example, shortly after I arrived at Auschwitz --"

He omitted all of Paragraph 6 with the exception of the first sentence.

Paragraph 8 deleted from part beginning with sentence "My husband told me" up to "and certain."

Paragraph 9 deleted from "because my husband."

Paragraph 17, beginning with the third sentence deleted up to "If they would not work faster."

The following document was then offered into evidence by the prosecution, subject to objection.

Exhibit 1808, NO 286, the document was in evidence with the exception of the first page. The prosecution then offered the following affidavit which showed the origin of the first page of the above exhibit.

All but the last sentence of Paragraph 11 deleted and Paragraph 13 deleted in its entirety.

Concerning Exhibit 1831, the prosecution requested that all reference to experiments other than experiments concerning typhus and suitable means of infection be stricken. Also that Paragraphs 15 through 18 and Paragraphs 20 through 22 be stricken.

Exhibit 1891, NI 12454 which had previously been introduced for identification only, the prosecution requested be withdrawn, and the following document was introduced into evidence to replace the one above mentioned.

Mr. Minskeff stated that Exhibit 1468, NI 7164 had previously been offered in part, the part not offered being five letters translated by the affiant Afrime. He then requested that the part in question be admitted into evidence.

The Tribunal admitted the part of the exhibit in question into evidence.

Mr. Minskeff then corrected the following pages of the transcript:

Page 3827, concerning Prosecution's Exhibit 1457 should read Exhibit 1472.
 Page 3828, concerning Prosecution's Exhibit 1401 should read Exhibit 1801.

 Page 4318, referring to the affiant Epen should read Kegen.
 Page 4349, concerning NI 12446, should read NI 12445.

Mr. Sprecher, for the prosecution, then offered the following documentary evidence, subject to objection.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
1833	NI 12789	LXXXVIII	Aff: Eliazar de Wind
1834	NO 5637		File note of Himmler speech to Circle of Friends

Mr. Sprecher then announced that the prosecution was ready to rest its case in chief subject to the following reservations:

1. There was a question arising out of the Tribunal's announcement of testimony to be given before a commissioner.
2. There was a question concerning stipulations made by defense counsel concerning the affidavits and certain affidavits in evidence.
3. Under Count 2 of the indictment, two exhibits, 1079 and 1086 were offered for identification only because a question had arisen as to the certification of the exhibits. The Prosecution had obtained two affidavits from affiants in Vienna certifying to the above exhibits and requested that upon arrival of the affidavits, be be given an opportunity to offer them as exhibits.
4. Exhibit 1016, WI 11204, an affidavit of the defendant Englar was not admitted into evidence by the Tribunal; however they had not passed on it as yet.
5. A motion had been filed with the Secretary General concerning the admissibility of two affidavits of deceased affiants which were previously rejected. Should the Tribunal grant their motion, then they might wish to offer into evidence other affidavits of deceased affiants which had previously been intended for introduction but had been withheld upon the ruling of the court.
6. There had been questions raised as to the authenticity of some of the documents in evidence and if at a later date better documents appeared the prosecution would want to discuss them.
7. Any further errors in transcript would be brought up at a later date.

The prosecution then stated that the affiant Chlendarf, a defendant in another case appearing before a Tribunal here, would be brought to the stand for testimony and if the affiant Orlich arrived from a foreign country he would also be placed on the stand.

There was still a question before the Tribunal concerning the cross-examination, waivers, stipulations, or interrogatories of some forty-seven witnesses to be heard, either by the Tribunal or by the duly appointed commissioner.

To all the stipulations mentioned by the prosecution, the Tribunal announced that they would rule before the recess of the case and before the defense began their case in chief.

Whereupon the Tribunal adjourned at 1206, until 0930, Tuesday, 2 December 1947.

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher — Mr. Mynskoff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, at 0931.

The Deputy Marshal reported that all defendants were present in the Court Room.

Dr. Seidl, counsel for the defendant Durrfeld, opened the proceedings by stating that the motion for the admission of affidavits of deceased affiants submitted by the prosecution to the Tribunal had previously been ruled upon and in the opinion of all defense counsel they saw no reason for changing the ruling. The right of cross-examination was a basic right of every defendant. If the prosecution attempted to introduce affidavits of deceased affiants, especially the affidavit of Rudolf Heess, they would vigorously protest such a ruling.

The prosecution stated that the weight of the affidavit could have nothing to do with the admissibility of the affidavit.

The Tribunal stated that they would rule on the matter and all other matters pending after the noon recess.

Dr. Helts requested to know if the Tribunal had received his letter concerning the affidavits of the affiants Heven and Dietsch, and the Ding diary, indicating those parts of the affidavits and diary which, in his opinion, were inadmissible.

The prosecution announced that there had been many breaches in the passing of notes and briefs from the defense to the prosecution and Tribunal and he was of the opinion that they were not using proper channels.

The Tribunal agreed with the prosecution and stated that all documents, briefs, and so forth, should pass through the proper channels to the persons concerned. They then requested the prosecution and defense to confer on the admissibility of parts of the above documents to be stricken, and they could not, at this time, state whether they had received Dr. Kalte's letter.

Dr. Kalte then asked if the affidavit of the affiant Affine, Exhibit 1405, pertaining to the translation of five letters, was put into evidence in yesterday's session without reservation.

The Tribunal informed him that all documents received in yesterday's session were received with the reservation that objections could be made at a later time. They further stated that a number of affidavits given by various defendants had been introduced in evidence as a part of the prosecution's case in chief. These affidavits were admitted by the Tribunal upon the theory that at least, against the makers, they constituted admissions of the individuals who made them. These affidavits also contained statements involving defendants other than the makers. The Tribunal had previously ruled that the broad general principles that a defendant was entitled to interrogate those who testified against him were applicable in this trial. According to this principle, a defendant against whom evidence was presented in the form of an affidavit of another defendant, was entitled to interrogate the maker of the affidavit.

The Tribunal was also mindful of another principle of fundamental right which was that a defendant may not be compelled to take the witness stand against his will and thus risk his becoming a witness against himself. It therefore became the duty of the Tribunal to resolve and apply the two principles that they had just stated with respect to the cross-examination of one defendant who had given an affidavit containing evidence against a co-defendant. As to this matter, they had reached the following conclusion. One defendant had no right to call another defendant to the witness stand over the latter's objection. If a defendant voluntarily took the witness stand he thus became a witness, for all purposes, and could be cross-examined by the prosecution. If the defendant on the stand had given an affidavit that had been introduced by the prosecution, which contained evidence against another defendant, the latter could cross-examine him within the scope of the matters set forth in the affidavit which were adverse to the defendant in whose behalf the cross-examination was conducted. If the prosecution has introduced in evidence the affidavit of a defendant who did not desire to take the witness stand and thus did not become subject to interrogation by other defendants, the Tribunal, upon proper motion, would enter upon the record an order to the effect that the affidavit would not be considered as evidence against defendants other than the affiant.

Touching upon another matter, the Tribunal ruled that on 26 November 1947, the prosecution had indicated in open court that it would rest its case in chief with certain reservations on or about 3 December 1947. The Tribunal thereupon announced that when the prosecution had rested its case it would recess until 18 and 19 December 1947 to hear the opening statements of the defense; and that upon the completion of said opening statements, it would again recess to 12 January 1948. The defense objected to this schedule upon the grounds that it did not provide sufficient time for the preparation of the cases of the defendants. The indictment in this case was filed on 6 May 1947 and the Marshal completed the service of the indictment on the defendants on 7 July 1947. The defendants were arraigned on 14 August 1947 and the opening statement of the prosecution was heard on 27 August 1947. The trial has been in progress since the last mentioned date, but there have been frequent recesses so that only fifty-three days have been consumed in the course of the trial. For the most part the Tribunal has been in session for a four day week. This arrangement was made at the request of the counsel for the defendants in order to provide them with more time for preparation.

The Tribunal fully realizes the magnitude of this case and the burdens that rest upon counsel for the defense, keeping in mind however the positive obligation imposed by Article 6 of Military Government Ordinance Number 7, that the trial shall be confined to an expeditious hearing of the issues and that strict measures shall be taken to prevent any unreasonable delay. The Tribunal feels that it is in no position to make further concessions with respect to the presentation of the defense. Under these circumstances, the Tribunal would not be justified in approving any further delay in the case.

As to the motion on behalf of the defendant Engler and the objections to Exhibit 1015, which was marked for identification only, there had been no showing as to duress according to the law and therefore the motion is overruled and the exhibit is received into evidence.

On 1 December 1947, the Tribunal received a letter from the Language Division, Office of Chief of Counsel for War Crimes, stating that to date, no documents had been received for translation from any defense counsel. The Tribunal would not hold with any delay in the trial due to lack of processing of opening speeches, motions, or documents.

Dr. Helts stated the remarks concerning the Language Division were false since he personally sent twenty-five documents to them for translation which were returned with the remark that documents would be received for translation in book form only.

The Tribunal announced that they would look into the matter and give defense a report on their findings.

The prosecution called Otto Glendorf, German national, presently on trial in another court, for direct examination concerning his affidavit, Exhibit 1509. The witness was former Ministerial director of economics, SS Gruppenfuhrer, and Chief of Office III in the Reich Security Office (RSHA). He was sworn and examined.

Dr. Hoffmann, counsel for von der Heyde, cross-examined the witness.

The prosecution asked defense counsel how his question concerning the witness's knowledge of gasings at Auschwitz had anything to do with the affidavit upon which the witness was being questioned.

The defense counsel withdrew his question and retired, whereupon Dr. Flaechner, counsel for Bastfisch, cross-examined the witness.

Dr. Hoffmann again came forward and cross-examined the witness.

Mr. Sprecher, for the prosecution, questioned the witness in re-direct examination.

The witness was then excused.

Emil Hermann, German national, former employee of the German Army Ordnance Office, was then called for direct examination concerning his affidavit, Exhibits 1819 and 1820.

The prosecution waived the right of direct examination.

Dr. Gather, counsel for Ambros, cross-examined the witness on the contents of the affidavit.

The Tribunal interrupted the cross-examination to announce that the letter, earlier mentioned by Dr. Helts, had been received by the Tribunal through regular channels and was in the possession of the presiding Judge, who observed that the prosecution should have their proper copies.

Dr. Gather continued his examination, introducing the following document for identification.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Description</u>
16	Embros 15 (NI 11105)	Records of German poison gas production, 1940-1944 (For identification only -- not provided)

It is to be noted that the document NI 11105 was formerly Prosecution's Exhibit 1572 for identification only and upon permission of the Tribunal and with no objection from the prosecution, it was turned over as a defense exhibit.

The Tribunal again interrupted the cross-examination to rule on the reconsideration of its ruling concerning the admittance of affidavits of deceased affiants. The motion as submitted by the prosecution was overruled by a majority of the Tribunal.

Judge Ebert stated, for the record, that he could not concur with the opinion of his colleagues. However, since he was in the minority, the ruling stood.

Dr. Helte then announced there were several passages in Exhibit 1490 which, in his opinion, were inadmissible. As to Exhibit 1611 and 1630, these documents were objected to on the grounds that they consisted of conclusions and opinions of the affiant. He stated that a discussion has been held with the prosecution as to the deletion of certain paragraphs or parts thereof, but no agreement could be reached. He further stated that the prosecution had offered Exhibit 1611 in toto and Exhibit 1630 mentioning paragraphs 3, 5, 8, 11 and 12 being stricken. The latter included part of the document he deemed irrelevant. He requested the Tribunal to take notice of the letter submitted by him which gave the defense counsel's views as to the irrelevant parts of the documents mentioned and requested the Tribunal to make their decision.

The prosecution stated that they had, on their own, struck those parts of the documents they thought were irrelevant.

The Tribunal had already admitted the documents and would rule as to the relevancy themselves.

They further stated that Paragraph 2 of Exhibit 1611 was the cause of the disagreement between prosecution and defense.

The Tribunal was of the opinion that concerning Exhibits 1490 and 1611 and 1630, Dr. Helte should leave the entire matter of competency and weight to the Tribunal. They then asked if the prosecution agreed.

The prosecution stated that they would agree providing they could submit a brief as to their contentions.

It was so agreed.

The prosecution then offered the first page of Exhibit 1608 in evidence.

Dr. Helte stated that the first page of the document had been further backed up by the offering of Exhibits 1630 and 1631 by the prosecution in yesterday's session. He reminded the Tribunal that at the time of the offering of Exhibit 1608 he had read into the record his objections which were the same objections he had made the time the document was offered before Tribunal I.

The Tribunal stated that they had received his objections in writing in German with no translation and requested him to read the same objections into the record again at this time. He again read his objections into the record whereupon the prosecution gave a short argument as to their contentions.

The Tribunal then ruled that the first page of Document 1408 would be placed in evidence.

Dr. Melte stated that part of the document formerly stricken and admitted into evidence yesterday, this being Document XI 1764, Exhibit 1468, and pertaining to the translation of five letters, was objected to since these letters were quoted from memory and the affiant stated further in the affidavit the actual location of the original letters. But so far the originals had not been produced by the prosecution.

The Tribunal ruled to sustain the objections of the defense.

The prosecution stated the documents showed medical experiments made by I.G. Bayer and were, in their opinion, relevant in this case.

Dr. Melte extensively objected to the statements of counsel for the prosecution and brought into his argument Exhibit 1633 observing the statements therein contained could not be true.

The Tribunal ruled that they would not admit that part of the document formerly sustained in Document 1468.

The prosecution then requested that the cross-examination of the witness Ekmann be discontinued for the time being and that the witness, Dr. Erich Gellish, be brought to the stand for the reason that he must return to Czechoslovakia without delay.

It was so ordered and the witness was sworn and directly examined concerning his affidavit, Exhibit 1742.

Dr. Flachsner, counsel for Eustefisch, cross-examined the witness.

There being no further questions, the witness was excused.

At this time the witness Ekmann was returned to the stand and his cross-examination was continued by Dr. Gether, introducing the following document for identification only.

<u>Exhibit No.</u>	<u>Document No.</u>	<u>Description</u>
18	Ambros 18	Legal document from Orgasit (For ident. only -- not provided)

The prosecution questioned the witness in re-direct examination.

The defense objected to questions concerning Orgasit's ability to manufacture poison gas without assistance from I.G. Farben, whereupon the prosecution withdrew the question.

At the conclusion of the re-direct examination the witness was excused.

The Tribunal observed that the time allotted for the opening statements of the defense was two days. They requested the defense to observe the time rule. They further stated that the manuscripts for the opening statements should be given to the Language Division at the earliest possible time so

that they would be ready on 18 December. They then requested a list of witnesses yet to be called and they would, upon receipt, enter an order for those witnesses to appear before the duly appointed commissioner.

They further stated that the Tribunal would convene at 0930, 17 December to take up any matters relevant to the hearing of the opening statements on the 18th.

Whereupon the Tribunal adjourned at 1820, until 0930, 18 December 1947.

Case No. 8.

Judge Curtis Shako, Presiding

Judge James Morris

APPEARANCES

FOR THE PROSECUTION:

Mr. Sprecher.

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0830.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Gajewski, excused due to illness.

The Presiding Judge opened the proceedings by announcing that Judge Morris was ill and would not be present at today's session. If, however, he was present at tomorrow's session, the Tribunal would hear the opening statements of the defense. If his illness made it necessary for him to be absent at tomorrow's session, the Tribunal would recess until January 12 and on that date would hear the opening statements. Judge Shako further stated that there were several routine matters to be taken up at this time. He announced that in the session on August, Document 3237 was offered, but the document actually filed with the Secretary General was PS 3373. This appeared on page 267 of the transcript. He ordered that the proper document be filed and that it so appear on the record.

Some time ago there was an order entered by the Tribunal that a report be made available to the defense counsel regarding the procurement of a report prepared by Colonel Hoffman of the 7708 War Crimes Detachment at Dachau and Augsburg. A response was received by the Tribunal stating that the reports requested were so voluminous that the organization holding the documents requested specific data as to what part or parts of the documents the Tribunal desired to be forwarded. He requested the defense counsel to make it known to the Tribunal at a later date those parts of the documents requested so that arrangements can be made to have them forwarded to Nuremberg.

There was also a motion before the Tribunal from the defense requesting the prosecution make available certain documents, statements and interrogations of defendants which were the basis for affidavits signed by the defendants and introduced into evidence. At the time the motion was made the Tribunal stated that they would give each side fifteen minutes for their arguments. Dr. Dix, counsel for Schneider, asked that the records of the interrogations of the defendant

Schneider be turned over to him since, in his view, the picture portrayed in the affidavit was not correct and contained many errors. The reports to the Gestapo, the surrender of plants and other points were not correctly shown in the final affidavit.

Dr. Rudolf Dix, counsel for the defendant Schmitz, stated that the question raised was in part one of principle, stating if the exhibits were offered to the Tribunal in part, then the defense should have the right to see not only the excerpts, but the whole documents. He further stated that if the affidavits of defendants were to be admissible, then the whole affidavit must be produced to get a complete understanding of the situation.

Dr. von Metzler stated that the explanations of his colleagues were the sentiments of he and his client.

Mr. Sprecher, for the prosecution, stated that the applications from defendants were for statements made after the collapse of Germany, to members of the prosecution staff and it was important to categorize each affidavit.

Counsel for Haefliger had requested all statements made by him. In this connection, Document NI 8872 was made before members of the prosecution staff and copies were given to the defense counsel. Document NI 7058 was not a sworn statement or affidavit and NI 1308 was a statement forwarded to the prosecution by the American military authorities in Frankfurt. The prosecution objected to the turning over of the latter two documents.

The defendant Schmitz had requested all statements made prior to his indictment. The prosecution would turn over those statements made prior to the indictment of the defendant, if such statements were made before members of the prosecution staff.

Counsel for the defendant Schneider had requested the interrogation transcripts of 27 March 1947 when statements were given by the defendant before GOC members and the reason for their requests was that the defense counsel desired the above statements to prepare the cross-examination of the defendant.

The transcripts of interrogations to other military organizations could not, in his opinion, be turned over unless approved by that agency or some other competent intelligence agency, inasmuch as the Department of Justice and other United States agencies are still interested in I.G.'s internal assets and in some cases the statements made involved such assets. He later pointed out the rulings of other Tribunals in such matters and requested, on the basis of his argument and the ruling of other Tribunals, that the requests be overruled.

Dr. Rudolf Dix then argued that if a record, which ante-dated an indictment was used as a basis for an affidavit and if the latter were offered in evidence, and the latter only included a summation of the original document, then defense should have access to them. Also, the original was obviously the document on which the indictment was based.

At this time he made a motion that all documents which were the contextual basis for affidavits submitted be made available to the defense.

Dr. Helmut Dix enlarged briefly upon the statements made by Dr. Rudolf Dix.

The Tribunal announced the matter would be taken under advisement.

Dr. von Metzler, speaking for all defense counsel, began to read a motion for a finding of not guilty of all defendants under Count 1 and 5 and spoliation in Austria and Sudetenland-Czechoslovakia. The prosecution requested that the motion be filed and that the Tribunal and prosecution be given a chance to see the motion and answer in writing.

The Tribunal stated it would be a burden of transcription and translation to read such a lengthy motion.

Defense counsel stated that he was under the impression that today's session was reserved for such motions and that his motion should be before the Tribunal and ruled upon before the defense' opening statements.

Dr. Dix, counsel for Schmitz, stated that in his view, the motion should be read if only for the reason that the public should be informed of the contents of such an important motion.

The Tribunal ruled that the request to read the motion be denied. The Tribunal granted the prosecution until 5 January to file their answer to the motion.

At this time Dr. Helmut Dix, counsel for defendant Schneider, stated that he had received an answer from the prosecution to his request to travel abroad. However the answer dealt with travel to Czechoslovakia and Poland and his desire was for permission to travel to the West and North of Germany.

The Tribunal stated that foreign travel involved many questions over which the Tribunal had no jurisdiction. However, if permission could be obtained, the Tribunal would cooperate in every way possible.

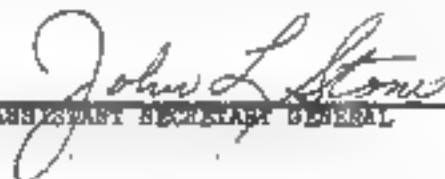

At this time Dr. Ischenauer, counsel for Gattineau, began to read a motion ruling out Control Council Law Number 10, asserting that the law was void because of the German-Russian secret treaty of 11 August 1939.

The Prosecution objected to the reading of the motion since they had not received a copy of the motion, did not know its contents, and therefore the defense had not observed the twenty-four hour rule.

Defense counsel argued the Secretary General, and Defense Information Center had received this motion on 8 January 1947; therefore it must be in the hands of the prosecution.

After argument from both sides it was found that neither the prosecution, Tribunal, or the Assistant Secretary General, had received the motion, and the Tribunal ruled that it would be carried over until the next session.

Whereupon the Tribunal adjourned at 11:31 A.M. to reconvene at 9:30 A.M., 18 December 1947.

The Tribunal stated that they would not tolerate any undue delay because of the improper processing of document books.

Dr. Silcher, of the Defense, stated that the basic information book which he had just distributed was primarily for the purpose of supplying the Tribunal with background information and would be referred to from time to time throughout the course of the case.

Dr. Beottcher, Counsel for Krauch, announced he was ready to begin his case and with the permission of the Tribunal would call the Defendant Carl Krauch to the stand to testify in his own behalf. PROCEEDINGS:

The Tribunal convened in Court Room 800, Palace of Justice, 0831 pursuant to adjournment, and the following proceedings were had.

The Marshal ascertained and reported that all defendants were present in the Court Room.

Dr. Beettoher resumed his direct examination of the defendant Carl Krauch.

Dr. Rudolf Dix, counsel for the defendant Schmitz, interrupted the proceedings by stating that he had requested Dr. Schacht to appear as a witness, but he was informed that the doctor was ill and in place of testifying he had written a brief. Dr. Dix had attempted to show the brief to his client in the box, but it was confiscated by the guard. He requested that the brief be returned so that the Tribunal see that this does not happen again. The Tribunal stated that matters of this kind should be taken up in chambers; however, the letter would be returned. They reminded the counsel that there were certain security rules that must be observed.

Dr. Beettoher then continued with his direct examination of the defendant Carl Krauch.

After the noon recess the Tribunal announced that experience indicated that their busiest time of the day was during their recesses, which was the only time they had to discuss administrative matters, and it would be a great help to them if Defense or Prosecution would speak to the Marshal to see if the Tribunal was free for conferences.

At this time Dr. Beettoher announced that he would be finished with his examination of Dr. Krauch either at the end of this session or early tomorrow. He announced that one witness he intended to call must return to Mannheim and he understood it was agreeable with the Prosecution to have the witness called tomorrow. After the witness was called there would be further direct examination of the defendant Krauch by counsel for other defendants, and after that he would submit his documentary evidence.

Dr. Beettcher stated that a treatise was being prepared concerning Count III, and he wished to question the witness on the stand concerning his own personal knowledge on the subject and requested the Tribunal to admit Brauch to the stand again if the treatise did not completely cover the subject as far as the defendant was concerned. The Tribunal stated that that was something that would have to be met if and when the occasion arose.

The Defense counsel then questioned the defendant on matters under Count III of the Indictment.

Whereupon the Tribunal adjourned at 1629 until 14 January 1946 at 0830.

Dr. Boettcher, Dr. Rudolf Dix, Dr. v. Heubler, Dr. Aschenbach,
Dr. Hoffmann, Dr. Storkbaum, Dr. Heinzele, Dr. Rath,
Dr. Schuber, Dr. Bornemann.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 9:31 A.M.

The Deputy Marshal reported that all defendants were present in the Court Room.

Mr. Sprecher of the Prosecution cross-examined the witness Walter Schieber on questions brought up in direct examination and concerning the witness's knowledge of the staff and duties of the office of Dr. Heit and Dr. Speer of the Reichs Ministries of Armaments and Ammunitions.

Dr. Boettcher objected to questions concerning the witness's discussion with Himmler of using concentration camp inmates to produce small arms and anti-tank guns. The Tribunal sustained the objection.

Dr. Boettcher again objected to questions concerning the receiving of a commission to visit several concentration camps to negotiate for labor for war production. The objection was sustained.

Dr. Boettcher then questioned the witness in redirect examination, whereupon the witness was excused.

Dr. Boettcher then called to the stand Erhard Milch, German national, convicted prisoner, former Generalfeldmarschall and Secretary of State of the German Air Ministry. He was sworn and testified concerning the development of Dr. Krauch's positions during the Third Reich and his activities.

Dr. Rudolf Dix, counsel for Schmitz, examined the witness.

Dr. Schuber, counsel for Bueglin, requested to recall the witness

during his phase of the case. It was agreed to by the Tribunal.

Dr. v. Metzler, counsel for Haeffliger, and Dr. Achenbach, counsel for Gajewski, examined the witness. Concerning the latter examination the Prosecution requested to know what the line of questioning would lead to. The question being the witness's knowledge of German armaments in 1939, as compared to Germany's neighbors, and conclusions of the witness as to aggressive or defensive armaments. The Tribunal ruled that the question had no probative value, therefore was not admissible.

Dr. Achenbach then stated that Germany was long without arms, and when they began to re-arm it was natural for outsiders to think that it was for aggressive purposes.

The Tribunal stated that the witness's so-called expert knowledge on the subject could not be considered proof of the belief or disbelief of any defendant, therefore the ruling would stand.

The Prosecution then objected to questions concerning the witness's knowledge of aggressive preparedness for war. The objection was sustained.

The Prosecution further objected to questions as to the witness's thoughts of plans of aggressive war, and again the objection was sustained.

Dr. Hoffmann, counsel for the defendant von der Heyde, then examined the witness. The Prosecution objected to questions as to why the witness did not know that Auschwitz was a camp for the extermination of Jews. The objection was sustained.

The Prosecution objected to questions as to what the witness saw at Dachau. The Tribunal sustained the objection since no defendant was linked in any way with Dachau.

Dr. Storkhagen, counsel for Schneider, Dr. Hainzeler, counsel for Wurster, and Dr. Rath, counsel for Ilgner, examined the witness. To the latter's examination the Prosecution objected to questions as to what the people thought of Germany incorporating Austria into the Reich as an aggressive act. The objection was sustained.

Dr. Ohawatz, for the Prosecution, cross-examined the witness. At the completion of the cross-examination the witness was excused.

Dr. Boettcher then called Emil A. Knaum, German national, former Deputy Chief of the Heereswaffenamt. He was sworn and testified concerning Dr. Knaum's activities in Germany's re-armament.

Dr. Schindert, counsel for Baergin, and Dr. Mix, counsel for Schmitz, examined the witness. The Prosecution objected to questions concerning the witness's knowledge of discussions on the reception of German troops by Austria. The objection was sustained.

The Prosecution objected to questions as to the witness' ever viewing a news-reel depicting the entry of German troops in Austria. The objection was sustained.

Dr. Hoffmann, counsel for Ambros, and Dr. Barnemann, counsel for Ter Meer, examined the witness.

Mr. Jacobson of the Prosecution cross-examined the witness.

Dr. Boettcher questioned the witness in redirect examination, and at

the conclusion of the redirect examination the witness was excused.

Whereupon the Tribunal adjourned at 15.31 P.M. until Friday, 16 January 1948, at 9.30 A.M.

Case No. 6

PRESENT:

Judge Curtis Shaws, Presiding
Judge Paul M. Hebert
Judge James Morris
Judge Clarence F. Maxwell

APPEARANCES

FOR THE PROSECUTION:

Mr. DeBois and Staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 9:32 A.M.

The Deputy Marshal reported that all defendants were present in the Court Room.

Dr. Dix, counsel for the defendant Schwitz, Dr. Seidl, counsel for the defendant Guernfeld, Dr. Berndt, counsel for the defendant Kama, Dr. Math, counsel for the defendant Ilgar, Dr. v. Metaler, counsel for the defendant Haefliger, examined the defendant Carl Krauch.

At this time the Tribunal stated that they had a report from the Commissioner concerning hearings of cross-examinations by the Commissioner. He stated that hearings had been conducted on December 12, 15, 17, 1947 and January 9, 1948, which resulted in the following:

Examination waived on 13 witnesses; 8 witnesses examined, and 2 affidavits withdrawn by the Prosecution. The remaining 20 witnesses are all considered to be unavailable for examination at Nurnberg and their testimony, if not waived, should be taken by means of interrogatories. In view of the present situation, therefore, it appeared that the responsibility for further progress with reference to the remaining 20 witnesses now rests upon the several defense attorneys whose clients are concerned in matters referred to in the affidavits of such witnesses.

The Commissioner recommended that the Tribunal make and enter an order as it might deem appropriate, directing testimony by means of interrogatories with reference to the 20 witnesses still outstanding.

The Tribunal fixed Tuesday, the 20th January 1948, as the date upon which they would hear arguments for and against taking of interrogatories as mentioned in the Commissioner's report.

Dr. Gierlich requested to know if the examination of the witnesses could be made at the place where the witnesses now reside. The Tribunal stated there was no problem involved where the witnesses resided in Germany, but those witnesses outside of Germany would create quite an administrative problem.

Dr. v. Metzler continued his examination.

Dr. Achenbach, counsel for the defendant Gajewski, Dr. Helmut Dix, counsel for the defendant Schneider, Dr. Hoffmann, counsel for the defendant Ambros, examined the witness.

Dr. Boettcher announced that two key-witnesses from Vienna were not available to come to Nurnberg, therefore counsel asked if it will be possible for the Tribunal and representatives of the Defense and Prosecution to travel to Vienna to hear the witnesses. The Tribunal stated that they would take the matter under advisement and rule on it at a later date.

Dr. Schubert, counsel for the defendant Emergin, Dr. v. Keller, counsel for the defendant v. Schnitzler, Dr. Reintzler, counsel for the defendant Wurster, Dr. Durr, counsel for the defendant Gattissan, Dr. Hoffmann, counsel for the defendant van der Heyde, then examined the witness.

Mr. Sprecher and Mr. DuBois of the Prosecution cross-examined the witness and introduced the following documents:

<u>Pres. Ex.No.</u>	<u>Doc.No.</u>	<u>Doc. Ex. & Page No.</u>	<u>Descriptions</u>
1839	SI 1156	-	Circular Letter from IG Berlin NW 7 (Ident. only) Not Provided.

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0930.

The Deputy Marshal reported that all defendants were present in the Court Room.

Dr. Beattcher requested to know if the Tribunal was in possession of the first seven Document Books of the defendant Krauch. The Tribunal stated that they had received only Book No. IV to date; however, they were informed that the Secretary General was tracing the other books.

Dr. Sprecher resumed the cross-examination of the defendant Krauch and introduced the following documents for identification:

<u>Exhib. No.</u>	<u>Doc. No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>

1851	HL-13784		Letter from Hurdlingier to F. Boos (Ident. only)

At the conclusion of the cross-examination the Tribunal observed that there ought not to be interrogations conducted by the Defense about incidents or documents where the witness has stated that he had no knowledge of the above incidents or contents of the documents.

Judge Morris stated that Defense Counsel should avoid repetitions of testimony given either in direct or cross-examination.

Dr. Boettcher then questioned the witness in re-direct examination.

At this time Dr. Hoffmann, counsel for the defendant Ambros, requested that his client be excused beginning tomorrow for the rest of the week, in order that he might have sufficient time to prepare his defense. The Tribunal ordered that the defendant be excused as requested.

Dr. Boettcher then continued with his re-direct examination of the defendant Krauch.

Dr. Rudolf Dix, counsel for the defendant Schmitz, and Dr. v. Metzler, counsel for the defendant Hafflinger, redirectly examined the witness.

The witness was then excused from the witness stand and was returned to the defendants dock.

Dr. Boettcher then introduced documentary evidence, subject to objection, as follows:

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Ambros, excused to prepare his defense.

The Tribunal requested to know if Defense Counsel was at this time ready to discuss the Commissioner's recommendations as to witnesses. Dr. Boettcher announced that all Defense Counsel had been called to a meeting at the conclusion of today's session to discuss the Commissioner's recommendations, and that he will be in a position to air their views at tomorrow's session.

Dr. Respass offered documentary evidence, subject to objection:

Dr. Helmut Dix at this time requested that his client, the defendant Schneider, be excused for one week to enable him to prepare his defense, as was the defendant Ambrose. The Tribunal granted the request.

Dr. Rudolf Dix, counsel for the defendant Schmitz, then called Clemens Kammers, German national, to the stand, where he was sworn and testified.

The Prosecution objected to leading questions of Defense counsel which had occurred on numerous occasions. The Tribunal sustained the objection and requested that counsel ask direct questions rather than long discourses of a leading nature.

The Prosecution then objected to questions as to the opinion of the witnesses as to the views of the defendants concerning their immigrating to another country during the period of distress in Germany. The objection was sustained.

The Tribunal then questioned the witness directly.

Dr. Rudolf Dix then continued with his examination.

The Prosecution objected to questions as to what class of people cast the greater number of votes for Hitler in 1932 and 1933. The Tribunal sustained the objection and requested counsel to rephrase his question.

At the conclusion of Dr. Dix' examination Dr. Berndt, counsel for the defendant Mann, Dr. Duerr, counsel for the defendant Guttman, Dr. Dix, counsel for the defendant Schneider, Dr. Guther, counsel for the defendant Ambrose, Dr. Silckert, counsel for the defendant von Knieriem, examined the witness.

Mr. Sprecher of the Prosecution then cross-examined the witness.

There being no redirect examination, the witness was excused.

Dr. Dix then called Hans von Reuter, German national and former Reichminister, for direct examination concerning the alleged part of I.G. Farben with Hitler. He was sworn and testified.

The Prosecution objected to questions as to German industry as a whole helping Hitler arise to power. The Tribunal sustained the objection.

The Prosecution then objected to questions as to the popularity of Hitler, as being outside the scope of proper examination. The objection was sustained.

The Prosecution waived their right of cross-examination, and the witness was excused.

Whereupon, the Tribunal adjourned at 1637 until Wednesday, 21 January 1945.

Case No. 5

PRESENT:

Judge Curtis Shale, Presiding
Judge Paul M. Robert
Judge James Morris
Judge Clarence F. Merrell

APPEARANCES

FOR THE PROSECUTION:

Mr. DuBois and Staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0931.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendants Haefliger, Schneider and Ambros.

Dr. Boettcher reported that the meeting of Defense Counsel held yesterday evening concerning the report of the Commissioner resulted in a non-agreement with the report. He stated that the Prosecution had reported that they could not produce eighteen affidavits for cross-examination, and it had been the rule that the affidavits should be produced for cross-examination. He contended that the Defense then had three alternatives:

1. The use of interrogatories which the Defense refused to use;
2. The withdrawal of the affidavits; however the Defense would not make an application for their withdrawal at this time;
3. To do nothing concerning the matter, but rather to leave it up to the Tribunal to evaluate the evidence contained in the eighteen affidavits.

It was the opinion of all Defense Counsel that the latter point was the one more preferable.

As to the affiant Jacobi, Dr. Boettcher proposed that the cross-examination be dispensed.

All other affidavits concerned appeared under Count III of the Indictment, with the exception of the affidavits Johann and Lothenberg. The two affidavits now resided in Vienna, and he suggested that representatives

of the Prosecution, Defense and the Tribunal travel to that city to cross-examine them.

As to the dismissal of charges under Counts I, II and V, there was nothing concerning the examination of witnesses that would hold up a decision of the Tribunal.

The Tribunal reported that the Prosecution had sworn under oath that the sixteen witnesses involved were unavailable.

As to the two witnesses residing in Vienna, they would rule at a later date, however the President observed that it was likely that such an arrangement could be made.

The Tribunal further announced that the use of cross-interrogatories in place of cross-examination would not impair the rights of the defendants.

Concerning the motion for dismissal of Counts I, II and V of the Indictment the Tribunal observed that until the case was closed they had no way of knowing how much evidence would be produced by the Prosecution to prove their contentions under the counts in question. Therefore they felt that a ruling at this time could not be made. As to the witnesses that could not be produced for cross-examination, it was the opinion of the Tribunal that the Defense had one of three things to do:

1. To challenge the Prosecution as to the non-availability of the witnesses;
2. The use of questionnaires;
3. To waive their right of cross-examination.

The Tribunal then asked if Defense counsel had considered the use of counter-affidavits. Dr. Boettcher replied in the negative, but stated that he would take up the matter with other Defense counsel concerned.

The Prosecution stated that they had suggested to Defense counsel the use of counter-affidavits.

Dr. Dix, counsel for the defendant Schmitz, then called Dr. Ludwig Kastl, German national, for direct examination. He was sworn and examined concerning the alleged pact of I.G. Farben with Hitler.

The Prosecution objected to questions as to what would have happened, if employers had tried to sabotage the Hitler regime. The Tribunal sustained the objection.

Dr. Dix concluded his examination, and Dr. Falkmann, counsel for the defendant von Kries, then examined the witness.

The Tribunal requested that Defense counsel supply them with a brief concerning domestic law of Germany as pertains to corporate enterprises.

Dr. Hoffmann, counsel for von der Heyde, and Dr. Siemens, counsel for von Schnitzler, examined the witness.

The Prosecution objected to Dr. Siemens giving an explanation as to the views of the Prosecution before asking a question. The Tribunal sustained the objection, pointing out that leading explanations before asking a question was not proper procedure.

Dr. Sprecher of the Prosecution then cross-examined the witness.

Dr. Dix and Dr. Hoffmann questioned the witness in redirect examination.

The witness was then excused.

The Tribunal announced they had been in conference with members of the Defense staff in order to work out a plan for processing their documents and books so that no further undue delay would occur in the presentation of the Defense case in chief, and as per agreement with Defense counsel the Court would be in recess until 09.30 Monday, 26 January 1948.

Whereupon, the Tribunal adjourned at 16.05 until 09.30 Monday, 26 January 1948.

FOR THE PROSECUTION:

Mr. DuBois and Staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0932.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendant Hasfliger, excused due to illness, and the defendant Schneider, excused to prepare his defense.

Dr. Kulte, counsel for the defendant Hoerlein, requested that his client be excused at 11 o'clock for the rest of the day in order that he might prepare his case. The Tribunal consented.

Dr. Siemera, counsel for the defendant v. Schmitzler, stated that Dr. Dix was supposed to introduce documentary evidence for his case in chief, but requested that he, Dr. Siemera, be allowed to bring two witnesses forward for direct examination, for they were urgently needed in other cities. The Tribunal consented and then observed that there were two witnesses in Austria and one witness imprisoned in the American Zone of Germany, and it was the opinion of the Tribunal that they could best be cross-examined at their residence or place of imprisonment. The Tribunal had instructed the Commissioner to arrange for their hearings in Vienna and the prison. It is the duty of the Commissioner to make all arrangements with the Prosecution and Defense staffs, the necessary translators and Court Reporters and to set the date of the hearings. In connection with the time schedule set for the Defense case in chief, if any complications arose concerning the completion of the schedule, the Defense counsel concerned was to contact Judge Hebert. If there was any trouble concerning the processing of document books, the Defense counsel concerned was to consult Judge Merrell.

The Prosecution then announced that they had introduced several documents for identification only during the cross-examination of a witness; they then offered these documents Exhibits No. 1840 through and inclusive of 1847 in evidence. The Tribunal received these documents in evidence.

Dr. Dix, counsel for the defendant Schmitz, stated that he would not call the defendant to the stand at the present time because of the physical condition of his client. In that connection the Tribunal announced that they would enter an order for the physical examination of the defendant Schmitz at a date agreeable with the defendant and his counsel.

Dr. Bragat, counsel for the defendant Ter Meer, requested his client be excused at 11 o'clock for the rest of today's session to prepare his defense. The Tribunal consented.

Dr. Siemers, counsel for the defendant von Schnitzler, then began his case in chief. He called Julius Overhoff, Austrian national, for direct examination concerning Count I of the indictment, as pertains to the defendant von Schnitzler. He was sworn and testified. During the direct examination counsel introduced the following documents for identification only:

<u>Ex.No.</u>	<u>Doc.No.</u>	<u>Description</u>
3	v.Schnitzler	List of Directors of I.G. (For identification in Latin America only) (Not provided)
4	v.Schnitzler	Letter from foreign organization to I.G.Farben (Not provided)

Dr. Lingenberg, counsel for the defendant Ilgner, examined the witness.

Judge Morris stated that counsel was beginning to cover the same ground upon which the witness had previously been examined, whereupon counsel concluded his examination.

Dr. Hoffmann, counsel for the defendant von der Heyde, examined the witness.

Mr. Sprecher, for the Prosecution, cross-examined the witness, who was then excused.

Dr. Siemers then called Gustav Schlotterer, German national, prisoner, former Ministerialdirektor, for direct examination. He was sworn.

Dr. Siemers stated that Exhibit 1041, Doc.No. 388 P8, was objected to when it was offered by the Prosecution, and the Tribunal stated at that time that unless the Prosecution tied it up to any defendant before their case in chief was closed, the Defense counsel could make a further objection. Counsel then made a motion that the Exhibit 1041 be stricken from the evidence. He stated that it had appeared in the IMT trials to prove that military circles had aggressive intentions along with Hitler. It was the contention of the Defense counsel there was nothing to show connection between any of the defendants and I.G. Farben or industry as a whole with "Operation Grimm", the contents of the Exhibit.

The Prosecution contended that the activities of the defendants in the period covered by the document were conclusive evidence that they knew the contents of the document. The document especially mentioned "Lorentina" and pointed to I.G.'s production of the product immediately prior to the date of the document. He stated that the

Prosecution never contended that any defendant was present when this military plan was drawn up, but what they did to prepare Germany for war was in collaboration with "Operation Gruen".

Judge Robert asked if it were not more practical to remove the document and in place thereof take judicial notice of the finding of the IMT concerning "Operation Gruen". The Prosecution stated they were not prepared to give an answer at this time.

The Tribunal stated that this was the proper time to rule because Defense Counsel had a witness on the stand whom he wanted to interrogate concerning the document.

Dr. Siemere stated he did not think the ruling of the IMT could apply to any of the defendants but rather as a basis on which they are to be tried, and he further enlarged upon his theory that the document should be stricken.

The Prosecution read from the transcript the ruling of the Tribunal upon the original objection to the document which, he stated, was different from the interpretation Defense counsel had given it.

At this time the Tribunal recessed for ten minutes in order to make a ruling.

Upon their return they ruled that the motion of the Defense be sustained and that Exhibit 1041, Document No. 388 PS, be stricken from the evidence in this case.

Dr. Schlotterer then testified in direct examination concerning Count I E and II E of the indictment.

Whereupon, the Tribunal adjourned at 1509 until 0930 Tuesday, 27 January 1948.

APPEARANCES

FOR THE PROSECUTION:

Mr. DeBois and Staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0932.

The Deputy Marshal reported that all defendants were present in the Court Room, with the exception of the defendants Hasfliger and Schneider.

Dr. Aschenauer, counsel for the defendant Gattinoni, stated that his motion of 7 January 1948 concerning the irrelevancy of material against his client and the request for his acquittal and release from custody should be ruled on at this time. He further stated that the Prosecution had replied to his motion, but had added nothing new to their evidence against the defendant. The Tribunal announced that they would be placed in an unfortunate position to rule on this matter until all the Prosecution evidence had been presented.

Dr. Bernatt, counsel for the defendant Ter Meer, stated that he had heard in yesterday's session that the defendants Schmitz and v. Schnitzler would not take the stand for testimony. In the session of 2 December 1947 the Tribunal had stated that the affidavits of defendants who gave testimony against another defendant and who did not take the stand for cross-examination would be set aside. He made a motion that the affidavits of v. Schnitzler not be used as evidence against any other defendant. The Tribunal stated that counsel was correct as to that ruling, but the presentation of the defendants' case was in the hands of Defense Counsel, therefore, the motion would be premature, but at the conclusion of the defense case in chief, if a defendant did not take the stand they would rule on the motion.

Dr. Dix, counsel for the defendant Schmitz, notified the Tribunal that his document book No. II had not been completed, and requested that the Tribunal intervene. Judge Merrell stated that he had already

contacted the authorities who have promised the book today.

Mr. Sprecher of the Prosecution stated that he had reviewed the status of the Prosecution's evidence and had come to the conclusion that as far as six affidavits were concerned he was in a position to withdraw them from evidence. He then made a motion that the following documents be withdrawn:

<u>Exhibit No.:</u>	<u>Document No:</u>
1349	NI 11410
1763	NI 11710
1162	NI 6739
1121	NI 11624
1122	NI 11622
1454	NI 9818

The Tribunal stated that the motion was sustained and the affidavits would be withdrawn from the evidence in this case.

The Tribunal announced that in the light of the Prosecution withdrawing the six affidavits Defense Counsel should again review the remaining affidavits to see if they could come to an agreement for the withdrawal of any of the outstanding affidavits to further shorten the list.

Dr. Richter stated that concerning the affidavits of co-defendants it appeared that in some cases the affidavits of the defendants were the sole evidence on certain points of the indictment, and if the defendant did not take the stand, then ■ was his understanding that the affidavit would be withdrawn and there would remain no evidence on those various points, that meant that no counter-evidence would be necessary. If, however, a defendant changed his mind and did appear as a witness, would Defense Counsel have a right to put in counter-evidence at that time?

Judge Morris stated that defendants or Counsel could cross-examine or offer evidence in defense of any evidence made available against them by testimony or affidavit. If a defendant does take the stand that opens the opportunity to offer counter-evidence.

Dr. Siemore, counsel for the defendant v. Schnitzler, resumed his direct examination of the witness Gustav Schlotterer.

Mr. Sprecher stated that the witness was reading from a prepared statement rather than giving direct testimony. He did not object to such a procedure when testimony concerned technical questions, but in this case testimony was not of a technical nature.

The Tribunal stated that that was not the serious problem concerned, but questions should be asked so that a short precise answer might be given. In this case the question was so general that the Tribunal could not determine when the question had been properly answered. If Defense counsel wanted a general picture before the Tribunal then it would be better to have the witness make an affidavit. They sustained the objection and requested that Counsel reform his question.

After the noon-recess Judge Shahn observed that there were only three Defense Counsel present and requested that those counsel absent be notified to be more punctual.

Mr. Sprecher announced that there was a motion outstanding concerning the correction of the English transcripts, and a second motion was in the making, and so far Defense Counsel had made no mention

of the original motion. The Tribunal stated that Defense Counsel should take the matter up immediately among themselves so that a ruling might be made.

Dr. Siemera continued his examination of the witness.

Dr. Lingenberg, counsel for the defendant Ilger, Dr. Beane, counsel for the defendant Oster, and Dr. Silcher, counsel for the defendant v. Krieger, then examined the witness.

Mr. Newman of the Prosecution cross-examined the witness, and introduced the following document for identification only:

<u>Proc. Ex. No.</u>	<u>Doc. No.</u>	<u>Description</u>
1852	NI-13567	Interrogation of Gustav Schlotterer (Ident. only)

Dr. Siemera objected to questions concerning the witness' testimony before a Commissioner when the witness appeared as a Prosecution witness. The Tribunal stated the question was not proper in view of the direct testimony given here, and they sustained the objection.

Dr. Siemera then questioned the witness in re-direct examination, and the witness was then examined.

Dr. Dix, counsel for the defendant Schmitz, then introduced documentary evidence for his case in chief which had been interrupted to present the two witnesses for the defendant v. Schmitz:

<u>Exhibit No.</u>	<u>Doc. No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
4	4 Schmitz	I 1	Aff. Wilhelm Ferdinand Kalle
5	5 "	" 6	Aff. Wilhelm Ferdinand Kalle

Judge Hebert stated that counsel was going into entirely too much detail as to the contents of the documents and a brief statement ordinarily as to the contents of each document would suffice.

<u>Exhibit No.</u>	<u>Doc. No.</u>	<u>Doc. Bk. & Page No.</u>	<u>Description</u>
6	6 Schmitz	I 21	Aff. Hermann Buecher

17	17 "	" 104	Obituary for Geheimrat Dutberg (withdrawn)
18	18 "	II 1	Excerpt of book "How was it possible" by Kurt Stalkert

The Prosecution objected to Exhibit No. 18 as being an excerpt of a book giving opinions of the author and written after the collapse of Germany, and it was their contention that the Exhibit should be accompanied by an affidavit of the author. The Defense stated that the book was written during the war, but published after the war, and fully describes observed facts. The Tribunal sustained the objection in part, but announced that they would admit that part pertaining to a speech given by one Dr. Latzeke.

Whereupon, the Tribunal adjourned at 1630 until Wednesday, 26 January 1946.

Dr. Gienrichs, counsel for the defendant Schmitz, Dr. Berndt, counsel for the defendant Ter Meer, and Dr. Silcher, counsel for the defendant v. Krieger, then examined the witness.

Mr. Sprecher of the Prosecution cross-examined the witness and introduced the following documents:

<u>Proc.Ex. No.</u>	<u>Doc.No.</u>	<u>Description</u>
1852	XL-13567	Interrogation of Gustav Schlotterer (Ident. only)

Mr. DuBois, Chief Prosecution Counsel, stipulated that they had not presented any documentary proof concerning Atrabine and Sulpha drugs, as mentioned in section I Y of the indictment, therefore there was no reason for the Defense to present counter-evidence concerning that phase of the case.

Dr. Siemern then questioned the witness in redirect examination.

The Prosecution objected to the statement and the question of counsel pertaining to the bombastic manner in which Goering made public speeches. The Tribunal sustained the objection.

Dr. Wlicher then questioned the witness on matters brought up in redirect examination.

The witness was then excused.

Dr. Siemern then called Hermann Schaub, German national, for direct examination. He was sworn, and Dr. v. Keller, assistant defense counsel for the defendant v. Schnitzler, examined the witness in direct testimony.

Judge Morris interrupted the proceedings to state that the questions concerning Polish cartels did not, in his opinion, tie up with any evidence presented by the Prosecution. They sustained their own objection and advised Counsel to question the witness on another subject.

During the examination Defense counsel offered the following document for identification only:

<u>Ex. No.</u>	<u>Doc. No.</u>	<u>Description</u>
7	v. Schnitzler	3 photos of Wola Plant. (Ident. only) Not provided.

FOR THE PROSECUTION:

Mr. Sprecher, and staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0931, pursuant to adjournment, and the following proceedings were had.

The Marshal ascertained that all the defendants were in the Court Room, with the exceptions of Gajewski, Oster, Buetefisch, Lautenschlaeger, Haefliger, and Krauch, all excused on their own applications.

Dr. Melts states that in behalf of the entire Defense Counsel, it was necessary for the Prosecution to follow and understand the procedures of the Defense. He also stated that it should be a permanent rule that a Counsel present their document books 24 hours ahead of time and that now the only book available in German for the Defendant Ter Meer was book IX. That without the correct number of document books in German, he could not prepare his redirect-examination.

The Tribunal stated that the micrographing departments were overloaded with the closing of other cases and there only needed to be a little cooperation on the part of the Prosecution and Defense. If need be, the Defense may be permitted to postpone the interrogation of Ter Meer until the German copies of the document books were available.

Dr. Burman proceeded with the examination of Ter Meer and introduced the following documents:

The Prosecution objected to the introduction of Exh. 227, as not being relevant to the case. They stated that the document was the personal opinions of a correspondent of the New York Times published in 1947, after the serving of the indictment and did not apply to the charges of the indictment.

The Tribunal ruled that editorial opinions were of no value; therefore, the objection was sustained. The Prosecution then objected to Exh. 228 and 229 on the same grounds. The Tribunal sustained the objections.

Dr. Bornemann then resumed the direct-examination of the defendant ter Meer.

Judge Shah interrupted the proceedings to state that the Tribunal had reviewed the situation as concerned the delay of the delivery of document books and asked the Defense Counsel of other defendants, who wished to examine the witness, to be prepared to do so at the conclusion of direct-examination by Dr. Bornemann. However, if further interrogation in the future was desired the defendant would be recalled.

Dr. Bornemann and Dr. Bernat continued the direct-examination of their client. Dr. Bernat introduced the following documents:

PRESENT:

FOR THE PROSECUTION:

Mr. Sprecher, and staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0931, pursuant to adjournment, and the following proceedings were had.

The Marshal ascertained that all the defendants were in the Court Room, with the exceptions of Krauch, Haefliger, and Lautenschlager, all excused on their own applications.

The Tribunal announced that Defense Counsel were entirely within their rights to supplement the long examination of the defendant on the stand, but requested they refrain from covering subjects already brought up.

Dr. Berndt continued the direct-examination of his client, Fritz ter MEER.

The defendant supplemented paragraph 10 of exhibit 237 beginning with "first hand information" by adding the name "Schmitz." In paragraph 20 he stated that he had made a mistake in saying that Russian POW's were employed at Gendorf plant and he corrected that phase of the paragraph.

Upon conclusion of the direct-examination, Judge Morris stated that at the beginning of the Defense case in Chief, a time schedule was worked out for the presentation of the case of each defendant. In most cases, this schedule was not adhered to. If necessary, there would be a change in policy if the schedule was not met. This, he stated, was his own opinion.

Dr. Schubert, Counsel for Buerger, Dr. Helmut Dix, Counsel for Schneider, and Dr. Silcher, Counsel for Haeublein, and von Knieriem examined the witness.

The Prosecution objected to several questions concerning the responsibilities of individual members of the Vorstand. The objections were sustained.

Dr. Aschamster, Counsel for Gattineau, and Dr. von Metzler, Counsel for Eschliger, examined the witness.

Judge Hebert, speaking for himself, stated that the witness had been taken over many details that were outside the scope of the indictment and if there was anyway in highlighting those things pertinent during cross-examination it would be appreciated.

Mr. Sprecher then began the cross-examination of the defendant, introducing the following documents:

FOR THE PROSECUTION:

Mr. Sprecher

FOR THE DEFENDANTS:

Dr. Fleischner

Witnesses for the defense:

Defendant Rustefisch

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900, pursuant to adjournment and the following proceedings were had.

The Marshall ascertained that all the defendants were present in the Court Room, with the exception of Haefliger, who was excused due to illness.

Dr. Fleischner, Counsel for Rustefisch began his case in chief for his client and I. G. Farben with regard to the field mineral oils. The Defendant Rustefisch was called as witness, sworn and examined by Dr. Fleischner.

The Tribunal interrupted the examination of the Defendant Rustefisch to announce its ruling on the Prosecution's motion of 26 February, relating to the production of certain documents by Defense Counsel. The Tribunal stated that it considered that Dr. Alt's conduct in handling material under his control as technical advisor of the present administration of the Indwighafen plant justified a reprimand. It further labelled the action of members of the Prosecution as hasty and ill-conceived. It reminded both Prosecution and Defense that as officers of the Court they shared with the Tribunal the responsibility for the orderly administration of justice. With the observation that there was nothing in the record reflecting on the honor or professional integrity of the Counsel for the Defense in general, the Tribunal dismissed the application of the Prosecution. The Tribunal later authorized the Secretary General to turn over the documents in question to the Prosecution.

Dr. Frihilla, Counsel for Lautenschlaeger requested and was granted permission for his client to be absent from the next three sessions to prepare his case. At the request of his counsel, the Defendant Elger was excused from the sessions of 9 and 10 March.

Dr. Fleischner offered the following documents:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900, pursuant to adjournment and the following proceedings were had.

The Marshall ascertained that all the defendants were present in the Court Room, with the exception of Knefliger, excused due to illness, and Ilgner and Lehtenschlager, who were excused for the day's session.

Dr. Melte, speaking for the Defense as a whole, stated that the Defense considered the deadline of 1 April for submitting document books for translation difficult to meet and further asked the Tribunal to extend the limit of one hour ~~for~~ for final pleas, to a time comparable to that allowed in other cases. The Tribunal replied that only seven defendants were affected by the 1 April deadline, and that this placed them under no great handicap than those whose cases had already been presented. As to the time limit for final pleas, the Tribunal explained that the schedule allowed more than one week which could be apportioned as Defense Counsel saw fit, and that there was no limit to the amount of written evidence or argument which might be submitted. The Tribunal found no reason to alter the schedule announced 27 February but pointed out that, as in the past, it was always ready to give consideration to any exceptional circumstances.

Dr. Lommer requested that his client, the Defendant Kuehn, be excused from the afternoon session. The request was granted.

Dr. Flaschner resumed examination of his client, the Defendant Rustfisch.

Upon request of his counsel, the Defendant Oster was excused from the afternoon session.

The Tribunal announced that the commissioner had advised that of the Prosecution affidants, whom the Defense wished to cross-examine, five remained. Of these one was in the United States, two in Poland, one in Paris and one in Frankfurt. Since the Prosecution did wish to withdraw the affidavits and the Defense did not wish to waive its right to cross-examination, the Tribunal in

view of the virtual impossibility of producing four of the five witnesses, suggested that the Defense submit interrogatories to be executed by the affiants. If the Defense did not avail itself of this opportunity, the Tribunal would be obliged to consider that the Defense's right of cross-examination had been waived. It would, however, in such a case, in weighing the testimony, take into account the fact that there had been no cross-examination.

Dr. Flaechener continued examination of the Defendant Buetschli, offering the following documents:

The witness Prof. Gerlach was called, sworn and examined by Dr. Flaschner, cross-examined by Mr. Sprecher, and excused.

The Tribunal announced that the Defense's motion to strike from evidence Prosecution Exhibit 1958 was overruled. At the request of the Defense and with the concurrence of the Prosecution the Tribunal agreed to take judicial notice of those parts of Exhibit 1943 which had been withdrawn when parts of Exhibit 1943 were re-introduced as Exhibit 1958.

The Tribunal stated that it would rule on this request after Dr. Hoffmann had determined whether he considered re-examination of his client necessary.

FOR THE PROSECUTION:

Mr. Anshen

FOR THE DEFENDANTS:

Dr. Rath, Dr. Bachus

WITNESSES FOR THE DEFENSE:

Ilgen, Duke Adolf Friedrich of Mecklenburg

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900, pursuant to adjournment and the following proceedings were had.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Haefliger and Lautenschlager, both of whom were excused due to illness.

Upon request of Dr. Berndt, the Defendant Kuchta was excused at 0930 hours and the Defendant Mann at the noon recess.

The Tribunal announced that owing to the Easter holidays, the 1 April deadline for document books had been extended to 5 April.

Dr. Rudolf Dix submitted two motions in writing. The first, offered in behalf of his client, the Defendant Schmitt, requested that a portion of Prosecution's Exhibit 334, Document NL-5187, be stricken from the record. The second, offered in behalf of the Defense as a whole, pointed out the difficulties in securing testimony from witnesses on affidavits in the British and French Zones because of the MG regulations in these zones requiring counsel coming on travel orders from the American Zone to register at the security office stating with whom they wished to speak. Because most persons whom the Defense wish to see do not desire their names to be disclosed, the result has been that the collecting of information is almost impossible. The Tribunal was requested to do whatever is possible to remedy this situation.

Dr. Rath conducted re-direct examination of his client, the Defendant Ilgen.

Mr. Anshen conducted re-cross examination. The Tribunal (Judge Morris) questioned the witness, asking for the names of any members of the I. G. Farben Vorstand now living who were not indicted. As the witness could not give this information, Judge Morris stated that he would expect a later defendant to be able to supply it. The witness was then excused from the stand.

Mr. Anchan suggested that the information requested by the Tribunal should also include details relating to the status of the members, length of service and their whereabouts at the time of the indictment. The Tribunal stated that the Prosecution would be permitted to supply any additional facts relating to questions asked by the Tribunal.

Dr. Nath then called as witness Duke Adolf Friedrich Mecklenburg, who was sworn, and examined by Dr. Nath.

Immediately following the noon recess Dr. Rudolf Dix made an announcement on the part of all Defense counsel that in order to expedite hearings before the commissioner, the Defense would be willing for the commissioner to make rulings on objections, a right now reserved to the Tribunal. Mr. Anchan stated that the Prosecution would prefer to continue the present procedure. The Tribunal stated that a ruling would be made at a later date.

Mr. Anchan cross-examined the witness, who was then excused.

Dr. Nath called the witness Guenther Frank-Fahle, who was sworn and examined by Dr. Bachem for the Defendant Ilgner, and Dr. von Keller for the Defendant von Schnitzler. Mrs. Kaufman conducted cross-examination, and the witness was excused.

Dr. Nath then offered the following documents:

The Tribunal announced that there remained five Prosecution affidavits, whose affidavits had not been withdrawn and the right to cross-examine whom had not been waived, who had not yet been cross-examined before the Commissioner. The Tribunal directed that Defense Counsel wishing to cross-examine these witnesses file interrogatories with the Secretary General by 12 April. Failure to file such interrogatories would be construed as waiving right of cross-examination. If, after the interrogatories had been sent, a reply was not received within a reasonable time, the Tribunal would order stricken from the evidence the affidavits concerned.

Mr. Sprecher stated that the Prosecution would make available to Defense Counsel any pre-trial interrogations of defendants conducted by OCCWG personnel.

Upon request of Dr. Hoffmann, the Defendant von der Heyde was excused from the session of 8 April.

The Prosecution provided Exhibits 2062 and 2061, offered, but not provided on 24 March.

Whereupon the Tribunal adjourned at 1643 hours until 0900 hours, Friday, 8 April, 1948.

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Lautenschlaeger, Haefliger, and Ilgner, who were excused on account of illness.

Dr. Dix, speaking for the Defense as a whole, offered objections to the practice of the Prosecution in offering during cross-examination documents about which the witness was not questioned and which were either supplementary to case-in-chief or rebuttal documents.

Mr. Sprecher speaking for the Prosecution stated that the documents about which no questions had been asked had been documents which contradicted the testimony of the witness and were self-explanatory. As to the practice of offering rebuttal documents during cross-examination, Mr. Sprecher explained that this had been done out of consideration for the Defense.

The Tribunal ruled that the present procedure would be continued since the practice of accepting rebuttal documents at this time was fairer to the Defendant and reduced the time necessary for rebuttal. Defense Counsel would be afforded sufficient time to familiarize themselves with the documents and might object to any document which was not strictly in rebuttal.

The Tribunal made the following announcements.

A request of Dr. Flachsenner to substitute a corrected copy of Statensich Document No. 314, Exhibit 106, for that originally provided was granted, subject to objection from the Prosecution.

With reference to a motion of 11 February by Dr. Helte, asking that the Prosecution be required to produce original sick reports referred to in Prosecution Exhibit 1715, the Tribunal ruled that, if these sick reports could not be provided, the Exhibit 1715 would be stricken from the record.

In reply to a request of Dr. Helte for a clarification as to whether Document HI-14046, Prosecution Exhibit 1663, was in evidence, Tribunal instructed the Prosecution to re-offer the document at a time when Dr. Helte would be present.

Dr. Wagner, with the permission of the Tribunal, interrupted the examination of the Defendant Wurster to call Pedro Vlahic as witness for Wurster. The witness was examined by Dr. Heintzeler, cross-examined by Mr. Street, re-examined by Dr. Heintzeler, and excused.

The Defendant Wurster then resumed the stand and his examination was continued by Dr. Heintzeler and Dr. Wagner. Dr. Hoffmann, Counsel for Jambros and von der Hayde, and Dr. Hartmann, Counsel for Oster.

The witness was cross-examined by Mr. Street and Mr. Sprecher. Dr. Wagner conducted the re-direct examination.

At the request of the Commissioner, the Defendant Krach, and, at the request of counsel, the Defendant Schmitz, were excused from the afternoon session to be present at a hearing before the commissioner.

The Defendant Engler was excused from the session of 13 April.

Mr. Sprecher announced that he and Dr. Boettcher had agreed upon a stipulation, namely that the terms MXI and GS applied to priority numbers issued by the Krach office for building materials.

The Tribunal announced that at the request of the commissioner the Defendant ter Meer would be excused from the session of 13 April to attend a hearing before the commissioner, if he so chose.

The following documents were offered:

The Tribunal convened in Court Room 600, Palace of Justice at 0900.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Hasfliger and Lentenschlaeger, who were excused due to illness.

The Tribunal offered the suggestions that the final briefs of both Prosecution and Defense be short and succinct covering the general findings but not restating all the evidence. The Tribunal expressly stated that this suggestion was not meant to limit Counsel's privilege of presenting their case as they saw fit.

Dr. Wagner and Dr. Haintzler, Counsel for Warster concluded examination of the defendant, who was then examined by Dr. Hoffmann, Counsel for Ambrose and excused from the witness stand.

Counsel for Warster completed the presentation of their document books.

Dr. Lammert, Counsel for Kuehne, called the Defendant Kuehne as witness. Mr. Sprecher conducted cross-examination, and Dr. Hoffmann, Counsel for Ambrose, re-examined the witness who was then excused from the stand and from the courtroom.

Dr. Seidl began his case-in-chief for the Defendant Duerrfeld.

The Tribunal asked that all objection to Prosecution documents, on the basis of their not being proper rebuttal material, be made in writing.

The Defendants ter Meer, Battineau, and Kuehne were excused from the afternoon session.

Case No. 5

PRESENT:

Judge Paul W. Hubert
Judge Clarence F. Merrill, Alternate

FOR THE PROSECUTION:

Mr. Sprecher

FOR THE DEFENDANTS:

Dr. Seidl

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900.

The Marshal ascertained that all the defendants were present in the Court Room with the exceptions of Lautenschlaeger, Haefliger, von der Heyde, Kuehne, all of whom were excused due to illness; and Gattmann, who was excused from the day's session.

Mr. Sprecher offered four documents in refutation of the testimony of the Defense witness Peters that at the time of his interrogation in 1947 a statement which he had made was torn up by Mr. Minskoff and thrown on the floor.

Dr. Seidl, Counsel for Duerrfeld resumed presentation of Duerrfeld Document books.

Helmut Schneider was called as a witness for Duerrfeld and examined by Dr. Seidl. Mr. Minskoff cross-examined the witness.

The Tribunal pointed out that cross-examination of the last few witnesses had consumed too much time and stated that the Prosecution would be held to the rule allowing for cross-examination of witnesses of one-fourth of the time consumed in direct examination. The Prosecution would be at liberty to transfer to the commission any cross-examination for which the time allowed would not be adequate.

Dr. Rudolf Dix stated that the Defense wished to cooperate in maintaining the schedule set by the Tribunal but did not wish to go on record as approving it.

Dr. Seidl and Dr. Helmut Dix, Counsel for Schneider, re-examined the witness. Mr. Minskoff conducted re-cross examination and offered in evidence an interrogation of the witness by Mr. von Halle (Document MI-14516, Exhibit 2132). The Tribunal instructed the Prosecution to include in the exhibit a letter from the witness, who was then examined.

The Defendant Gattineau was excused from the afternoon session to prepare his case, and the Defendants Ambros and Krauch to attend a commissioner hearing.

The following documents were presented:

Case No. 6

PRESENT:

Judge Curtis Shake, Presiding

Judge Paul H. Hebert
Judge Clarence P. Merrill, Alternate

FOR THE PROSECUTION:

Mr. Minskoff

FOR THE DEFENDANTS:

Dr. Seidl and regularly appointed Defense Counsel

WITNESSES FOR THE DEFENSE:

Duerfeld

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Haefliger, Lautenschlaeger, Gajewski, all of whom were excused due to illness; and ter Meer, who was excused from the day's session.

The Tribunal recalled its ruling that, it not being feasible to bring certain Prosecution affiants to Nurnberg for cross-examination before the Commissioner, the Defense should file by 12 April interrogatories to be sent to the affiants, and announced that since only one interrogatory had been received—from Dr. Seidl for the affiant Klaus Elstner—the Tribunal considered the right of cross-examination of the other two affiants as having been waived by failure to file interrogatories. The Tribunal observed however that in weighing the testimony of these affiants it would be kept in mind that they had not been cross-examined. The interrogatory received would be forwarded with instructions that it be properly executed. In the event an answer was received the Prosecution affidavit (Exhibit 1455, Document NL-11061) would be stricken from the record.

Dr. Muesel stated that Dr. Hoffmann had filed interrogatories for the two remaining affiants, but this proved to be an error.

Dr. Seidl resumed examination of the Defendant Duerfeld, during which 50 photographs of the I. G. Auschwitz plant were projected on the screen and offered in evidence.

Dr. Rudolf Dix speaking for the whole Defense re-offered a motion that the Commissioner be authorized to rule on objections in commissioner hearings and further protested that the Prosecution was offering before the Commissioner documents which were rebuttal documents rather than documents

hearing strictly on the affidavit which was the subject of the cross-examination, and which often bore on the case of defendants not present at the hearing. The Tribunal proceeded a ruling on the first motion for 19 April. With respect to Dr. Dix's remarks about rebuttal documents, the Tribunal observed that the Commissioner's authority did not go beyond strict cross-examination regarding the affidavit in question and that rebuttal documents to have any weight would have to be offered before the Tribunal.

The Defendants Schmitz, von Schuiteler, Baergen, and Haegele were excused from the afternoon session.

Dr. Saidl offered the following documents:

Case No. 6

Judge Clarence F. Maxwell, Alternate

FOR THE PROSECUTION:

Mr. Sprecher, Mr. Minskoff

FOR THE DEFENDANTS:

Dr. Seidl and regularly appointed Defense Counsel

WITNESSES FOR THE DEFENSE:

Fritz Hirsch
Friedrich Geffner
Heinrich Gattineau (Defendant)

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Lautenschlaeger, Haefliger, Oster, Gajewski, and von Kriesen, who were ill.

The witness Fritz Hirsch was called as witness for Bitterfeld and examined by Dr. Seidl. Mr. Minskoff stated that cross-examination of the witness would require about 8 hours, and that in accordance with the recent ruling of the Tribunal the cross-examination should perhaps be heard by the Commissioner. The Tribunal ordered that the cross-examination be transferred to the Commissioner, and the witness was temporarily excused.

The witness Friedrich Geffner was called and examined by Dr. Seidl. Mr. Minskoff cross-examined the witness who was then excused.

Dr. Schubert withdrew a previous application for documents relating to Bitterfeld in the possession of the Prosecution with the explanation that the Prosecution having already returned to Bitterfeld all documents not of interest to the Prosecution, the application was now superfluous. Mr. Sprecher stated that so far as he knew photostatic copies had been made of all documents brought from Bitterfeld, and that these copies were still available. The Tribunal asked Dr. Schubert and the Prosecution to confer on the matter.

The Tribunal suggested that the Prosecution whenever possible make available to the Defense in advance rebuttal documents offered during cross-examination of witnesses. Mr. Sprecher stated that an index of such documents was being prepared and would be distributed next week.

Dr. Seidl completed the presentation of his documents books. The Prosecution objected to Document Book XVIII, and the documents contained therein were offered for identification only, pending a ruling by the Tribunal.

Dr. Aschenauer began the case-in-chief for Gattinen and called his client to the stand.

The Defendants Ilgner and Mann were excused to attend the hearing before the Commissioner at 1000 hours. The Defendants ter Meer and Engler were excused for the afternoon to confer with counsel. The Defendant von der Heyde was excused for the afternoon and for Thursday and Friday, and the Defendant Schneider for Monday and Tuesday.

The following documents were offered:

MINUTES

Case No. 4

PRESENT:

Judge Curtis E. Shaker, Presiding
Judge James Morris
Judge Paul M. Hebert
Judge Clarence F. Merrill, Alternate

FOR THE PROSECUTION:

Mr. Sprecher and staff

FOR THE DEFENDANTS:

Dr. Aschenauer and regularly appointed Defense Counsel.

WITNESSES FOR THE DEFENSE:

Gattineau

PROCEEDINGS:

The Tribunal convened in Court Room 500, Palace of Justice, at 0900.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Hasfliger, Gajewski, von Kieriam, von der Heyde, all of whom were excused.

Dr. Aschenauer continued examination of the Defendant Gattineau.

In answer to Dr. Dix's motion of 7 April in behalf of the entire Defense relative to making available to the Defense documents in the possession of the Prosecution, the court directed the Prosecution to provide the Defense with copies of its "Staff Evidence Analyses" of all documents in the Document Center originating in the offices or plants of I. G. Farben. These analyses will include "title and general nature", "date", and "source" but not data of a confidential nature. "With these Staff Evidence Analyses Counsel for the Defense will be enabled to examine and make copies of any documents in the Document Center which they deem necessary in the trial of their case".

In answer to a motion of Dr. Dix of 15 April 1948, in behalf of all the Defense, to re-open the subject of the legal sufficiency of the Indictment, the Tribunal ruled that the alleged plunder of Skoda-Wetzlar and Aussig-Falkenau, if established by evidence would not constitute a crime against humanity since it was limited offenses against property, nor would it constitute a war crime since it occurred in territory not under belligerent occupation by Germany. With regard to the allegations in Court 5, relating to conspiracy to commit war crimes and crimes against humanity the Tribunal ruled that "a common plan or conspiracy" does not exist as a matter of law with respect to war crimes and crimes against humanity. However...it is alleged that the acts and conduct of the defendants set forth in Courts 1, 2, and 3 are by reference incorporated in Court 5. Therefore, evidence of such acts or conduct may...be

considered with respect to the alleged conspiracy or common plan to commit crimes against peace.

At the request of Dr. Dix the Tribunal deferred its ruling on his motion relating to Prosecution Exhibit 334 until Dr. Dix should have an opportunity to present newly received documents in support of his motion.

The Defendant ter Meer was excused from the afternoon session.

Dr. Aschenauer offered the following documents:

Case No. 6

PRESENT:

Judge Curtis Shaks, Presiding
Judge James Morris
Judge Paul M. Hebert
Judge Clarence F. Merrill, Alternate

FOR THE PROSECUTION:

Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

WITNESSES FOR THE DEFENSE:

Defendant Erich von der Heyde

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Haefliger, who was ill; and Schneider, who was excused from the day's session.

The Tribunal announced the following ruling on Gattineau Document Book VIa and VIb:

Document Book VIa: Prosecution's objection sustained to Exhibits 133 through 135, 137 through 145, and 147. Exhibits 136 and 146 received in evidence.

Document Book VIb: (Exhibits 148-184): rejected in its entirety.

Three motions introduced in behalf of the Defendant Gattineau on 17 December 1947, 7 January 1948, and 6 April 1948, were denied.

Mr. Sprecher offered for the approval of the Tribunal the Prosecution's plan of compliance with the Tribunal's order to make available to the Defense the Staff Evidence Analyses of documents originating with I. G. Farben. Five thousand of these analyses, with the confidential information deleted, have been placed in Room 413, where they would be available to Defense Counsel. Additional analyses would be delivered to Room 413 as rapidly as possible.

Dr. Siemers wished to begin the presentation of his first five documents books, but as only Book I and V were in the hands of the Tribunal, the latter declared that it would prefer to receive further documents books only after the completion of the remaining cases-in-chief, and called on Dr. Hoffmann to begin the case-in-chief for the Defendant von der Heyde.

Dr. Berndt asked to be allowed to present his case for the Defendant ter Meer following the case for Engler and after von Schnitzler Document Books III, IV, and V had been offered. The presiding judge referred Dr. Berndt to Judge Hebert to discuss this question of schedule.

Dr. Walte completed offering the documents in Hoerlein Document Book VI.

Dr. Hoffmann called the Defendant von der Heyde as witness.

The Tribunal (Judge Hebert) announced changes in the previously announced schedule: The time allotted for final argument for the Defense had been extended by 2 days to allow additional argument applicable to all the defendants. In order to allow more time for closing arguments, the time set for completing evidence had been moved up from 19 May to 12 May. Oral arguments would begin 2 June and closing briefs must be filed by that date. Closing arguments and final pleas were to be filed 10 days previous to 2 June. Counsel was cautioned against processing more material than could be used in the time allotted.

The Defendant Hoerlein was excused for the hearing before the Commissioner at 1000 hours, and the Defendants, Eshne, Krunch, Jaehne, Schneider, Bueffisch and Duerrfeld for the hearing at 1300 hours. The Defendant Ilgner was excused from the session of 27 April. The Defendant Hoerlein was excused for an indefinite period beginning the 27 April.

FOR THE DEFENDANTS:

WITNESSES FOR THE DEFENSE:

Defendant von der Heyde
Hans Kaeumeler
Hermann Underle
Friedrich Silcher

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0900 hours.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Haefliger and Hoerlein, who were ill; and Hlghar, Gajewski, who were excused for the day.

The Tribunal announced the following rulings:

Dr. Bribilla's motion requesting separation of proceedings against the Defendant Lautenschlager was denied on the ground that it had not been established that the Defendant Lautenschlager was incapable of the proper conduct of his defense.

The motion of Dr. Helte to strike Prosecution Exhibit 1866, WI-13590, was sustained in so far as it applied to Page II of the original. This part as well as all of the cross-examination of the Defendant Hoerlein pertaining to it was stricken.

All documents in Duerffeld Documents Book XVII (Exhibits 425-456) were rejected except Exhibits 427, 429, 432, 436, 440, 441, 446, 457, which were admitted in evidence.

Mr. Sprecher concluded cross-examination of the Defendant von der Heyde.

Hans Kaeumeler was called as witness for von der Heyde, examined by Dr. Hoffmann, cross-examined by Mr. Sprecher, and excused.

Hermann Kuderle was called as witness. Dr. Hoffmann examined and Mr. Sprecher cross-examined the witness, who was then excused.

Dr. Friedrich Bilcher (Assistant Counsel for von Knieriem) took the witness stand and was examined by Dr. Hoffmann. Mr. Sprecher conducted cross-examination and the witness was excused.

Dr. Hoffmann stated that his case-in-chief for the Defendant von der Heyde was completed except for the few documents which remained to be presented.

The Tribunal announced that it was now ready to consider the objections in the record of hearings before Commissioner Mulroy and requested Counsel to indicate any objections which they were willing to waive. Mr. Sprecher stated that the Prosecution would waive all objections.

The Tribunal asked the Prosecution and Defense to prepare a joint stipulation stating when, where, and for what period of time each of the Defendants had been in prison.

Dr. Hense began his case-in-chief by calling his client, Dr. Hans Eugler, as witness.

The Defendants Duerffeld and Boetefisch were excused to attend the afternoon hearing before the Commissioner.

FOR THE PROSECUTION:

Mr. Sprecher, Mr. Newman, and staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0903.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Haefliger and Hoerlein, who were ill.

Mr. Newman resumed cross-examination of the Defendant Engler. Re-direct examination was postponed to allow Counsel to study documents offered by the Prosecution in cross-examination. Dr. Engler was excused to confer with Counsel about these documents.

Dr. Fribilla presented Lautenschlaeger Document Books III, IV, and V.

Dr. von Kospatt offered a motion that, since the Defendant Lautenschlaeger had not been called to the stand, his affidavits not be allowed to prejudice other defendants. The Tribunal stated that the motion was in order but requested Defense Counsel to hold all such motions until the conclusion of the evidence and that all be presented together.

The Defendant Engler was recalled to the stand for re-direct examination by Dr. Kraft, Dr. Henzel, and Dr. Siamers, Counsel for von Schnitzler. Mr. Newman introduced one further document. The witness was questioned by Dr. Kraft about the document and excused from the stand.

Dr. Malte speaking for the entire Defense asked that a meeting be arranged to discuss the documents, staff analysts of which had been supplied by the Prosecution, and that the defendants be excused to attend. The Tribunal stated that it did not wish to delay the trial, but that such a meeting could be arranged for a Saturday or Sunday.

Dr. Aschenauer interrupted the proceedings to ask the Tribunal to rule on the admissibility of a document presented by the Prosecution before the Commissioner. The Tribunal stated that it could not rule on the objection until the transcript was available and suggested that Dr. Aschenauer cross-examine the affiant without waiving his right to object to admission of the document.

Judge Hebert announced that half an hour would be set aside at 1330 hours, 30 April, for the Prosecution to offer its Rebuttal Book 92.

Dr. Siemers offered von Schnitzler Document Book I and part of Book II.

The Defendants Mann, Gattineau, and Ilgen were excused to attend the morning hearing before the Commissioner. The Defendants Gattineau, Ilgen and Gajewski were excused for the afternoon session. The Defendant Gattineau was excused from attendance on 30 April.

PALACE OF JUSTICE, NUREMBERG, GERMANY

THE UNITED STATES OF AMERICA,

MINUTES

Case No. 6

PRESENT:

Judge Curtis Shake, Presiding
Judge James Morris
Judge Paul M. Hebert
Judge Clarence F. Merrill, Alternate

FOR THE PROSECUTION:

Mr. Sprecher

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

WITNESSES FOR THE DEFENSE:

Defendant ter Meer
Wilhelm Doerrling

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0915.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Haefliger and Sperlein, both of whom were ill.

Dr. Hoffmann, Counsel for Ambros, supported by Dr. Dix for the entire Defense, requested a two-week extension of the deadline for submitting documents and the deadline for the presentation of evidence, because of the problem offered by the some 12,000 documents recently made available to the Defense. The Tribunal stated that it was willing to discuss the question in chambers but was indisposed to delay the trial. The Defense explained that the extension requested would not delay the judgment but would merely permit the introduction of pertinent material after the date set.

Dr. Berndt concluded examination of the Defendant ter Meer, who was then questioned by the Tribunal (Judge Morris).

Mr. Sprecher conducted cross-examination.

Dr. Berndt asked to postpone his re-examination of the witness until after the noon recess to allow time for the defendant to read the documents offered in cross-examination.

Dr. Siemers objected to Prosecution Exhibit 2193. The objection to the document was overruled but all questions and answers based on the assumption that it was written by the Defendant von Schnitzler were stricken from the record.

Dr. Siemers objection to Exhibit 2196 was also overruled after the Tribunal had corrected its English versions to conform to the original document.

Mr. Spracher conducted re-cross examination.

Dr. Siemers further examined the witness who was then temporarily excused from the stand, and Dr. Siemers turned to the presentation of documents.

Following the noon recess Dr. Siemers completed the introduction of his document books.

The Defendant ter Meer remained the stand. Re-direct examination was conducted by Dr. Berndt and Dr. Siemers.

Dr. Siemers then called Dr. Wilhelm Doering as witness for von Schnitzler.

Upon motion of Dr. Siemers, Prosecution Exhibit 939 was stricken from the record.

The Defendants Ambros and Buetefisch were excused to attend the morning session before the Commissioner; and Ilgner and Buetefisch for the afternoon session.

The following documents were offered:

Case No. 6

PRESENT:

Judge Curtis Shaks, Presiding
Judge James Morris
Judge Paul M. Hebert
Judge Clarence F. Merrill, Alternate

FOR THE PROSECUTION:

Mr. Sprecher

FOR THE DEFENDANTS:

Dr. Siemers, Dr. Dix

WITNESSES FOR THE DEFENSE:

Hans Doering
Hans Fritzsche
Rudolf Esnermann

PROCEEDINGS:

The Tribunal convened at 0900 in Court Room 600, Palace of Justice.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Hasfliger and Hoeflein, who were ill.

The Tribunal announced rulings on four motions: Dr. Rudolf Dix's motion of 22 March 1948, to strike Prosecution Exhibit 334, Document VI-5187, was overruled. Dr. Hoffman's motion of 1 April 1948, requesting the Tribunal to rule that knowledge of criminal activities of organizations judged criminal by the IMT cannot be assessed in the case of individual members but must be proved in each instance, was overruled. The Tribunal will express no opinion in this question until the final judgment. Two motions of Dr. Lammert to strike Prosecution Exhibits 2072, 2074, 2079, and Exhibits 2064, 2070, 2073, 2075-2078, and 2080-2083 were overruled with the observation that Dr. Lammert was entitled to submit in their entirety any document of which the Prosecution had offered in part.

Dr. Siemers completed re-direct examination of the witness, Wilhelm Doering. Mr. Sprecher re-cross-examined the witness, who was then excused.

Dr. Rudolf Dix presented Schwitz Document Books V, V Supplement, and VI.

Because of the number of affiliates to be heard before the Commissioner, the Tribunal authorized James J. Mulroy to hear cross-examination of the Defense affiliates Tanb, Dion, and Bisfeld.

Dr. Bosttcher offered Brack Document Book IX and two supplements, the document book on Prisoners of War and two document books on German Foreign Policy.

The Prosecution offered its second rebuttal book, Document Book XCIII.

Hans Fritzsche was called as witness and examined by Dr. Boettcher, Dr. Hoffmann, Counsel for von der Heyde, and Dr. Rudolf Dix, Counsel for Schmitt. Mr. Sprecher conducted cross-examination, and Dr. Boettcher re-direct examination, and the witness was then excused.

Dr. Boettcher then presented the third document book of German Foreign Policy.

Rudolf Bismarck was called as witness, and his examination was begun by Dr. Boettcher.

The Defense presented in writing its objections to the documents in the Prosecution's rebuttal book.

The Defendants Mann and Bueflich were excused for the morning hearing before the Commissioner, and the Defendants Duerffeld, Ambros, Mann, and Bueflich were excused for the afternoon hearing.

The following documents were presented:

Mr. Sprecher and staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice at 0900.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Hoefliger and Hoerlein, who were ill.

The Tribunal announced its ruling to the objections to documents in Prosecution Document Book 92. Exhibits 2154, 2172, 2174, 2175, 2176, 2177, 2178, 2184, 2185, 2186, 2187, 2188, 2189, and 2190 were stricken. Exhibit 2173 was admitted.

The Ruling of the Tribunal with regard to objections offered before the Commissioner was: Objections on pages 4653, 5495-8, 5504-06, 6849, 6851, 6852, 7925, 7928, 9298, 9310-40, 9352-3, 9356, 9363, 9365 of the transcript were overruled; objections on pages 5013, 6974, 6976-7, 9294, 9301-02 were sustained.

The Tribunal stated that it would rule on those objections made during hearings before the Commissioner which had been called to its attention but would postpone ruling on any other objections until it considered the case as a whole.

Referring to three motions, one of 17 December on behalf of all or practically all of the defendants, one of 6 January on behalf of the Defendant Cattinman, and one of 11 December on behalf of the Defendant Kuehne asking for a finding of not guilty, the Tribunal declared that it would not make a ruling but would consider the motions together with the briefs and arguments in the final decision of the case.

Dr. Dix offered a list of the period of time each of the defendants had been in custody requested by the Tribunal. The Tribunal directed that the list be given the Prosecution for concurrence.

Dr. Dix then presented in writing a motion previously made orally with respect to Prosecution Document 334. Mr. Sprecher offered the Prosecution's answer.

Dr. Silcher showed slides of the charts offered in Basic Information Document Book II and offered Basic Information Document No. 27 as Defense Exhibit 276, an affidavit by Georg Belz certifying to the correctness of the charts.

The Defendant Mann was excused for the morning hearing before the Commissioner.

Mr. Sprecher and Dr. Rath made two stipulations: 1) only those parts of Prosecution Exhibit 2332 (SI-3753) not stricken in a copy handed to the Secretary General would be considered in evidence; and 2) in Prosecution Exhibit 2351 only the first two sentences of Paragraph 1 and Paragraph 7 would be in evidence.

Mr. Sprecher also corrected an error in his summary of the status of Prosecution exhibits made on 20 April. Prosecution Exhibit 1600 remains for identification only, contrary to his statement at that time.

Mr. Sprecher said that the Prosecution would consider the affidavits lately offered by the Defense and would make a statement on 10 May. He was reminded by the Tribunal that 12 May was the deadline for hearings before the Commissioner.

The Tribunal stated that any defendants wishing to attend the cross-examination of the affiants Doering, Faust, and Harr before Commissioner Mr. Mulroy would be excused.

Dr. Rath called the Defendant Kuehn as a witness for re-direct examination.

Mr. Sprecher conducted re-cross-examination.

Dr. Rath then introduced Kuehn Documents 119 and 120 as Exhibits 119 and 120.

The Tribunal directed the Defendants Schmitz and von Schmitzler be permitted to have the use of the Document Center during the afternoon and that the Defendants Ambrose and Duerrfeld be permitted to attend the afternoon Commissioner's hearing.

FOR THE PROSECUTION:

Mr. Sprecher and Staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

WITNESSES FOR THE PROSECUTION:

Hans J. Wolffsohn

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0910.

The Marshall ascertained that all the defendants were present in the Court Room with the exceptions of Haefliger and Hoerlein, who were ill.

The Defendants von Schmitzler, Guerrfeld and ter Meer were excused for the morning session before the Commissioner.

Dr. Dix offered a motion to strike passages in the affidavit of Wolffsohn (Prosecution Exhibit 2236) which quote the Defendant von Schmitzler in so far as the quotations incriminate co-defendants.

Mr. Sprecher stated Defense and Prosecution had stipulated that only the last three questions and answers of Prosecution Exhibit 2342 would be considered in evidence and that the affiant, von Puttkamer, would not be called for examination.

Document NO-1315, which had been erroneously stated by Mr. Minakoff on 24 November as being already in evidence, was offered as Prosecution Exhibit 2255.

Document NI-15289 was introduced as Prosecution Exhibit 2256, as certification of Prosecution Exhibit 2118.

Document NI-15150 was offered as Prosecution Exhibit 2257.

Mr. Sprecher made a statement regarding the status of Prosecution Exhibits offered after 13 April 1948, dividing them into three categories:

Category I: Rejected Exhibits 2154 through 2156, 2161 through 2166, 2169, 2171, 2172, 2174 through 2179, and 2183 through 2190.

Category II: Documents remaining for identification only: 2133, 2134, 2145, 2160, 2161, 2162, 2191, 2308, 2310, 2313, and 2347.

Category III: Exhibits offered for identification now offered in evidence: 2131, 2132, 2135, 2322, 2325, 2326, 2335, and 2341.

He stated that since the statement of 20 April the Tribunal had struck Prosecution Exhibit 939.

The Prosecution states that the sick reports mentioned in Prosecution Exhibit 1715 (NI-12452) were available, but pointed out that they were bulky. The Tribunal suggested that Prosecution and Defense come to some agreement in order to reduce the burden of translating and mimeographing of so long a document.

At the request of Dr. Rudolf Dix, the Prosecution stipulated that the copy of the interrogation of the Defendant Schmitt which showed that the latter's attention had been called to American Military Government Ordinance No. 1, was correct.

The Tribunal then ruled on the objections to documents in Prosecution Document Books 93 and 94: Exhibits 2209, 2210, 2212, 2214, 2218, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2238, 2241, 2242, 2243, 2247, and 2248 were stricken.

Exhibits 2199 and 2201 were admitted subject to the right of the Defendant Krusch to answer them.

Exhibit 2211 was stricken from rebuttal documents but not excluded from use in cross-examination.

Exhibit 2221 was stricken from the rebuttal book because it was already in evidence.

Exhibit 2236 was admitted as far as it is applicable to the special issue as to the weight to be accorded to the affidavits of the Defendant von Schnitzler and to the interrogations in evidence.

Exhibits 2240 and 2244 were admitted.

Defense Exhibits 45 through 52 (PW Documents 21-28) were stricken.

Of Dr. Dix's objections before the commissioner, those on pages 9596, 10895, 11154, 11159, 11160, 11172, 11494, 11466, 11477, 11478, 11480, 11862, 12113, 12477, and 12482 were overruled. Those on Pages 10890, 10893, 11483, 11711, 12349, and 12350 were sustained.

Dr. Siemers requested permission to cross-examine the Prosecution affiant Welffsch.

Dr. Reintzler, Counsel for Wurster, asked that Prosecution Documents 2118 and 2256 be stricken. The objection was overruled.

Dr. Hoffmann offered Ambros Document Book C and two additional documents were not provided. Exhibit 194, previously offered before the Commissioner for identification only was offered in evidence and provided.

Mr. Sprecher pointed out the impossibility of cross-examining all Defense affiants by the deadline set by the Tribunal.

Dr. Seidel offered Doerrfeld Document No. 1523 as Exhibit 467, Doerrfeld Document No. 1524 as Exhibit 468, and Document NI-11129 as Exhibit 469.

Dr. Schubert offered Puergin Document Book VIII and IX as Exhibits 94-100.

Dr. Hachen, Counsel for Ilgner, offered Documents Books XI, XIIA, and XXII and the supplement to XIIA and B. Ilgner Exhibit 32, offered for identification 31 December was offered in evidence.

Dr. Hoffmann offered the evidence in the single von der Heyde Document Book.

Mr. Sprecher offered Prosecution exhibits 2258 through 2263. Because of an error in translation paragraph 6 of Exhibit 2263, HI-15264, was not offered.

Dr. Hach Counsel for Enckes, Dr. Schnibert, Counsel for Buergin, and Dr. von Mettler, Counsel for Gajewski, objected to Prosecution Exhibit 2263, and the Tribunal suggested that they prepare a motion jointly.

Dr. Siemers, Counsel for von Schmitzler, requested that the Defendant Maefliger be brought from the hospital the next day for examination.

Dr. Flachsenner offered the documents in Baetefisch supplement Book 3.

Dr. R. Dix introduced two Schneider exhibits, 300 and 301.

Dr. Boettcher offered three Kranch exhibits.

Hans Wolffsohn was called as a witness, cross-examined by Dr. Siemers who offered for identification von Schmitzler Exhibit 182, and Dr. von Keller and Mr. Sprecher conducted re-direct examination. The witness was then excused.

Dr. Aschenauer offered the documents in Supplement 3 of Gattineau Document Books I to V.

Mr. Sprecher offered document HI-1529 as Prosecution Exhibit 2264.

Dr. Henze, Counsel for Ingler and Oster, offered one Ingler document and one Oster document and provided certification for Oster Exhibit 14, Document 3.

Dr. Berndt, Counsel for ter Meer, called the Defendant ter Meer as witness. Dr. Berndt and Dr. Siemers examined the witness, who was then questioned by the Tribunal and excused from the stand.

Case No. 6

PRESENT:

Judge Curtis Shake, Presiding
Judge James Morris
Judge Paul M. Robert
Judge Clarence F. Merrill, Alternate

FOR THE PROSECUTION:

Mr. Sprecher and staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

WITNESSES FOR THE DEFENSE:

Helmuth Vitz, Hans Maenck

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice at 0900.

The Marshall ascertained that all the defendants were present in the courtroom with the exception of Boerlein, who was ill.

Dr. von Metzler, Counsel for Gajewski, presented Gajewski Document No. 85 as Gajewski Exhibit 82.

The Tribunal announced the following rulings:

With respect to Dr. Dix's motion of 5 May 1948 on behalf of all defendants, it was ruled that affidavits made by defendants who did not take the stand would not be considered as evidence against defendants other than the affiants themselves.

Prosecution Exhibit 334 (NI-5187), an affidavit by ter Meer, would be considered as admissible for all defendants and the statement of the Defendant Schmitz quoted therein would not be stricken. Judge Robert and Judge Merrill expressed dissenting opinions.

The motion presented by Dr. Boettcher on behalf of the Defendant Krauch on 10 May to strike Prosecution Exhibits 1840, 1841, 1842, 1843, 1979, and 1980 was overruled.

Dr. Dix's motion of 7 May on behalf of the Defendant Schmitz with reference to Prosecution Exhibit 334 was denied in view of the statement made by the Prosecution on 10 May.

Dr. Aschenauer's motion of 5 May 1948 relating to Document 3763 was denied because the exhibit number had not been given and the Tribunal did not have time to search the record to identify the document.

The motion of Dr. Plaschauer and Dr. Hoffmann, of 11 May 1948, to strike Prosecution Exhibits 2206, 2207, and 2208 was overruled on the grounds that the objections went to the weight of the evidence rather than its admissibility.

The motion of 10 May 1948 on behalf of the Defendants Gajewski, Buergin, Lentenechlaeger, and Kuschke with regard to Prosecution Document 2263 was sustained and the document stricken.

Eight motions offered by Defense Counsel as a whole on 7 May 1948 relating to the competency of the Tribunal would not be ruled on until after hearing all arguments of Counsel.

Dr. Berndt called Dr. Hellmuth Vits as a witness on economic regulations under the Third Reich. The witness was examined by Dr. Berndt, cross-examined by Mr. Sprecher, re-examined by Dr. Berndt, and excused.

Dr. Wagner, Counsel for Muster, offered Muster Document 330 as Exhibit 257.

Dr. Silcher offered in evidence von Krierem Exhibit 25 previously offered for identification only, and offered von Krierem Documents 39-41 as Defense Exhibits 280-282.

Dr. Dix stated that he was presenting a motion signed by Dr. Wahl and Dr. Dix concerning the jurisdiction of the court.

Dr. Silcher stated he had made a stipulation with the Prosecution that the Defendant von Krierem, if called to the stand, would make the same statement as in the note in Document No. 26, Exhibit 25, and that the note could, therefore, be evaluated as a statement under oath.

Dr. Gierliche offered Schmitz Document No. 111 as Schmitz Exhibit 111, and DAG Documents 36 to 40 as Defense Exhibits 283 to 287, and requested that on the basis of evidence offered in Document DAG 39 the Tribunal strike the cross-examination of the Defendant Schmitz referring to Prosecution Exhibit 234. The Tribunal asked Dr. Gierliche to offer the motion informally in writing.

Dr. Siemers and Dr. Rudolf Dix requested permission to examine the Defendant Ilgner. The Tribunal directed that the examination of Ilgner be held before the Commissioner.

The Defendant Haefliger was called to the stand and examined by Dr. Siemers, Counsel for von Schnitzler. The Prosecution did not cross-examine.

Dr. Siemers offered the documents in von Schnitzler Document Book I.

Dr. Schibert, Counsel for Buergin, questioned his client with regard to certain rebuttal documents. Mr. Sprecher conducted cross-examination.

The Defendants Krauch, Schneider, Bueteflach, and Duerfeld were excused for the afternoon hearing before the Commissioner.

Dr. Hoffmann, Counsel for Ambros, called Hans Muench as witness, who was examined by Dr. Hoffmann and Dr. Helmut Dix, Counsel for Schneider. Mr. Minskoff conducted cross-examination, Dr. Seidl re-direct examination and Mr. Minskoff re-cross-examination. Dr. Helmut Dix again questioned the witness, who was then excused.

Dr. Gierliche announced a stipulation agreed to by the Prosecution whereby an error in Prosecution Exhibit 234 would be corrected and the testimony of the Defendant Schmitz based on this exhibit (30 April) stricken from evidence. The document would, however, remain in evidence. The Tribunal accepted the stipulation.

Dr. von Hespatt, Counsel for Krauch, offered Krauch Document 157, as Exhibit 210.

Dr. Berndt offered the documents in Supplement to Mann Document Books IV and V as Mann Exhibits 326-333 and Documents 458 and 461 as Exhibits 334 and 335. He also offered Degesch Documents 65-85 as Degesch Exhibits 56-74.

Dr. Dix asked for reconsideration of the Tribunal's ruling on his motion of 5 May in the light of new evidence. The Tribunal suggested he file a new motion.

Dr. Weyer made a motion that the testimony of the Defendant Schmitz, based on Prosecution Exhibits 2158, 2156, and 2157, now stricken, be also stricken from evidence. The motion was denied.

Dr. Siemke withdrew von Schnitzler Exhibit 218, Document 213 in Book X, which he had offered earlier in the session and offered Exhibits 219-223.

Exhibit 152, von Schnitzler Document 223, previously offered for identification only, was offered in evidence.

Mr. Sprecher offered the interrogation of von Schnitzler, Document HI-15300, as Prosecution Exhibit 2265. The document was not provided, pending processing.

The Tribunal announced with regard to interrogatories which had been sent out in lieu of cross-examination of affiants, that if the interrogatories were received by 1 June they would become part of the record; if they had not been received, the corresponding affidavits would be stricken.

May 12 would be the last day for receiving evidence, with two exceptions: the testimony to be taken in Switzerland would be received if submitted by 1 June and testimony to be taken in Marburg on 15 May would be accepted.

Since Judge Crawford would not be available on 12 May, the witnesses to have been examined before him were transferred to Mr. Malroy.

The information regarding the length of confinement of each defendant was stipulated to by the Prosecution and passed to the Secretary General by Dr. Rudolf Dix.

Pending some agreement with the Prosecution for processing the necessary excerpts, the entire lot of sick reports from Anaschitz (HI-12452) was offered in evidence, without being provided, by Dr. Halte as Hoerlein Document No. 215, Exhibit 143.

Dr. Halte withdrew Hoerlein Exhibit 71 (Document 79) and substituted for it Hoerlein Document 216, Exhibit 144. The third paragraph of Question 10 on Page 8 of this document was withdrawn.

Dr. Seidl corrected an error in the numbering of Duerrfeld documents. Exhibit 154 in Duerrfeld Document Book XIV should be Document 1254 instead of 1253.

The following documents were offered:

Case No. 6

PRESENT:

Judge Curtis Shanks, Presiding
Judge James Morris
Judge Paul M. Hebert
Judge Clarence F. Merrill, Alternate

FOR THE PROSECUTION:

Mr. Sprosser and staff

FOR THE DEFENDANTS:

Regularly appointed Defense Counsel

PROCEEDINGS:

The Tribunal convened in Court Room 600, Palace of Justice, at 0930.

The Marshall ascertained that all the defendants were present in the courtroom.

The Tribunal accepted the fifth and final report of Mr. James G. Mulroy and the report of Judge Johnson T. Crawford and ordered the proceedings conducted before these two commissioners incorporated as part of the record of the case and Mr. Mulroy and Judge Crawford relieved of further responsibility to the Tribunal.

The Tribunal inquired whether an affidavit by Pistor had been received through the mail was needed by the Defense. Dr. Schubert answered that it was not in his document book.

In reply to an inquiry by the Tribunal, Dr. Bisenblatter stated that no further evidence was to be offered as a result of the interrogation of Weber in Switzerland.

Dr. Bisenblatter explained that Dr. Fröhlich, Counsel for Lautenschlager, was ill in a hospital in Puerth and that the schedule set for the final pleas might consequently have to be altered.

The Tribunal inquired whether there were any interrogatories sent in lieu of cross-examination of affiants which had not been returned. Dr. Seidel said that no reply had been received from the Prosecution affiant Guenther Lotzmann, and moved that Prosecution Exhibit 1450, Document HI-10166 be stricken in accordance with an earlier statement by the Tribunal. The motion was sustained.

In answer to an inquiry by Dr. Rudolf Dix, Mr. DuBois stated that all Prosecution briefs would be in the hands of the Secretary General by 2 June.

Dr. Rudolf Dix asked the Tribunal to make arrangements for the assistants and secretaries of Defense Counsel to have places in the courtroom. The Tribunal invited Defense Counsel to discuss the question with it and the Marshall in chambers.

The Tribunal accepted two joint stipulations announced by Mr. Sprecher concerning corrections in the record, one dated 10 May and one 27 May.

Dr. Halte raised the question of the translation of the German word, "Versuch", and asked that it be translated "test" rather than "experiment". The Tribunal declared that in view of the controversy over the translation of this word it would resolve the question as it would any other question of fact in its consideration of the evidence.

Dr. Halte submitted a written stipulation in place of Haeferlein Exhibit 143, previously offered but not processed.

Dr. Lammert, Counsel for Kuehn, provided the certificate for Kuehn Document 2, previously offered for identification as Kuehn Exhibit 2 and offered the document in evidence.

Dr. Risselt, Counsel for Lautenschlaeger, called attention to a motion requesting that in case Prosecution Exhibit 2260, Document NI-9824, was accepted, an affidavit by Dr. Franz Ludwig Bisling be also accepted, as a Defense exhibit. The Tribunal stated that it would rule on this motion during the afternoon session.

Dr. Helmut Dix asked that the affidavits of the Defendant Schneider be stricken on the grounds that they were obtained on the basis of a Military Government decree.

Dr. Siemert re-offered von Schnitzler Document No. 213, Exhibit 215.

Dr. Dix, calling the attention of the Tribunal to the difficulty in obtaining testimony from foreign countries, asked to be allowed to submit two affidavits just received from Paris. The Tribunal stated that it was obliged to deny his request.

Mr. Sprecher stated that because translations were not available of all Defense exhibits the Prosecution had made no specific objections, but that it believed its general position was clear as to the relevancy and weight of the evidence submitted during the last days of the trial.

The Tribunal recessed from 1045 to 1330 hours.

Dr. Halte charged that the affidavit of Mr. Ugar covering the content of Document NI-14997 was inaccurate. The question was primarily the translation of the word "Versuch". The Tribunal ordered that the entire document NI-14997 be included with Mr. Ugar's affidavit, Prosecution Exhibit 2262, NI-15299, without being translated or processed.

Dr. Rudolf Dix observed that there were serious inaccuracies in the translation of his final plea and asked that the interpreters not follow the English version too closely. The Tribunal observed that Counsel was entitled to have the translation say what he wanted it to say, and advised Counsel to submit any corrections in the translation informally in writing.

The Tribunal announced its ruling on outstanding motions:

Three motions would not be ruled on but would be considered in the final judgment; namely, the motion of Dr. von Ketsler on behalf of most of the defendants dated 17 December; the motion of Dr. Lammert on behalf of the Defendant Kuehn, dated 11 December; and the motion of Dr. Dix on behalf of a large number of the defendants, dated 7 May.

The motion offered during the morning session by Dr. Eismenblatter to introduce an affidavit by Dr. Bieling was approved, and the affidavit was admitted as Lautenschlaeger Document No. 72, Exhibit No. 70.

Dr. Dix's motion to strike Prosecution Exhibits 917, 1328, 1329, 1333, and 1428, was overruled.

Von Schnitzler Exhibits 224 (Document 226), and 30 (Document 27) were admitted; Documents 227, 228, 229, and 230 were excluded.

The Prosecution's motion incorporated in its answer to Dr. Siewer's motion was overruled.

Prosecution Exhibit 2236, Document HI-15266, would be considered as withdrawn and the testimony of Wolfachn referring to 1945 and 1946 would be stricken.

The Tribunal requested that during the final arguments any matter to be brought before the Tribunal be discussed first in chambers.

The Tribunal adjourned at 1430 hours until 0900, Wednesday, 2 June 1948.
